

KENDALL EXTENSION STUDY

VIRTUAL OPEN HOUSE MEETING

The Kendall Extension Study is examining the feasibility of extending the BNSF commuter rail line beyond its existing terminus in Aurora. This study is looking at new outlying yard locations in addition to new commuter rail stations at Montgomery, Oswego, Yorkville, Plano and Sandwich, Illinois.

The Kendall Extension Study Project Team, in coordination with Metra, invites you to learn more about the study results including the environmental analysis, ridership analysis, the station and yard designs and the cost and funding options. The virtual presentation will also provide participants the opportunity to submit questions for the project team to address live. Individuals may also submit questions in advance of the Virtual Open House by 5 p.m. on Tuesday, March 9 to KendallExtension@metrarr.com.

Wednesday, March 10, 2021
5 p.m. - 7 p.m.
