County Office Building Health and Safety Guidelines Extended through September 30th & Public Meeting Updates

For immediate release, to continue the protection of the health and safety of County employees and the public, Kendall County Board Chairman Scott R. Gryder has extended the following requirements for the Kendall County Office Building, located at 111 W Fox St., Yorkville IL 60560 through September 30, 2020:

1. All visitors are encouraged to park in the north parking lot, and must enter from the north end of the building. A separate entrance and exit are provided.
2. The South entrance to the building will remain closed. Masks are required for everyone entering the Kendall County Office Building. Please sanitize your hands upon entering the building.
3. Please follow all safety and social distancing requirements posted in the building.

Due to renovations at the Kendall County Office Building, all meetings of the County Board and Forest Preserve District will take place in the Kendall County Historic Courthouse starting on September 3, 2020. Please excuse the additional traffic in and around the office building during the renovations.

Additionally, Kendall County remains in phase 4 of the Governor's Restore Illinois Plan. In this phase, in person meetings of up to 50 people with social distancing, is permitted. As a result, starting on September 7, 2020 Kendall County Board Chairman Scott R Gryder has determined that **in person meetings of the County Board**, including standing and special committees, are prudent and practical and therefore **will resume**. Masks are required for everyone in attendance, unless they are speaking. Social distanced (at least 6 feet apart) seating is available for the public and board members. Since the CDC still suggests working from home where possible, a **remote attendance option for members of the public and press will continue to be available**. Staff will post a remote attendance memo along with all meeting agendas.

Due to expected lengthy in person wait times, and in an effort to keep everyone safe, the public is strongly encouraged to conduct business by phone, mail, drop box, or e-mail when possible.
