1. SCOPE

Work on property and improvements so designated pursuant to this ordinance shall be regulated as follows:

A) *Landmarks*: No significant alterations, exterior construction or exterior demolition or interior alteration which may affect the exterior appearance may be performed on property and structures which have been designated under this ordinance as landmarks, except as shall be approved by a Certificate of Appropriateness.

B) *Historic districts*: No significant alterations, exterior construction or exterior demolition or interior alteration which may affect the exterior appearance may be performed on property and structures located within an area which is designated under this ordinance as a historic district, except as shall be approved by a Certificate of Appropriateness.

2. CERTIFICATE OF APPROPRIATENESS

A) A Certificate of Appropriateness from the Preservation Commission established pursuant to this Ordinance shall be required before any significant alteration, construction, demolition or removal that affects pending or designated landmarks or historic districts is undertaken. Such a certificate is required for all such actions from the date a nomination form is submitted to the Preservation Commission.

B) Applications for Certificates of Appropriateness.

i) Every application submitted to the Kendall County Planning, Building & Zoning Department for a permit wherein the applicant represents and/or delineates plans to commence any action as immediately described above in subsection (A) affecting any such property, improvements or areas therein described, shall be forwarded by the Director of Planning, Building and Zoning to a representative or representatives of the Preservation Commission, within five (5) business days following the receipt of said application by the Planning, Building & Zoning Department.

Any applicant may request a meeting with the Preservation Commission before the application is sent by the Director of Planning, Building and Zoning to the Preservation Commission or during the review of the application.

ii) Application for review of construction, alteration, demolition, or removal not requiring a building permit for which a Certificate of Appropriateness is required shall be made on a form prepared by the Preservation Commission and available at the office of Kendall County Planning, Building & Zoning Department. The Preservation Commission may schedule, provide notice and conduct a public hearing concerning the

application in the manner previously described in Article III, Section 6 and 7.

iii) If a public hearing is not scheduled, the Commission may consider the completed application at its next regular meeting and may grant a Certificate of Appropriateness at that time. The Commission may further designate support staff to be responsible for reviewing routine applications for Certificates of Appropriateness when the proposed work is clearly appropriate and in accordance with the criteria set forth in Article IV, Sections 2(c) and (d) below, and the purposes of this Ordinance.

iv) The Commission may seek technical advice from outside its members on any application for a Certificate of Appropriateness. The applicant and each commissioner shall receive a copy of the consultant's written opinion at least seven (7) days before a determination is to be made on the application. The costs for this technical advice will be paid by petitioner unless included as part of the annual approved budget for the Commission.

v) The Commission shall act promptly and in a reasonable manner in its judgment of plans for new construction or for alteration, removal, or demolition of structures in historic districts that have little historic value, except where such construction, alteration, removal, or demolition would seriously impair the historic or architectural value of surrounding structures or the surrounding area.

C) Design Guidelines. The Commission shall consider the following factors in reviewing applications for Certificates of Appropriateness:

i) *Height*: The height of any proposed alteration or construction should be compatible with the style and character of the landmark and with surrounding structures in a historic district.

ii) *Proportions of Windows and Doors*: The proportions and relationships between doors and windows should be compatible with the architectural style and character of the landmark and with surrounding structures within a historic district.

iii) *Relationship of Building Masses and Spaces*: The relationship of a structure within a historic district to open space between it and adjoining structures should be compatible or similar to relationships commonly found between similar structures in the district.

iv) *Roof Shape*: The design of the roof should be compatible with the architectural style and character of the landmark and surrounding structures which are similar in design in a historic district.

v) *Landscaping*: Landscaping should be compatible with the architectural character and appearance of the landmark and of surrounding structures and landscapes in historic districts.

vi) *Scale*: The scale of the structure after alteration, construction, or partial demolition should be compatible with its architectural style and character and with surrounding structures in a historic district.

vii) *Directional Expression*: Facades in historic districts should blend with other structures with regard to directional expression. Structures in a historic district should be compatible with the dominant horizontal or vertical expression of surrounding structures or of its stylistic design. The directional expression of a landmark after any alteration, construction, or partial demolition should be compatible with its original architectural style and character.

viii) *Architectural Details*: Architectural details, including materials and textures, should be treated so as to make a landmark compatible with its original architectural style or character.

D) Standards for Review. The Commission, in considering the appropriateness of any alteration, demolition, new construction, or removal to any property or structures designated or pending designation as a landmark, or any area designated or pending designation as a historic district, shall be guided by the following general standards and any design guidelines in the ordinance designating the landmark or historic district as well as conformance to applicable zoning classification, height, and area limitation:

i) Every reasonable effort shall be made to provide a compatible use for a property that requires minimal alteration of the building, structure, or site and its environment, or to use a property for its originally intended purpose.

ii) The distinguishing original qualities or character of a building, structure, site, and its environment shall not be destroyed. The removal or alteration of any historic material or distinctive architectural feature should be avoided whenever possible.

iii) All buildings, structures, and sites shall be recognized as products of their time. Alterations that have no historical basis or that seek to create an earlier/later appearance shall be discouraged.

iv) Changes that may have taken place in the course of time are evidence of the history and development of a building, structure, or site and its environment. These changes may have acquired significance in their own right, and this significance shall be recognized and respected.

v) Distinctive stylistic features or examples of skilled craftsmanship that characterize a building, structure, or site shall be treated with sensitivity.

vi) Deteriorated architectural features shall be repaired rather than replaced, wherever possible. In the event replacement is necessary, the new material should match the material being replaced in composition, design, color, texture, and other visual qualities. Repair or replacement of missing architectural features should be based on accurate duplication of features substantiated by historic, physical, or pictorial evidence, rather than on conjectural designs or the availability of different architectural elements from other buildings or structures.

vii) The surface cleaning of structures shall be undertaken with the utmost care and consideration. Sandblasting and other cleaning methods that will damage the historic building materials shall not be undertaken.

viii) Every reasonable effort shall be made to protect and preserve archaeological resources affected by or adjacent to any project.

ix) Contemporary design for alterations and additions to existing properties shall not be discouraged when such alterations and additions do not destroy significant historical, architectural, or cultural material, and such design is compatible with the size, scale, color, material, and character of the property, neighborhood, or environment.

x) Wherever possible, new additions or alterations to structures should be done in such a manner that if such additions or alterations were to be removed in the future, the essential form and integrity of the structure would not be impaired.

E) Determination by Preservation Commission. Within fifteen (15) business days after support staff review, or from the date of the regular meeting, or from the close of a public hearing concerning an application for a Certificate of Appropriateness, or within such further time as the applicant for said certificate (and/or permit) approves in writing, the Commission shall determine whether:

i) The proposed construction, alteration, demolition, removal or other modification will be appropriate to the preservation of the particular landmark or historic district and a Certificate of Appropriateness may be issued; or

ii) Such proposed modification is inappropriate to the preservation of the particular landmark or historic district and a Certificate of Appropriateness may be denied.

Written notice of the approval or denial of the application for a Certificate of Appropriateness shall be provided the applicant, sent by certified mail with return receipt requested, and to the Kendall County Planning, Building & Zoning Department within seven (7) days (Saturdays, Sundays, and legal holidays excluded) following the determination and shall be accompanied by a Certificate of Appropriateness in the case of an approval.

F) Denial of Certificate of Appropriateness. A denial of a Certificate of Appropriateness shall be accompanied by a statement of the reasons for the denial. The Preservation Commission shall make recommendations to the applicant concerning changes, if any, in the proposed action that would cause the Preservation Commission to reconsider its denial and shall confer with the applicant and attempt to resolve as quickly as possible the difference(s) between the applicant and the Commission. The applicant may resubmit an amended application or reapply for a building or demolition permit that takes into consideration the recommendations of the Preservation Commission.

G) Decision Binding on Planning, Building & Zoning Department. The Director of the Kendall County Planning, Building & Zoning Department shall be bound by the determination of the Commission and approve, if in conformance with other provisions of the Building Code, or disapprove any application for the proposed construction, alteration, removal of an exterior architectural feature, or demolition of any building or structure in a historic district or any landmark in accordance with said determination.

H) Failure of Commission to Review Application in a Timely Manner. Failure of the Commission to act upon an application for Certificate of Appropriateness within ninety (90) days shall constitute approval and no other evidence shall be needed. This time limit may be waived only by mutual consent of the applicant and the Commission.

I) Demolitions. Pursuant to Article IV, Sections 2(c) and (d) above, the Preservation Commission may deny any application for a Certificate of Appropriateness where demolition is proposed upon a finding that such proposed action will adversely affect the historic, archeological, architectural, or scenic significance of a landmark or historic district. Upon receipt of an application for a Certificate of Appropriateness for demolition, the Preservation Commission shall as soon as possible make a determination, supported by written findings, whether one or more of the following criteria are met:

- i) The structure or visual resource is of such interest or quality that it would reasonably meet national, state or local criteria for designation as an historic or architectural landmark.
- ii) The structure or visual resource is of such unusual or uncommon design, texture or materials that it could not be reproduced, or could be

reproduced only with great difficulty and expense.

iii) Retention of the structure or visual resource would aid substantially in preserving and protecting another structure or visual resource which meets criteria (i) or (ii) hereinabove.

Where the Preservation Commission determines that one or more of these criteria are met, no Certificate of Appropriateness shall be issued and the application shall be denied.

If a demolition permit is issued, the Preservation Commission shall require the applicant to submit for review and consideration post-demolition plans which shall include drawings and sketches with sufficient detail to show, as far as they relate to exterior appearance, the architectural design of any and all improvements incorporated in such plans.

J)) Compliance with Certificate. A Certificate of Appropriateness will become void if:

i) If there is any change in the scope of work pursuant to the approved application subsequent to the issuance of the Certificate; or

ii) If twelve (12) months have elapsed after issuance of the Certificate and no building permit has been issued.

K) Appeals. A denial of a Certificate of Appropriateness is an administrative decision as defined in Section 3-101 of the Illinois Administrative Review Law, and it shall be subject to judicial review pursuant to provisions of said Administrative Review Law and all amendments and modifications thereof, and the rules adopted thereto.

The Preservation Commission may schedule a public hearing concerning the application and provide notice in the same manner as prescribed in Article III, Section 6, of this Ordinance and conduct the hearing in the same manner as prescribed in Article III, Section 7, of this Ordinance.

C) Determination of Economic Hardship. Within sixty (60) days from receiving a request for a Certificate of Economic Hardship, the Commission, upon a determination that the denial of a Certificate of Appropriateness has denied, or will deny the owner of a landmark or of a property within a historic district all reasonable use of or return on the property, may undertake one of the following actions:

4. MAINTENANCE OF HISTORIC PROPERTIES

Nothing in this Article shall be construed to prevent the ordinary maintenance of any exterior elements of a property or structures designated or nominated as a landmark or located within a designated or nominated historic district.

5. PUBLIC SAFETY EXCLUSION

None of the provisions of this ordinance shall be construed to prevent any measures of construction, alteration, or demolition necessary to correct or abate the unsafe or dangerous condition of any structure, other feature or part thereof, where such condition has been declared unsafe or dangerous by the Director, Kendall County Planning, Building & Zoning Department, the Kendall County Health Department or any Fire

Protection District and where the proposed measures have been declared necessary, by such department or departments to correct the said condition; provided, however, that only such work as is reasonably necessary to correct the unsafe or dangerous condition may be performed pursuant to this Section.

In the event any structure or other feature shall be damaged by fire or other calamity, or by Act of Nature or by the public enemy, to such an extent that, in the opinion of the aforesaid department or departments, it cannot reasonably be repaired and restored, it may be removed in conformity with normal permit procedures and applicable laws.

6. DEMOLITION BY NEGLIGENCE

It is the intent of this section to preserve from deliberate or inadvertent neglect the features of landmarks and contributing buildings and structures within designated historic districts.

Periodically, the Commission shall, in conjunction with its ongoing survey operations, survey the exterior of each designated landmark and each property within a historic district to ensure that the property is not suffering from demolition by neglect, as defined in the ordinance. The Commission's Secretary shall document the performance of each annual neglect survey.

Any owner who fails to maintain their building or structure in compliance with this section shall be subject to remedial procedures. Upon a finding by the Commission that a historic landmark or a contributing building or structure within a historic district is threatened by demolition by neglect, the Commission shall:

- (a) Notify the County Board so that they or the appropriate county agency will require the owner to repair all conditions contributing to demolition by neglect.
- (b) If the owner does not make repairs within a reasonable period of time the County Board or their agents may make such repairs as are necessary to prevent demolition by neglect. The costs of such work shall be charged to the owner, and may be levied as a special assessment or lien against the property.

3. EQUITABLE RELIEF

In addition to other remedies provided by law, Kendall County may institute any appropriate action or proceeding to prevent, restrain, abate or correct a violation of this Ordinance, including, but not limited to, requiring the restoration of property and improvements to its appearance prior to the violation.
