PETITIONS

Petition 21-06 Jhon Cordero on Behalf of Cordero Real Estate, LLC

Mr. Asselmeier summarized the request.

The Petitioner purchased the subject property in 2020 and wishes to operate a tree service business onsite.

In discussing the proposal, the Petitioner’s Attorney indicated that the Petitioner would engage in making, storing, selling of mulch from trees the Petitioner’s business cuts down from clients. The Petitioner would not grow trees onsite. The Petitioner’s Attorney believed that the site would be used for contractor’s office, storage of trailers, farm implements, and other similar equipment on an open lot, truck, truck tractor, and truck trailer storage yards, wholesaling and warehousing. These uses are permitted uses in the M-1 Limited Manufacturing District. Landscaping businesses are special uses in the M-1 Limited Manufacturing District. Accordingly, the Petitioner would like to rezone the property to the M-1 Limited Manufacturing District.

The application materials, Wetland Delineation Report, site plan, aerial of the property, and aerial of the property showing the location of wetlands on the property were provided.

The property is located approximately two sixty-eight feet (268') west of the intersection of Galena Road and East Beecher Road. The property consists of approximately twenty-five (25) acres.

The property is used agriculturally and the historic aerials show a house formerly located at the north end of the property.

The Future Land Use Map calls for the property to be Mixed Use Business.

Galena Road is a County maintained Major Collector Road. East Beecher is a Township maintained Local Road.

Yorkville has a trail planned along Galena Road. The Kendall County Forest Preserve has a trail planned along East Beecher Road.

There are no floodplains on the property. There are three (3) wetlands on the property totaling approximately ten (10) acres in size. Two (2) of the wetlands are farmed wetlands.

The adjacent land uses are Agricultural, Single-Family Residential, Commercial, and ComEd Right-of-Way.

The adjacent zoning districts are A-1, A-1 SU, and M-2 in the County. R-2, R-3, and B-3 districts are in Yorkville.

The Land Resource Management Plan calls for the area to be Mixed Use Business, Suburban Residential, and ComEd Right-of-Way in the County. Yorkville's Comprehensive Plan calls for the area to be Estate/Conservation Residential.

The A-1 Special Use Permit to the south are for gravel mining operation and compost facility. A M-3 Special Use Permit to the south of the property is for asphalt production.

EcoCAT Report submitted and indicated the presence of the Mottled Sculpin. Adverse impacts were unlikely and consultation was terminated.

The application for NRI was submitted on January 21, 2021. The LESA Score was 176 indicating a low level of protection. The NRI was provided.

Petition information was sent to Bristol Township on February 10, 2021.

Petition information was sent to the United City of Yorkville on February 10, 2021.

Petition information was sent to the Bristol Kendall Fire Protection on February 10, 2021.

Per State law, map amendments cannot be conditioned. However, Section 13:10 of the Kendall County Zoning Ordinance requires that manufacturing site plans be approved by the Kendall County ZPAC.

According to the site plan included, four (4) structures are proposed for the site. Any new structures would require applicable building permits.

The site plan proposes access off of Galena Road and E. Beecher Road.

While no new odors are foreseen, future site plan submittals should be examined to address odors.

No lighting information was provided. The site plan for the proposed business should be evaluated to address lighting.

No screening information was provided. Section 10:01.A.2 of the Kendall County Zoning Ordinance requires storage to be in completely enclosed buildings if located within one hundred fifty feet (150') of a residential zoning district. Any fencing or buffering should be evaluated as part of the site plan review process.

The site plan shows a detention pond on the south side of the property. Applicable stormwater and wetland permits could be required as part of the site plan review.

The site plan indicates a utility box onsite. Well and septic information would have to be evaluated as part of a building permit process.

ZPAC Meeting Minutes 03.02.21

The proposed Findings of Fact were as follows:

Existing uses of property within the general area of the property in question. The surrounding properties are used for agricultural purposes with gravel mining, asphalt production, and composting uses also located in the vicinity.

The Zoning classification of property within the general area of the property in question. The surrounding properties in the unincorporated area are zoned A-1, M-2, and M-3.

The suitability of the property in question for the uses permitted under the existing zoning classification. The property is presently zoned A-1. A more intense Manufacturing zoning classification is necessary to cover all of the proposed uses instead of the existing A-1 zoning classification.

The trend of development, if any, in the general area of the property in question, including changes, if any, which may have taken place since the day the property in question was in its present zoning classification. The Zoning Board of Appeals shall not recommend the adoption of a proposed amendment unless it finds that the adoption of such an amendment is in the public interest and is not solely for the interest of the applicant. The Zoning Board of Appeals may recommend the adoption of an amendment changing the zoning classification of the property in question to any higher classification than that requested by the applicant. For the purpose of this paragraph the R-1 District shall be considered the highest classification and the M-2 District shall be considered the lowest classification. The trend of development in the area includes uses associated with Manufacturing zoning districts and Commercial zoning districts.

Consistency with the purpose and objectives of the Land Resource Management Plan and other adopted County or municipal plans and policies. The Future Land Use Map in the Land Resource Management Plan classifies this property as Mixed Use Business. The M-1 Limited Manufacturing District is consistent with the Mixed Use Business classification.

Because the Future Land Use Map calls for this property to be Mixed Use Business, Staff recommends approval of the requested Map Amendment. However, careful site plan review should occur when the property is developed to ensure that negative impacts on the wetlands and other environmentally sensitive features of the property are minimized.

Mr. Gengler asked if any lighting was proposed at this time. Mr. Asselmeier reported no lighting information has been provided. No information was provided regarding signage.

David Guritz arrived at this time (9:09 a.m.).

Mr. Klaas reported no lighting would be required.

Dan Kramer, Attorney for the Petitioner, explained the locations of wetlands on the property. He said the main entrance would be on East Beecher with a hard surface drive. The Petitioner was not a landscaping business and was not in the composting business. No retail would occur at the site at this time. The yard would be fenced. The mulching machine will be outdoors. There is a small odor after a rain. He provided a history of the business.

Mr. Rybski asked about dust control plans. Mr. Kramer responded that water and a chemical compound would be used to control dust. Mr. Kramer also provided information on the new septic system. Discussion occurred regarding the well; it is believed that the well was capped.

Mr. Gengler asked about the neighboring house. The house is owner-occupied.

Mr. Klaas requested that the septic system be placed twenty feet (20') from the existing right-of-way of Galena Road. He requested a sixty foot (60') right-of-way dedication. He also requested a partial access, like right-in right-out. He also noted that chipping machines are loud.

Ms. Olson requested that soil erosion and sediment control practices occur on the property during construction. Mr. Kramer agreed.

Mr. Kramer stated that the Petitioner would like to be in business at the property by Fall 2021.

Mr. Holdiman made a motion, seconded by Mr. Klaas, to forward the proposal to Regional Planning Commission.

The votes were as follows:

A food area will be located north of the barn. An existing red storage trailer is located north of the existing gravel drive.

12. Limited demolition of farmhouse and outbuildings is allowed.
13. Site plan is required.
14. Signage must follow the requirements in the Zoning Ordinance.
15. Off-street parking must follow the requirements in the Zoning Ordinance.

Assuming the County Board approves sales outside existing buildings, all of the above requirements of the Zoning Ordinance are addressed.

If approved, this would be the eleventh (11th) special use permit for the sale of products not grown on the premises in the unincorporated area.

According to the business plan, the Petitioner would like operate the flea market a maximum two (2) weekends per month. The flea market would be open from 8:00 a.m. until 5:00 p.m. with vendors given addition time to set-up their spaces. A weekend is considered Saturday and Sunday.

A refuse area is planned east of the porta-johns.

The property drains to the east.

If approved, the Petitioners hope to start operations as quickly as possible.

Although the Petitioners do not have current plans to do so, ancillary items, such as shirts and glasses, may be sold on the premises.

The Petitioners have also developed a marketing plan, which was provided.

An updated Occupancy Permit will be required reflecting the change of use for the existing metal building. Any structures constructed as part of the banquet facility operations will be required to secure applicable building permits.

The existing metal building has indoor restroom facilities. The septic field was located south of the existing metal building and the well is located north of the existing metal building.

The southwest corner of the property is located within a floodway and one hundred (100) year floodplain. An eight foot (8') wide grass path is proposed inside this area along with plantings.

The property fronts Van Dyke Road.

A right-of-way dedication was asked for when the property was a church. The dedication was supposed to run along the entire frontage of the property at a depth of twenty feet (20'). This dedication did not occur.

The site plan shows the gravel driveway expanding to twenty-four feet (24') in width.

The parking lot will consist of fifty-nine (59) parking spaces, including three (3) handicapped accessible parking spaces. The parking lot would be gravel except for the area reserved for the handicapped accessible parking spaces.

The floodplain area is planned to have a dry mesic prairie seedmix with wildflowers. IDOT class seedmix 1 is also planned to be installed near the parking lot and between the tent area and new accessory building.

In addition to the plantings, two (2) split rail fences are planned south of the existing septic field and southwest of the temporary tent. Split rail fences are also planned along the outer perimeters of the grass areas east of the existing metal building, between the parking lot and the northern property line and at the northeast corner of the property.

The landscaping plan was provided.

The Petitioners agreed to follow Kendall County's noise regulations. As noted previously, the existing metal building is insulated to reduce noise from escaping the building. All amplified music will cease by 10:00 p.m. Non-amplified music will be allowed as part of wedding ceremonies.

Before issuing a recommendation, Staff would like comments from ZPAC members, Seward Township, City of Joliet, Village of Plattville, and the Lisbon-Seward Fire Protection District.

As of the date of this meeting, the following are the proposed conditions and restrictions for this special use permit and variance.

COMPANY OVERVIEW

Welcome to Gilted Edge Winery; a family owned local winery. Who specializes in fruit wines with unique flavors without blending. Each of our wines are true to the product we put in them. We do not blend any of our wines together. We are young produced wine that has great flavor right up front due to the non-blending of our wines. We product not only fruit wines but we stay true to the classics. Such as Merlot, Cabernet, Moscato, Riesling, Table Red and Table White. Each of our grape wines are 100% sourced from California and Washington vineyards. We ask for 100% chosen grape which gives us the purist wine on the market.

With the non-blending properties we are able to produce in smaller quantities to keep over head down and produce a large varies of wines throughout the year. We stand to produce monthly roughly 300 bottles of our top producing wines and those that are produced in March are set to be able to purchase in Aug of 2021.

With this great feature we are able to produce young wine that taste like we have aged it for 1 to 3 years. With the flavor we produce as the experts say "Wine only gets better with Age" which is so true our wine will be able to stand up to 10 years bottled in our corks and still provide lasting taste that you had from 1st day of bottling.
