FINDINGS OF FACT

Existing uses of property within the general area of the property in question. The surrounding properties are used for agricultural purposes or larger lot single-family residential uses. A forest preserve is located in the vicinity.

The Zoning classification of property within the general area of the property in question. The surrounding properties are zoned A-1 and R-1. The A-1 property to the north has a special use permit for sale of products not grown on the premises.

The suitability of the property in question for the uses permitted under the existing zoning classification. The property is presently split zoned A-1 and R-1. The property is presently heavily wooded and having a single zoning classification for the property is desirable.

The trend of development, if any, in the general area of the property in question, including changes, if any, which may have taken place since the day the property in question was in its present zoning classification. The Zoning Board of Appeals shall not recommend the adoption of a proposed amendment unless it finds that the adoption of such an amendment is in the public interest and is not solely for the interest of the applicant. The Zoning Board of Appeals may recommend the adoption of an amendment changing the zoning classification of the property in question to any higher classification than that requested by the applicant. For the purpose of this paragraph the R-1 District shall be considered the highest classification and the M-2 District shall be considered the lowest classification. The trend of development in the area is a mix of agricultural and single-family residential uses found in rural settings.

Consistency with the purpose and objectives of the Land Resource Management Plan and other adopted County or municipal plans and policies. The Future Land Use Map in the Land Resource Management Plan classifies this property as Rural Residential. The R-1 One Family Residential District is consistent with the Rural Residential classification.
