Executive Summary

The Public Entity Professionals of Alliant Insurance Services, Inc. are thankful for the opportunity to present the December 1st, 2021 to 2022 property and casualty insurance renewal proposal to Kendall County Forest Preserve District. In 2021, the world experienced the highs and lows of the pandemic. While the widespread availability of COVID-19 vaccines in the U.S. resulted in swift loosening and reopening of businesses, government and economies, this has been coupled with the deflated expectations as a result of increased public health restrictions due to COVID-19 surges across the state of Illinois and country. That said public entities, like the Forest Preserve, are achieving progress toward true normalcy through the continuation of district operations and services to the residents of the County.

State of the Insurance Marketplace

The impact of the COVID-19 pandemic, civil unrest and distrust of law enforcement, cyber threats and continued severe global weather-related property losses are having a prolonged impact on the insurance marketplace for public entities. Most directly, the intersection of societal influences, pandemic uncertainty, economic turmoil and claims experience has led to a shrinking appetite for public entity liability risks. The challenging market conditions that began in 2019 have grown progressively worse over the last couple of years and have resulted in arguably the hardest insurance market in history--- rivaled only by the insurance crisis of the mid-1980s.

Primary factors driving market conditions include:

- **Excess Liability** impacted by social inflation is driving costs (e.g., legal advertising, litigation funding, expanding class-action lawsuits, public distrust of defendants, millennial jury impact, etc.) and limited capacity of carriers that are willing to underwrite public entity liability exposures.
- **Law Enforcement Liability** claims continue to rise and settlements seem to increase as public trust in law enforcement seems to be at an all-time low. Police professional liability claims are increasingly difficult to win at trial. Continued pressure to erode and/or remove immunities are creating uncertainty.
- **Employment-Related Liability** the fluid pandemic employment landscape is creating additional challenges while also seeing an increase in misconduct lawsuits including the #MeToo movement, diversity in the workplace lawsuits and return-to-work challenges due to the pandemic.
- **Cyber Liability** marketplace wide, cybercrime has grown from a \$2 trillion annually in losses in 2019 to a projected \$6 trillion annually in losses by 2021. Of the cyber-

type crime, ransomware is the fastest growing cause of loss in both frequency and severity of claims. Public Entity has been the most successfully targeted sector in terms of penetration by the attackers and the frequency of attacks. COVID-19 pandemic has posed concerns for carriers as the work-from-home employees expanded and security of remote access.

- **Property** The challenging market conditions that began in 2018 have continued into the 2021. We do believe the market may be close to peaking (assuming no major catastrophe events). While the market has not experienced a single catastrophe event on par with Hurricane Katrina in 2005 over the past few years, natural catastrophe losses such as Hurricanes Harvey, Irma and Maria in 2017, California Wildfires in 2018, 2019 and 2020, Winter Storm Uri in 2021, and the Coronavirus Pandemic are key drivers of continuing rate pressure. These catastrophes along with increased attritional losses resulted in another unprofitable year for most property insurers. Lack of profitability has resulted in carriers continuing to re-evaluate their books of business and seeking increased pricing and reduced terms and conditions.

Renewal Summary

Insurance Renewal

Despite the above factors, ICRMT is well-positioned to weather this challenging insurance environment given their understanding of the Illinois public entity landscape (insuring over 50% of Illinois counties). In light of this commitment, insurance market conditions and the ICRMT's continued fairness and consistency of premium pricing and services, no additional insurance market alternatives were pursued. Alliant worked closely with the District's incumbent insurance carrier, Illinois Counties Risk Management Trust (ICRMT), to convey the needs of our ICRMT clients and the negative financial and operational impact that these challenging times are having on public entities, like the District. Our open communication channels with ICRMT and market leverage resulted a positive renewal for the District.

As one of the largest intermediaries with ICRMT, we were successful in obtaining competitive pricing resulting in a only slight increase of \$2,448 (4.1%) in total premium cost for the ICRMT property and liability coverage, in comparison to the 12/1/2020 to 12/1/2021 policy term. It is important to note that decreases in premium pricing in today's insurance marketplace are extremely rare. Overall loss experience for the District remains favorable across all lines of coverage. Exposure-driven factors that influenced the renewal, most notably, are the following.

- **Property Values-** While the District's building values have remained consistent, property rate increases are driving the District's premium increase.

- Inland Marine- equipment values decreased by 4%
- Workers' Compensation- Payroll increase of 1.4% (\$12,156)
- Workers' Compensation- The District's experience modification rate has increased in consecutive years (2020-2021- .85; 2021-2022- .93)

Last year, the District benefited from a COVID premium credit in the amount of \$1,385. ICRMT did not offer a COVID premium credit to members for 2021 to 2022 policy term.

Conclusion

As always, Dave Guritz was very helpful in organizing and providing underwriting data to enable a quick and timely renewal proposal. Interactions and communications throughout the year with Dave are collaborative and productive.

The District's continued insurance carrier partnership with ICRMT continues to be advantageous over the short and long-term with respect to coverage, services and pricing when most public entities, in Illinois and across the country, are experiencing significant increases and significant limitations of coverage.

Thank you so much for the opportunity to present the renewal results. We at Alliant Insurance Services, Inc. are very pleased with the renewal results in light of the extremely challenging and unprecedented economic and society times. We are very excited for the coming year to service the District's property & casualty insurance needs.

We welcome discussion regarding this proposal and thank you for the privilege of partnering with the Kendall County Forest Preserve District.

Additional Named Insured(s)

None

NAMED INSURED DISCLOSURE

- The first named insured is granted certain rights and responsibilities that do not apply to other policy named insureds and is designated to act on behalf of all insureds for making policy changes, receiving correspondence, distributing claim proceeds, and making premium payments.
- **Are ALL entities listed as named insureds?** Coverage is **not** automatically afforded to all entities unless specifically named. Confirm with your producer and service team that all entities to be protected are on the correct policy. Not all entities may be listed on all policies based on coverage line.
- Additional named insured is (1) A person or organization, other than the first named insured, identified as an insured in the policy declarations or an addendum to the policy declarations. (2) A person or organization added to a policy after the policy is written with the status of named insured. This entity would have the same rights and responsibilities as an entity named as an insured in the policy declarations (other than those rights and responsibilities reserved to the first named insured).
- Applies to Professional Liability, Pollution Liability, Directors & Officers Liability, Employment Practices Liability, Fiduciary Liability policies (this list not all inclusive). Check your Policy language for applicability. These policies provide protection to the Named Insured for claims made against it alleging a covered wrongful act. Coverage is not afforded to any other entities (unless specifically added by endorsement or if qualified as a "Subsidiary" pursuant to the policy wording) affiliated by common individual insured ownership or to which indemnification is otherwise contractually owed. If coverage is desired for affiliated entities or for contractual indemnities owed, please contact your Alliant Service Team with a full list of entities for which coverage is requested. With each request, include complete financials and ownership information for submission to the carrier. It should be noted, that the underwriter's acceptance of any proposed amendments to the policy, including expansion of the scope of "Insureds" under the policy could result in a potential diminution of the applicable limits of liability and/or an additional premium charge.

Certificates / Evidence of Insurance

A certificate is issued as a matter of information only and confers no rights upon the certificate holder. The certificate does not affirmatively or negatively amend, extend or alter the coverage afforded by a policy. Nor does it constitute a contract between the issuing insurer(s), authorized representative, producer or certificate holder.

You may have signed contracts, leases or other agreements requiring you to provide this evidence. In those agreements, you may assume obligations and/or liability for others (Indemnification, Hold Harmless) and some of the obligations that are not covered by insurance. We recommend that you and your legal counsel review these documents.

In addition to providing a certificate of insurance, you may be required to name your client or customer on your policy as an additional insured. This is only possible with permission of the insurance company, added by endorsement and, in some cases, an additional premium.

By naming the certificate holder as additional insured, there are consequences to your risks and insurance policy including:

- Your policy limits are now shared with other entities; their claims involvement may reduce or exhaust your aggregate limit.
- Your policy may provide higher limits than required by contract; your full limits can be exposed to the additional insured.
- There may be conflicts in defense when your insurer has to defend both you and the additional insured.

CONFERENCE

[Suburban Purchasing Cooperative \(SPC\) Program Brochure](#)

The Suburban Purchasing Cooperative is a joint purchasing program sponsored by the Northwest Municipal Conference (NWMC), DuPage Mayors & Managers Conference (DMMC) South Suburban Mayors and Managers Association (SSMMA), and Will County Governmental League (WCGL). Together the SPC represents 144 municipalities and townships in northeastern Illinois.

All public agencies as defined by the Illinois Governmental Joint Purchasing Act, as well as not-for-profit agencies that qualify under Section 45-35 of the Illinois Procurement Code, are eligible to participate in SPC joint purchasing programs.

ILL COMP. STAT. ANN §220/2. Definitions for the purpose of this Act: The term “public agency” shall mean any unit of local government as defined in the Illinois constitution of 1970, any school district, any public community college district, any public building commission, the State of Illinois, any agency of the State government or of the United States, or of any other State, any political subdivision of another State, and any combination of the above pursuant to an intergovernmental agreement which includes provisions for a governing body of the agency created by the agreement.

The SPC exemplifies the benefits of intergovernmental cooperation on a regional basis. The goal of the SPC is to combine the resources and purchasing power of governments and not-for-profit entities to jointly negotiate advantageous contract terms on a line of high quality products at the lowest possible price.

Economies of scale in terms of pricing and staff resources are the prime objectives of the SPC Joint Purchasing Program. By purchasing through the SPC, participants not only save money but time as well. Acting as an extension of the purchaser’s staff, SPC staff works diligently in order to avoid the needless duplication of effort through in-house coordination of several functions involved in the procurement process.

Illinois statues, 525/2 from Ch. 85, par. 1602. (Governmental Joint Purchasing Act), authorizes that any governmental unit may purchase personal property, supplies and services jointly with one or more other governmental units. All such joint purchases shall be by competitive solicitation as provided in Section 4 of this Act.

Since 2009, the SPC Program is centrally operated by the Northwest Municipal Conference with shared program oversight by the SPC Governing Board and SPC Technical Review Committee.

RE: Status of Land Acquisition and Natural Resources Projects

Date: October 28, 2021

The attached proposal for herbicide spot-spraying within the District's Illinois Clean Energy Community Foundation (ICECF) grant project footprints for both the K-12 Pollinator Grant and Pollinator Meadows Pilot Project received from Pizzo and Associates will complete the required scope of work under both projects. These grant agreements conclude in April 2022.

The District is working to secure proposals for fall restoration clearing work days under the Landscape Scale Restoration Project, and ICECF Reservation Woods Acquisition Project. Quotes and recommendations will be presented so that fall restoration clearing work may begin. The District has approximately \$12,500 for LSR clearing, and \$10,000 for Reservation Woods clearing, with the latter project completed following closing on the two parcels.

The District has been unsuccessful in negotiating the sale or donation of a connecting Reservation Woods parcel. Efforts will begin to purchase the two +/-5-acre parcels from The Conservation Foundation to complete this acquisition project.

The District is waiting to hear a response from Seth Wormley regarding the revised configuration for the proposed Millbrook North Forest Preserve property exchange.

Replacement of the dead trees or shrubs is the Owner's sole available remedy, and Pizzo & Associates, Ltd. may substitute the dead plant or shrub with another species in its sole discretion. This guarantee shall be invalid if the Owner has failed to use reasonable care (water, weeding, invasive species control, mowing, protection from damage, etc.) during said period.
