

ORDINANCE  
82-8

AMENDMENT TO ORDINANCE PERTAINING TO PUBLIC  
HEALTH ESTABLISHING RULES REGULATING WATER  
SUPPLY SYSTEMS AND SEWAGE DISPOSAL SYSTEMS

BE IT RESOLVED that the Ordinance pertaining to Public Health Establishing Rules Regulating Water Supply Systems and Sewage Disposal Systems adopted the 13th day of May, 1980, shall be amended as follows:

ARTICLE I--GENERAL PROVISIONS

Section 8. When an aerobic septic system with a Class "I" Effluent is installed in Kendall County, there shall be a secondary sand filter installed, sized as follows: 50 sq. ft. of filter area per bedroom of the home. This filter shall precede the chlorine contact chamber.

Section 9. When a septic system that has a surface discharge point is installed in Kendall County, the line from the chlorination chamber to the final discharge point shall be installed as an absorption or trickler trenc to minimize the amount of effluent to be discharged.

ADOPTED and APPROVED this 13 day of July 1982.

Robert S. Cherry  
Robert S. Cherry, Chairman  
Kendall County Board
