The County Board is the elected body that sets county policy, ordinances and budget appropriations for programs. The Board consists of ten members elected from two districts on a partisan basis to four year, staggered terms. However, every ten years Illinois statute requires one election to fill all Board positions and staggering occurs through a random drawing for two or four year terms. The Board also has ten standing committees that meet on a monthly basis in addition to ad hoc committees for special topics and construction projects.

#### Legal Status

## **Extension Education Service Fund**

### **Fund Description**

Extension educational programs are offered in four broad areas:

- 1. 4-H Youth Development
- 2. Family and Consumer Sciences
- 3. Community Development
- 4. Agricultural and Natural Resources

The County Board approves a special levy to help fund the Extension Office's activities.

In 1987, the voters of Kendall County supported a referendum to establish a maximum rate of 2.5%.

The amount to be so appropriated by the County Board may be reduced by the total of any private gifts or grants specifically made to support the county extension programs.

### IL Statute: 505 ILCS 45/8

The county governing board shall annually...consider the total funds needed for Cooperative Extension Service programs in the county. The county governing board may appropriate and pay 50% of the total so determined from the general corporate fund or other available funds or from an existing education tax of the county for the extension educational program in the county. The State allocates matching dollars annually.

Receipts for this fund come from drug forfeitures & fines and donations. It is used to offset the expenses of the General Fund and is allocated entirely by the Sheriff. The expenditures are largely a pass-through account for CPAT, the undercover narcotics force. Other expenses also include 1/2 of the total Sheriff's Office Nextel phones, DARE program costs, the annual car show, and since 1992 it has purchased unmarked cars for the Sheriff, command staff and detectives, as well as motorcycles.

# Kendall County Rating

Standard & Poor's Rating Services assigned its 'AA' long-term rating, and stable outlook, to Kendall County's Series 2010 General Obligation (GO) Bonds (Alternate-Revenue Source). The rating service also affirmed its 'AA' long-term rating and underlying rating (SPUR), with a stable outlook, on the county's existing GO debt.

The AA Rating reflects the County's:

•Access to, and participation in, the deep and diverse Chicago metropolitan statistical area (MSA) economy;

•Very strong income and wealth levels; and

•Maintenance of strong financial operations and level resources

The Stable Outlook reflects Standard and Poor's expectation that:

•The county will continue to maintain at least strong reserves in the face of the national economic downturn •Good planning and financial management efforts will allow management to adopt structurally balanced budgets while addressing currently identified capital needs as a manageable portion of the overall budget

•The county's participation in the Chicago metropolitan area provides further rating stability

# Standard & Poor's Ratings

# **Rating Watch**

Ratings are placed on Rating Watch to notify investors that there is a reasonable probability of a rating change and the likely direction of such change. These are designates as "Positive," indicating a potential upgrade, "Negative," for a potential downgrade, or "Evolving," if ratings may be raised, lowered or maintained. Rating Watch is typically resolved

# **Rating Outlook**

An Outlook indicates the direction a rating is likely to move over a one to two-year period. Outlooks may be positive, stable, negative or developing. The ratings from 'AA' to 'CCC' may be modified by the addition of a plus or minus sign. A positive or negative Rating Outlook does not imply a rating change is inevitable.

# Ratings

Standard & Poor's ratings are based on nine rating categories for long term obligations. They range from AAA (highest quality) to CC (lowest quality). D rated bonds are those that have been defaulted. Standard & Poor's then applies the modifiers "+" or "-" to denote relative status within major rating categories.

•AAA rated bonds are judged the best quality. This denotes the lowest expectation of credit risk. They are assigned only in case of exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.

•AA rated bonds are judged to be of very high quality. This denotes expectations of very low credit risk. They indicate very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

# **Debt Service Management**

•A rated bonds are judged to be of high quality. This denotes expectations of low credit risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to changes in circumstances or in economic conditions that is the case for higher ratings.

•BBB rated bonds are considered of good credit quality. This indicates that currently there are expectations of low credit risk. The capacity for payment of financial commitments is considered adequate but adverse changes in circumstances and economic conditions are more likely to impair this capacity.

•BB rated bonds are speculative. This indicates that there is a possibility of credit risk developing, particularly as the result of adverse economic change over time; however, business or financial alternatives may be available to allow financial commitments to be met.

•B rated bonds are highly speculative. This indicates that significant credit risk is present, but a limited margin of safety remains. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.

•CCC rated bonds are poor standing. For issuers and performing obligations, default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic conditions.

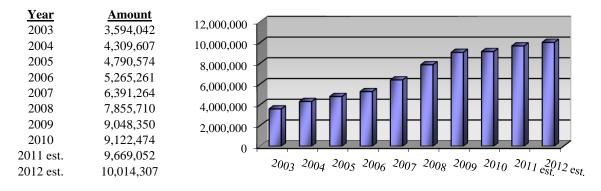

•CC rated bonds are speculative in a high degree. For issuers and performing obligations, default of some kind appears probable.

•D ratings are issued when an obligor has failed to pay one or more of its financial obligations (rated or unrated) when it came due. A 'D' rating is assigned when Standard & Poor's believes that the default will be a general default and that the obligor will fail to pay all or substantially all of its obligations as they come due.

## GENERAL FUND

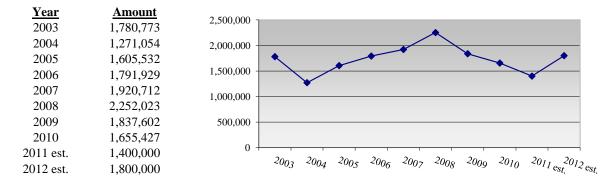

### 1. Ad Valorem (Property) Tax

Property tax receipts increase based on limits by state mandated tax caps. The value of property is equalized by 33% then divided by \$100.00 and multiplied by the County tax rate.

### 2. State Income Tax

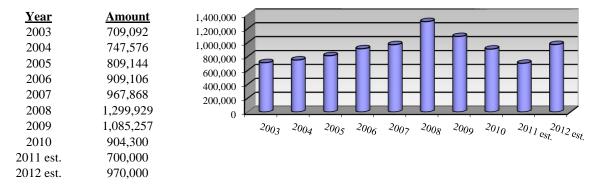

The State of Illinois distributes Income Taxes collected from residents based on a per capita basis. Estimates are based on projections made by various agencies. Rates have historically increased due to corresponding increases in income levels. However, the State of Illinois reduced distribution rates to all units of local government several years ago in order to meet state budget constraints.

### GENERAL FUND (cont.)

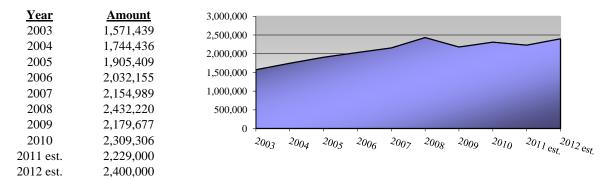

### 3. State Sales Tax

Counties throughout the state receive sales tax based on all sales collected in non incorporated areas of the county. Due to the stagnation of economic growth the county will see a decline in this revenue stream. In general, \$1 million sales of general merchandise in non incorporated areas equates to \$2,500 in revenue for the County.

### 4. 1/4 Cent Sales Tax

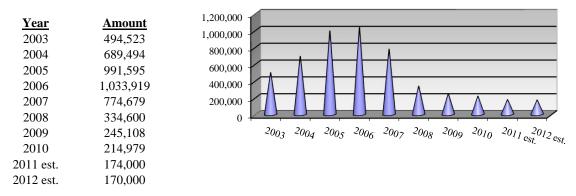

The State collects and distributes this tax to the County in addition to the traditional sales tax received by all counties. This tax shows increases and declines as the economic base of the incorporated and non incorporated Kendall County changes. In general, \$1 million sales of general merchandise in the incorporated areas equates to \$500 in revenue for the County.

### GENERAL FUND (cont.)

### 5. County Real Estate Transfer Tax

Fees charged to all entities selling property throughout the County. When a property is sold, the selling agents must contact the County and pay the appropriate fee to close on the property. This revenue stream has declined with the decrease in residential home sales.

### 6. County Clerk Fees

2011 est.

2012 est.

380,000

380,000

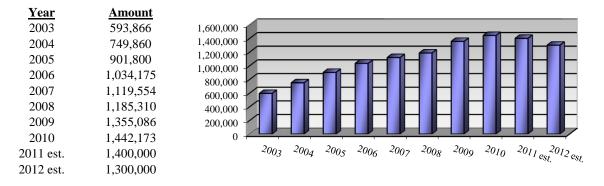

The County Clerk conducts various duties such as licensing (marriage licenses, death certificates) and charges the user for these services. These fees vary in rate and are often capped by state statute. Decreases in this account are directly related to stabilized growth in the community.

## PUBLIC SAFETY SALES TAX

Section 5-1012 of the Illinois Counties Code provides that counties can issue bonds, together with other existing indebtedness, up to 5.75% of their EAV. Section 1 of the Local Government Debt Limitation Act provides that counties with a population less than 500,000 have a debt limit of 2.875% of their EAV, however, this limit does not apply to debt incurred for the purpose of building county buildings.

#### **FINANCIAL GOALS & OBJECTIVES**

**Principal Issues** - The tax cap (PTELL) makes it difficult to raise additional property tax revenues for identified County projects without a referendum. The Kendall County Board prefers less reliance on property taxes when alternative revenues exist with voter approval. State budget deficits have reduced funds available for many area projects. Kendall County has no legal authority to collect county-wide transportation impact fees and such fees only cover a portion of overall transportation capital needs. The County also has no legal authority to collect a local tax on gasoline or fees on development within municipalities. November, 2006 voters approved a 1/2 percent sales tax to be used for transportation.

**Long Term Goals** - The County of Kendall is experiencing amazing growth. Alternative revenue sources must be found in order to sustain and improve upon the level of services that the Kendall County residents need for the long-term. To remedy this situation, the County has begun numerous activities aimed at granting them the authority to get the money needed for the safety and comfort of constituents. The two most important activities are the annual Legislative Agenda and the passage of the Transportation Sales Tax referendum in November of 2006. Largely based upon the success of both the legislative agenda and referendum, the County has a number of other long-term goals as well. County roads will need to be upgraded, and discussions will begin with local transit providers for public and paratransit options for residents and with Metra for a possible rail expansion. Groundwater studies are also important to the health and well-being of the thousands of new residents moving into County boundaries.

#### FINANCIAL GOALS & OBJECTIVES (Cont.)

**Short Term Goals** - Until the authority to fund services through alternative revenue streams comes to fruition, the County has instilled a number of short term goals to guide operations through such a growth explosion. Kendall County is in the process of refinancing the Public Building Commission debt in order to make more funds available for other expenses. The County has begun creating a short-term debt plan and has commissioned the completion of a Capital Improvement Plan (CIP) by the firm, Kluber, Skahan & Associates, Inc. The CIP will not only plan for capital and space needs, but staffing needs as well for each County department. The County is has also begun to conduct a Special Census to increase money received through the State Income Tax and the State Local Use Tax.

#### **BASIS OF BUDGETING**

This budget is prepared on the basis consistent with Generally Accepted Accounting Principles (GAAP). During the year, the County's accounting system is maintained on the same basis as the budget. This enables departmental budgets to be easily monitored via accounting system reports on a monthly basis. The County operates on a cash basis throughout the reporting year.

#### ANNUAL FINANCIAL REPORTING

The modified accrual basis of accounting is used by all governmental and agency fund types. Under the modified accrual basis of accounting revenue is recognized when susceptible to accrual (i.e. when it becomes both measurable and available). "Measurable" means the amount can be determined and "available" means collectible within the current period or soon enough thereafter to pay current liabilities. Expenditures are recognized when the related fund liability is incurred, except for principal and interest on general long term debt, which is recognized when due. Also, compensated absences are recognized when the liabilities are expected to be liquidated with expendable financial resources.

#### FIXED ASSETS

Fixed assets are accounted for and include land, buildings, machinery, equipment, and vehicles with a useful life of one (1) year or more and having an original value of at least \$5000. Annual updates are provided to the County's liability insurance carrier to ensure accurate coverage and premium levels.

#### FUND BALANCE

The County will establish an adequate fund balance to pay for expenses caused by unforeseen emergencies or for shortfalls caused by revenue declines. For the general operating fund, this fund balance will be maintained at an amount which represents at least an average of five (5) months operating expenditures.

#### LEVEL OF SERVICE

The operating budget will be compiled in a manner to maintain a superior level of service to the community. The County Board will prioritize increases or decreases in service levels at budget sessions or during the fiscal year as required. These changes will also reflect current staffing levels.

#### **OPERATING BUDGET**

The County will maintain a budgetary control system to ensure adherence to the budget and will prepare regular reports comparing actual revenues and expenditure to budget. The Annual Operating Budget will conform to the standards of the Government Finance Officers Association standards. The County's definition of a balanced budget is one in which expenditure on goods and services and debt income can be met by current income from taxation and other central government receipts.

## PROPERTY TAX

The County levies property taxes for:

Corporate	Liability Insurance
Highway	708 Mental Health Board
Bridge	Extension Education
IMRF	Social Services for Senior Citizens
Social Security	Tuberculosis
Health & Human Services	Public Building Commission Lease
Federal Aid Matching	Veterans Assistance Commission Fund

The County will stay within the levy cap as is required by the Property Tax Extension Limitation Law.

#### **RISK MANAGEMENT**

The County is committed to provide a safe work environment, to manage all risks in an appropriate manner, and to conduct loss control measures to insure that liability and workers compensation losses are kept at a manageable level.

#### VEHICLE REPLACEMENTS

County vehicles and equipment will be replaced according to an established schedule. The schedule will be reviewed annually at budget sessions or as necessary during the fiscal year.
