REGIONAL PLANNING COMMISSION**

*Kendall County Office Building
Rooms 209 and 210
111 W. Fox Street, Yorkville, Illinois*

Unapproved - Meeting Minutes of July 26, 2023 - 7:00 p.m.

Chairman Bill Ashton called the meeting to order at 7:01 p.m.

ROLL CALL

Members Present: Bill Ashton, Eric Bernacki, Dave Hamman, Karin McCarthy-Lange, Larry Nelson, Ruben Rodriguez, and Claire Wilson

Members Absent: Tom Casey, Bob Stewart, and Seth Wormley

Staff Present: Matthew H. Asselmeier, Director

Others Present: None

APPROVAL OF AGENDA

Member McCarthy-Lange made a motion, seconded by Member Hamman, to approve the agenda. With a voice vote of seven (7) ayes, the motion carried.

APPROVAL OF MINUTES

Member Wilson made a motion, seconded by Member Nelson, to approve the minutes of the of the April 26, 2023, meeting. With a voice vote of seven (7) ayes, the motion carried.

PETITION

Petition 23-24 Dave Hamman on Behalf of KEKA Farms, LLC (Property Owner) and Pulte Home Corporation (Billboard Owner)

Mr. Asselmeier summarized the request.

He provided a description of the sign, the site plan showing the location of the sign, and a current picture of the sign.

The proposed Findings of Fact were:

That the establishment, maintenance, or operation of the special use will not be detrimental to or endanger the public health, safety, morals, comfort, or general welfare. Provided that the sign remains at its current location, the special use will not be detrimental to or endanger the public health, safety, morals, comfort, or general welfare of the public.

That the special use will not be substantially injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood. The Zoning classification of property within the general area of the property in question shall be considered in determining consistency with this standard. The proposed use shall make adequate provisions for appropriate buffers, landscaping, fencing, lighting, building materials, open space and other improvements necessary to insure that the proposed use does not adversely impact adjacent uses and is compatible with the surrounding area and/or the County as a whole. True, the proposed special use will not negatively impact adjoining properties.

That adequate utilities, access roads and points of ingress and egress, drainage, and/or other necessary facilities have been or are being provided. This requirement is not applicable because the proposed special use does not require utilities, access roads, points of ingress and egress, drainage or other facilities.

That the special use shall in all other respects conform to the applicable regulations of the district in which it is located, except as such regulations may in each instance be modified by the County Board pursuant to the recommendation of the Zoning Board of Appeals. True, the proposed special use shall conform to the applicable regulations of the district.

That the special use is consistent with the purpose and objectives of the Land Resource Management Plan and other adopted County or municipal plans and policies. True, the proposed special use is consistent with the purposes and objectives of the Land Resource Management Plan.

If approved, Staff recommended the following conditions be included in the approving special use ordinance:

1. The rendering of the sign and map depicting the location of the sign shall be Exhibits in the approval ordinance.
2. The sign will be removed or Pulte Home Corporation (or their successors) will apply to renew their special use in two (2) years from the date of approval of this ordinance by the County Board.
3. The sign will not be illuminated.
4. The advertising on the sign is restricted to Pulte Home Corporation's residential development.
5. The off-premise advertising structure allowed by this special use permit shall follow all applicable Federal, State and Local laws related to this type of use including, but not limited to, the distance from property line requirements of the Kendall County Zoning Ordinance.
6. Failure to comply with the above regulations and restrictions could result in the revocation of the special use permit.
7. If one or more of the above conditions is declared invalid by a court of competent jurisdiction, the remaining conditions shall remain valid.

Member Rodriguez made a motion, seconded by Member Nelson, to recommend approval of the special use permit.

The votes were as follows:

Ayes (6): Ashton, Bernacki, McCarthy-Lange, Nelson, Rodriguez, and Wilson

Nays (0): None

Absent (3): Casey, Stewart, and Wormley

Abstain (1): Hamman

The motion carried. The proposal will go to the Kendall County Zoning Board of Appeals on July 31, 2023.

Member Hamman thanked everyone for attending and supporting the request. He said discussions were underway to annex the property to Aurora.

CITIZENS TO BE HEARD/PUBLIC COMMENT

None

NEW BUSINESS

None

OLD BUSINESS

None

REVIEW OF PETITIONS THAT WENT TO COUNTY BOARD

Mr. Asselmeier reported that Petitions 23-05, 23-06, 23-07, 23-08, 23-09, 23-10, 23-11, 23-12, 23-13, 23-17, and 23-19 were approved by the County Board.

Discussion occurred regarding removing the phone numbers of the township highway commissioners from the Subdivision Control Ordinance.

Discussion occurred regarding noise complaints from houses built after a special use permit was issued.

OTHER BUSINESS/ANNOUNCEMENTS

Mr. Asselmeier reported that the composting facility on Beecher Road had applied to renew their special use permit. This would be the only agenda item for the August meeting, assuming the unresolved issues were addressed at ZPAC.

Mr. Asselmeier reported that the owner of 1038 Harvey Road had applied for annexation to the Village of Oswego. The hearings would likely occur in September or October.

The emergency escape plan was discussed.

The winery on Plattville Road opened recently.

A Gas-N-Wash opened in Joliet at Caton Farm and Ridge Roads in Na-Au-Say Township.

Discussion occurred regarding solar panel regulations, including farmland preservation, stormwater regulations, one point five (1.5) municipal mile review, bonding requirements, and concerns about fires related to batteries and related building codes.

Discussion occurred regarding silica sand quarries and the lack of reclamation bonds.

ADJOURNMENT

Member Rodriguez made a motion, seconded by Member Hamman, to adjourn. With a voice vote of seven (7) ayes, the motion carried.

The Kendall County Regional Planning Commission meeting adjourned at 7:30 p.m.

Respectfully submitted by,
Matthew H. Asselmeier, AICP, CFM
Director

Petition 23-26

Jefferey D. Milroy on Behalf of Milroy Farms, LLC

A-1 Special Use Permit for Composting of Landscape and Food Waste

INTRODUCTION

On March 19, 2014, through Ordinance 2014-04, the County Board granted a special use permit, with conditions for the operation of a composting facility at the subject property. Ordinance 2014-04 required the property owner to submit a renewal prior to July 1, 2023, or the special use permit would expire on December 1, 2023. The property owner submitted the required renewal on June 30, 2023.

The subject property has operated as a composting facility since 1993.

The Petitioners are requesting the special use permit for the approximately thirty-nine point eight-seven (39.87) acres located in the unincorporated area. They are not renewing the special use permit for operations inside the United City of Yorkville. This reduces operations from approximately fifty-eight (58) acres.

The Host Community Agreement also expires in 2023. The Planning, Building and Zoning Committee met on July 10, 2023, to discuss renewing the agreement. They requested additional information regarding the amount of and types of materials coming into and out of the property. The Petitioner answered those questions at the Planning, Building and Zoning Committee meeting on August 7, 2023, and the proposed Host Community Agreement was forwarded to the State's Attorney's Office for review.

Green Organics is no longer associated with the property.

The application materials are included as Attachment 1. Ordinance 2014-04 is included as Attachment 2. The plat of survey is included as Attachment 3. The business plan, including the original submitted site plan and landscaping plan, is included as Attachment 4. The decommissioning plan is included as Attachment 5.

On August 17, 2023, the Petitioner submitted a revised site plan, included as Attachment 4A. The Petitioner admitted that this site plan was a working copy and not necessarily the final version of the proposal.

The original submitted site plan and the revised site plan do not match the approved site plan on file with the Illinois Department of Natural Resources. This site plan is included as Attachment 9.

SITE INFORMATION

PETITIONERS: Jefferey D. Milroy on Behalf of Milroy Farms, LLC

ADDRESS: 1270 E. Beecher Road, Bristol

LOCATION: East Side of E. Beecher Road Approximately 0.5 Miles South of Galena Road on the East Side of the Road

Approved Special Use in 2014

Proposed Special Use Area

Township: Bristol

PARCEL: 02-08-100-006

LOT SIZE: 40 +/- Acres

EXISTING LAND USE: Agricultural/Composting Facility

ZONING: A-1 with a Special Use Permit

LRMP:	Future Land Use	Suburban Residential (Max. 1.00 DU/Acre) and Mixed Use Business Along Beecher Road (County) Estate/Conservation Residential (Yorkville)
	Roads	E. Beecher is a Local Road maintained by Bristol Township.
	Trails	There is a proposed trail on E. Beecher Road.

Floodplain/ Wetlands	There are no floodplains on the property. There is a wetland on the extreme northwest corner of the property.
-------------------------	---------------------------------------------------------------------------------------------------------------

REQUESTED ACTIONS: Special Use Permit for a Composting Facility

APPLICABLE REGULATIONS: Section 7:01.D – A-1 Special Uses
Section 13:08 – Special Use Procedures

SURROUNDING LAND USE

Location	Adjacent Land Use	Adjacent Zoning	Land Resource Management Plan	Zoning within ½ Mile
North	Agricultural	A-1 (County)	Suburban Residential (County) Estate/Conservation Residential (Yorkville)	A-1 (County) R-3 Planned Unit Development (Yorkville)
South	Agricultural	A-1 SU and M-2 (County)	Suburban Residential and Mixed Use Business (County) Estate/Conservation Residential (Yorkville)	A-1 SU and M-2 (County)
East	Agricultural	R-2 Planned Unit Development and R-2, R-4, B-3 Planned Unit Development (Yorkville)	Urban Area (County) Estate/Conservation Residential (Yorkville)	Various Residential Planned Unit Developments (Yorkville)
West	Manufacturing	M-2 and M-3 SU (County)	Suburban Residential and Mixed Use Business (County) Estate/Conservation Residential (Yorkville)	A-1, A-1 SU, M-1, M-2, and M-3 SU (County)

The A-1 SU to the south was for gravel mining. The M-3 SU to the west was for asphalt production.

PHYSICAL DATA

ENDANGERED SPECIES REPORT

EcoCAT Report was submitted on June 22, 2023. The Mottled Sculpin and Rusty Patch Bumble Bee were in the vicinity. The Illinois Department of Natural Resources recommended that work that disturbs the ground or removes flowering plants be done between October 1st and April 1st. If work occurred outside of the dates listed, a Rusty Patch Bumble Bee survey should be conducted by a qualified biologist, with the results forwarded to the Illinois Department of Natural Resources. The consultation also noted that coordination with the United States Fish and Wildlife Service may be necessary. The consultation also contained suggestions for lighting. The consultation was closed if the recommendations related to the Rusty Patch Bumble Bee were implemented, see Attachment 1, Pages 19-25.

The Petitioner was not agreeable to either recommendation related to the Rusty Patch Bumble Bee. The Illinois Department of Natural Resources said if that if the Petitioner impacted the Rusty Patch Bumble Bee, that would be problematic.

NATURAL RESOURCES INVENTORY

The NRI Application was submitted on June 20, 2023. The LESA score was 175, indicating a low level of protection, see Attachment 1, Pages 12-18.

ACTION SUMMARY

BRISTOL TOWNSHIP

Petition information was sent to Bristol Township on July 19, 2023.

UNITED CITY OF YORKVILLE

Prior to formal application submittal, Staff contacted Yorkville regarding potential comments on the application. Yorkville requested the following items:

1. A thirty foot (30') wide buffer with a berm at least three feet (3') in height and consisting of two (2) shade trees, five (5) evergreen trees, and three (3) ornamental trees per one hundred (100) linear feet of buffer; they favored a minimum fifteen (15') foot wide buffer.
2. Odor control regulations including using an ASTM certified portable olfactometer, notification by the County to the property owner/business operator within two (2) business days of findings, and a requirement that the property owner/business operator respond within five (5) business days of receiving the notice with corrective action steps. Yorkville's performance standards related to odor were submitted to the County.
3. A condition that the property owner/business operator submit a written response within seven (7) days of receiving a complaint for a non-odor violation outlining steps taken to correct the issue of the complaint.
4. The submission of a detailed decommissioning plan.
5. A requirement that notification of operation management changes and contact information be updated annually with the County.

Staff has concerns regarding the requested procedure of enforcement because the requested method presently contradicts the County's current voluntary compliance policy and the regular procedures for handling alleged violations in the Zoning Ordinance. Also, the County does not presently own an olfactometer. Lastly, the Illinois Environmental Protection Agency has rules regarding complaints.

Yorkville's email and Staff's response were included as Attachment 6.

The Petitioner was agreeable to certain landscaping, the submission of a decommissioning plan, the request regarding change of management and updated contact information.

Petition information was sent to the United City of Yorkville on July 19, 2023.

The August Yorkville Economic Development Committee and Planning and Zoning Commission meetings were cancelled. The proposal was reviewed at the Yorkville City Council meeting on August 8, 2023, with no comments, and will be reviewed again at the August 22, 2023, Yorkville City Council meeting.

BRISTOL-KENDALL FIRE PROTECTION DISTRICT

Petition information was sent to the Bristol Kendall Fire Protection District on July 19, 2023.

ZPAC

The Kendall County ZPAC reviewed the proposal at their meeting on August 1, 2023. Discussion

occurred regarding odor control measures. The Committee did not believe that using an olfactometer, as Yorkville recommended, was practical. The Committee favored requiring the operator of the business allowed by the special use permit to track wind daily, avoid turning the windrows when the wind was blowing to populated areas, and adding an amendment to the windrows in cases when turning was necessary and the wind was blowing towards populated areas. The Committee expressed little concern regarding the Illinois Department of Natural Resource's recommendation related to the Rusty Patch Bumble Bee. The Committee was concerned about runoff. Discussion occurred regarding the definition of food scraps; food scraps were collected from grocery stores and include items that were composted at homes. A recommendation regarding equipment at the property being classified as non-agricultural was removed. ZPAC recommended approval of the proposal with the removal of the condition related to the classification of equipment and add a requirement requiring the operator of the business to track wind direction and speed daily and add amendments to the composting materials if windrows are turned with winds blowing in unfavorable directions by a vote of six (6) in favor and zero (0) in opposition with four (4) members absent. The minutes of the meeting were included as Attachment 8.

GENERAL INFORMATION

Per Section 7:01.D.20 of the Kendall County Zoning Ordinance, composting businesses can be special uses on A-1 zoned property subject to the following conditions:

1. The facility shall meet all Illinois Environmental Protection Agency requirements as identified in Title 35, Subtitle G, Chapter 1, Subchapter 1, Part 830, Standards for compost facilities.
2. Operational personnel shall be present on site during all hours which the facility is open for the receipt of landscape waste.
3. The hours during which landscape waste may be received shall be 7:00am to 4:00pm Monday through Friday and 7:00am to 12:00 noon Saturday. Processing operations shall cease after each day's receipts have been processed and placed in windrows, not to exceed three (3) additional hours.
4. The decibel levels at the property line shall not exceed Illinois Pollution Control Board standards.
5. A locked gate shall restrict vehicle access during closed hours except that a "lock-box" shall allow access to emergency vehicles.
6. Water samples shall be taken by an independent testing service and analyzed by an independent laboratory. The locations, methods and frequency of sampling and testing shall be approved by the Kendall County Environmental Health Department Director. The test results shall be sent to the Environmental Health Department within forty-five (45) days of sampling.
7. Soil samples shall be taken by an independent testing service and analyzed by an independent laboratory. The locations, methods and frequency of sampling and testing shall be approved by the Kendall County Environmental Health Department Director. The test results shall be sent to the Environmental Health Department within forty-five (45) days of sampling.
8. Authorized Kendall County personnel shall be allowed on site during business hours for inspection and testing.
9. The facility operator shall send up-to-date copies of the State permit and related documents including Operational Plan, Surface Water Management Plan, Pest Control Plan, Site Drawing, and an Annual Report to the County Solid Waste Coordinator.
10. Truck weights shall be limited to seventy-three thousand, two hundred eighty (73,280) pounds.
11. The operator shall provide weight receipts to Kendall County.
12. Off-site debris and trash generated by the site must be cleaned-up daily on surrounding properties with the owner's permission.

13. Other conditions as appropriate for the particular facility.

The Petitioner is agreeable to conditions 1-12.

BUSINESS OPERATIONS

When the special use permit was originally granted in the 1990s, they were originally allowed to process one hundred fifty thousand (150,000) cubic yards of source separated landscape materials. This number was increased to one hundred seventy-five thousand (175,000) cubic yards in 2014.

Starting in 2010, the facility was allowed to accept food scraps.

The original site plan (Attachment 4, Page 3) shows several twenty-five foot (25') wide windrows. These windrows are separated by ten foot (10') foot driving aisles. Most of the windrows are eight feet (8') tall or less in height.

The revised site plan (Attachment 4A) shows thirty-two windrows. No information was provided regarding driving aisles. Windrows might extend to the cultivation line. Final elevations will change for composting surface depending on excavated materials used for the pond.

Bulk agent storage areas separate the east and west windrow areas.

Both site plans show one (1) final cure storage area, one (1) grinding and blending concrete pad, and one (1) receiving pad. No information was provided regarding the dimensions of these areas.

As noted previously, the hours when landscape waste can be received are between 7:00 a.m. and 4:00 p.m. on Mondays through Fridays and 7:00 a.m. until Noon on Saturdays. Processing operations may continue for a maximum three (3) additional hours.

As noted in the Decommissioning Plan (Attachment 5), the site will be converted back to farming within five (5) months, this includes the removal materials, grading, seeding, and removal of all structures. The Petitioner planned to reevaluate the Decommissioning Plan.

No information was provided regarding the number of employees at the property.

The use has been at the property since 1993.

There have not been any founded complaints against the property in recent years.

BUILDINGS AND BUILDING CODES

One (1) approximately four hundred twenty (420) square foot office trailer is shown on the plan near the southeast corner of the site.

After the ZPAC meeting, the Petitioners indicated that they may install another building on the property. On the revised site plan (Attachment 4A), one (1) sixty foot by eighty foot (60'X80') building was shown. This structure was twenty-four feet (24') tall. The building would be used for storage of equipment. The final location of the building was undetermined.

ENVIRONMENTAL HEALTH

The property is served by a well and septic. The well is located at the southeast corner of the property.

The Petitioner is agreeable to the requirements related to water samples and soil samples, inspection and testing, and submitting copies of the State permit, operational plan, surface water management plan, pest control plan, site drawings, annual report, and decommissioning plan. The Petitioner is also agreeable to providing weight receipts to Kendall County.

The Solid Waste Coordinator shall maintain a log of complaints received on the facility.

Sampling schedules are noted on in the business plan (Attachment 4, Page 6).

Though not shown on the site plan, a dumpster is located on the property. The business plan (Attachment 4, Page 2) notes a requirement to clean-up offsite debris and trash daily on surrounding properties.

NICOR possesses an easement north of the existing driveway.

Overhead utilities run from E. Beecher Road to the office trailer.

STORMWATER

The property drains to the south and west.

One (1) existing detention basin is shown on the site plan north of parking area. The original site plan also shows one (1) proposed detention basin southwest of the western windrows. One twenty-five foot (25') wide drainage swale is shown west of the western windrows. No information was provided regarding the dimensions of the detention basins or the depth of the drainage swale. The revised site plan shows a much larger water reuse and detention pond.

The Petitioners submitted an application for a stormwater management permit. WBK submitted comments in a letter dated July 15, 2023, included as Attachment 7. To date, Staff is waiting for comments from the Petitioner regarding WBK's comments. At the Petitioner's request, the revised site plan was not sent to WBK.

As mentioned previously, the submitted site plans did not match the site plan on file with the Illinois Department of Natural Resources. The State has not evaluated the impact of the proposed site plans on the Surface Water Management presently on file with the State.

ACCESS

Per the site plan (Attachment 4, Page 3), the subject property has an asphalt drive to E. Beecher Road.

The Petitioner is agreeable to the truck weight restriction contained in the Kendall County Zoning Ordinance.

PARKING AND INTERNAL TRAFFIC CIRCULATION

According to the revised site plan (Attachment 4A), one (1) gravel parking area was shown north of the office trailer and one (1) handicapped accessible parking space was shown east of the office trailer. The total number of park stalls was seven (7). The parking stalls did not meet the minimum depth requirement of twenty feet (20') as outlined in Section 11:02.F.4 of the Kendall County Zoning Ordinance.

The site plan shows one (1) truck turn around area.

LIGHTING

No information was provided regarding lighting. Because of the small number of parking spaces, a photometric plan was not required.

SIGNAGE

According to the business plan (Attachment 4, Page 4), one (1) existing sign is located on the property. The sign is not illuminated. The information on the sign is required per Illinois Environmental Protection Agency rules.

One (1) additional no trespassing sign is located on the interior gate.

SECURITY

According to the original site plan (Attachment 4, Page 3), there is a fence along the western and northern sides of the property. There is also a fifteen foot (15') wide buffer between the eastern property line and the berm. The business plan (Attachment 4, Pages 1 and 5) references a locked gate. The gate is locked during closed hours, but a lock box is available for emergency response vehicles.

LANDSCAPING

Per the original site plan (Attachment 4, Page 3), one (1) fifteen foot (15') wide berm is shown near the eastern property line. A twenty-five foot (25') wide berm is shown near the western and northern property lines. Per the business plan (Attachment 4, Page 2), the eastern berm will be three feet (3') in height. Landscaping consisting of pines, fir, and/or shade trees will be planted at spacing not to exceed forty feet (40') apart. Seedling will be a minimum of six inches (6") in height and will be planted within one (1) year of the issuance of the special use permit. The business plan also references maintaining the existing plantings on the berm and ditch and existing landscaping. No information was provided regarding plantings on the western or northern berms or the composition of the existing landscaping and plantings on the property.

No landscaping information was provided on the revised site plan (Attachment 4A).

NOISE CONTROL

Per the business plan (Attachment 4, Page 1), noise levels cannot exceed Illinois Pollution Control Board standards.

ODORS

The business plan (Attachment 4, Page 2) references odor control strategies generally. Illinois Environmental Protection Agency rules requires operators of composting facilities to prepare an odor minimization plan. Staff has requested a copy of this plan.

The Health Department requested that a water truck be onsite for dusty conditions and that the operator be required to chart wind direction and speed daily. The Petitioner was in agreement regarding the water truck condition, but was not in favor of charting wind speeds.

RELATION TO OTHER SPECIAL USES

This is the only property to have a special use permit for a composting facility in unincorporated Kendall County.

FINDINGS OF FACT

§ 13:08.J of the Zoning Ordinance outlines findings that the Zoning Board of Appeals must make in order to recommend in favor of the applicant on special use permit applications. They are listed below in *italics*. Staff has provided findings in **bold** below based on the recommendation:

*The establishment, maintenance, or operation of the special use will not be detrimental to or endanger the public health, safety, morals, comfort, or general welfare. **The operation is controlled by the EPA and inspected regularly by the Health Department and have not found anything to endanger the public health, safety, morals, comfort, or general welfare.***

*The special use will not be substantially injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood. The Zoning classification of property within the general area of the property in question shall be considered in determining consistency with this standard. The proposed use makes adequate provisions for appropriate buffers, landscaping, fencing, lighting, building materials, open space and other improvements necessary to insure that the proposed use does not adversely impact adjacent uses and is compatible with the surrounding area and/or the County as a whole. **The operation has been open since 1993 with some minor debris issues a long time ago and since then there have been no complaints or issues. Reasonable restrictions may be placed in the special use permit to address hours of operation, dust, and odor control measures. No evidence has been provided suggesting that property values have declined in the area since the facility commenced operations.***

*Adequate utilities, access roads and points of ingress and egress, drainage, and/or other necessary facilities have been or are being provided. **The special use will not be adding any new utilities or roadways to the property. They will use the current access point onto Beecher Road which has a gate which will be closed unless the operation is open. State law and the Kendall County Zoning Ordinance require a Surface Water Management Plan.***

The special use shall in all other respects conform to the applicable regulations of the district in which it is located, except as such regulations may in each instance be modified by the County Board pursuant to the

recommendation of the Zoning Board of Appeals. This is true; no variances are requested.

The special use is consistent with the purpose and objectives of the Land Resource Management Plan and other adopted County or municipal plans and policies. This operation existed before the Land Resource Management Plan existed and the plan calls for the area to be residential which it could be when/if this operation ever ceases to exist.

RECOMMENDATION

Staff would like confirmation that the revised site plan will be the final version of the controlling site plan for the property. Staff would also like to see a phasing plan by which the old, State approved site plan is phased out and the new site plan is brought online. The general conditions and restrictions would be as follows:

1. The facility shall comply with the conditions as they are listed in the applicable sections of the Kendall County Zoning Ordinance related to the composting of landscape waste and food waste, subject to the following:
 - a. The facility shall meet all Illinois Environmental Protection Agency requirements as identified in the applicable sections of the Kendall County Zoning Ordinance.
 - b. Operational personnel shall be present on site during all hours which the facility is open for the receipt of landscape waste.
 - c. The hours during which landscape waste may be received shall be 7:00 a.m. to 4:00 p.m. on Monday through Fridays and 7:00 a.m. to Noon on Saturdays. Processing operations shall cease after each day's receipts have been processed and placed in windrows, not to exceed three (3) additional hours.
 - d. The decibel levels at the property line shall not exceed Illinois Pollution Control Board standards.
 - e. Water samples shall be taken by an independent testing service and analyzed by an independent laboratory. The locations, methods and frequency of sampling and testing shall be approved by the Kendall County Environmental Health Department Director. The test results shall be sent to the Environmental Health Department within forty-five (45) days of sampling.
 - f. Soil samples shall be taken by an independent testing service and analyzed by an independent laboratory. The locations, methods and frequency of sampling and testing shall be approved by the Kendall County Environmental Health Department Director. The test results shall be sent to the Environmental Health Department within forty-five (45) days of sampling.
 - g. Authorized Kendall County personnel shall be allowed on site during business hours for inspection and testing.
 - h. The facility operator shall send up-to-date copies of the State permit and related documents including Operational Plan, Surface Water Management Plan, Pest Control Plan, Site Drawing, and an Annual Report to the County Solid Waste Coordinator.
 - i. Truck weights shall be limited to seventy-three thousand, two hundred eighty (73,280) pounds.
 - j. The operator shall provide weight receipts to Kendall County.
 - k. Off-site debris and trash generated by the site must be cleaned-up on a daily basis on surrounding properties with the owner's permission.
 - l. Implement strategies to manage potential odor issues such as maintaining proper carbon to-nitrogen ratios, maintaining moisture levels, and sufficient turning of compost piles to enhance decomposition.

- m. Install water spraying systems or dust suppression equipment at critical points of dust generation. Regularly monitor moisture content and use sprinkler systems or misters to dampen the compost as needed.
- 2. The facility will be permitted to take in one hundred seventy-five thousand (175,000) cubic yards of source-separated landscape materials (i.e. brush, leaves, tree trimmings, grass **and food waste**). **(Amended after ZPAC)**
- 3. The site shall be developed substantially in accordance with the site plan (Attachment 4, Page 3 and/or Attachment 4A) and the site plan shall be kept on file as "Exhibit A" attached hereto.
- 4. As noted on the site plan, a fifteen foot (15') buffer and a berm will be provided between the composting area and the United City of Yorkville's boundary. The berm will be at least fifteen feet (15') wide and three feet (3') high. The buffer landscaping will be composed primarily of pine, fir, and/or shade trees planted at spacing not to exceed forty feet (40') apart. Seedlings will be a minimum of six inches (6") in height. Specimen seedlings will be planted and the berm will be constructed within one (1) year of issuance of the special use permit ordinance. The Kendall County Planning, Building and Zoning Committee may grant an extension to the deadline to install the berms and landscaping.
- 5. The facility operator shall maintain existing plantings on the berm and ditch.
- 6. The facility operator shall maintain the security gate, signage, and landscaping as indicated on "Exhibit B" (Attachment 4, Pages 4 and 5) attached hereto. The locked gate shall restrict vehicle access during closed hours except that a "lock-box" shall allow access to emergency vehicles.
- 7. The facility operator shall maintain a sampling schedule as shown on "Exhibit C" (Attachment 4, Page 6) attached hereto dated March 11, 2008.
- 8. The County Solid Waste Coordinator shall maintain a log of complaints received on the facility.
- 9. This special use Ordinance shall expire on December 1, 2033, and the petition for renewal shall be made prior to July 1, 2033.
- 10. If any Illinois Environmental Protection Agency (IEPA) violations or citations are received by the site operator/manager and/or parcel owner/manager they need to be submitted to the County Solid Waste Coordinator within thirty (30) days.
- 11. The operator of the business allowed by the special use permit shall follow the Decommissioning Plan (Attachment 5) as described in Exhibit D. The operator shall assume all of the responsibilities assigned to Green Organics in the plan. The Decommissioning Plan shall be kept on file in the site trailer office per EPA requirements and will be accessible to the Kendall County Health Inspector. The operator of the business allowed by the special use permit shall update the Kendall County Health Department within thirty (30) days of changes to the Decommissioning Plan.
- 12. The operator of the business allowed by the special use permit shall notify the Kendall County Planning, Building and Zoning Department within thirty (30) days of changes in operation manager. In addition, the operator of the business allowed by this special use permit shall provide contact information of the management operator annually by July 1st.
- 13. The operator of the business allowed by the special use permit shall ensure a host community agreement is in existence with the County prior to operations.
- 14. Ordinance 2014-04 and all previous special use permits and amendments to special use permits related to the operation of composting facility on the subject property are hereby repealed in their entirety.
- 15. ~~None of the vehicles or equipment parked or stored on the subject property related to the business allowed by the special use permit shall be considered agricultural vehicles or agricultural equipment.~~ **(Deleted at ZPAC)**

16. All of the vehicles and equipment stored on the subject property related to the business allowed by the special use permit shall be maintained in good condition with no deflated tires and shall be licensed if required by law.
17. Any structures constructed, installed, or used related to the business allowed by this special use permit on the property shall not be considered for agricultural purposes and must secure applicable building permits.
18. At least one (1) water truck shall be onsite for dust control purposes. **(Added after ZPAC)**
19. The operator of the business allowed by this special use permit shall track wind direction and speed daily and add amendments to the composting materials if windrows are turned with winds blowing towards populated areas. **(Added after ZPAC)**
20. The owners and operators of the business allowed by this special use permit acknowledge and agree to follow Kendall County's Right to Farm Clause.
21. The property owner and operator of the business allowed by this special use permit shall follow all applicable Federal, State, and Local laws related to the operation of this type of business.
22. Failure to comply with one or more of the above conditions or restrictions could result in the amendment or revocation of the special use permit.
23. If one or more of the above conditions is declared invalid by a court of competent jurisdiction, the remaining conditions shall remain valid.
24. This special use permit shall be treated as a covenant running with the land and are binding on the successors, heirs, and assigns as to the same special use conducted on the property.

Detailed Description Of Proposed Use Business Plan

1. The facility shall comply with the conditions as they are listed in the applicable sections of the Kendall County Zoning Ordinance: Composting of landscape waste and food waste, subject to the following:
 - a. The facility shall meet all Illinois Environmental Protection Agency requirements as identified in the applicable sections of the Kendall County Zoning Ordinance.
 - b. Operational personnel shall be present on site during all hours which the facility is open for the receipt of landscape waste.
 - c. The hours during which landscape waste may be received shall be 7:00am to 4:00pm Monday through Friday and 7:00am to 12:00 noon Saturday. Processing operations shall cease after each day's receipts have been processed and placed in windrows, not to exceed three (3) additional hours.
 - d. The decibel levels at the property line shall not exceed Illinois Pollution Control Board standards.
 - e. A locked gate shall restrict vehicle access during closed hours except that a "lock-box" shall allow access to emergency vehicles.
 - f. Water samples shall be taken by an independent testing service and analyzed by an independent laboratory. The locations, methods and frequency of sampling and testing shall be approved by the Kendall County Environmental Health Department Director. The test results shall be sent to the Environmental Health Department within forty-five (45) days of sampling.
 - g. Soil samples shall be taken by an independent testing service and analyzed by an independent laboratory. The locations, methods and frequency of sampling and testing shall be approved by the Kendall County Environmental Health Department Director. The test results shall be sent to the Environmental Health Department within forty-five (45) days of sampling.
 - h. Authorized Kendall County personnel shall be allowed on site during business hours for inspection and testing.
 - i. The facility operator shall send up-to-date copies of the State permit and related documents including Operational Plan, Surface water management Plan, Pest Control Plan, Site Drawing, and an Annual Report to the County Solid Waste Coordinator.
 - j. Truck weights shall be limited to 73,280 pounds.
 - k. The operator shall provide weight receipts to Kendall County.

- l. Off-site debris and trash generated by the site must be cleaned-up on a daily basis on surrounding properties with the owner's permission.
 - m. Other conditions as appropriate for the particular facility. (*Amended 6/26/2023*)
 - n. Decommissioning plan shall be kept on file in the site trailer office per EPA requirements and will be accessible to the Kendall County Health Inspector.
 - o. Implement strategies to manage potential odor issues such as maintaining proper carbon-to-nitrogen ratios, maintaining moisture levels, and sufficient turning of compost piles to enhance decomposition.
 - p. Install water spraying systems or dust suppression equipment at critical points of dust generation. Regularly monitor moisture content and use sprinkler systems or misters to dampen the compost as needed.
 - q. A 15' buffer and a berm will be provided between the composting area and the Village of Yorkville. This berm will be at least 15' wide by 3' high. The buffer landscaping will be composed primarily of pine, fir, and/or shade trees planted at spacing not to exceed 40' apart. Seedlings will have a minimum of 6" in height. Specimen seedlings will be planted and the berm will be constructed within one year of issuance of the Composting Ordinance.
2. The facility will be permitted to take in 175,000 cubic yards of source-separated landscape materials (i.e. brush, leaves, tree trimmings and grass).
 3. The site plan shall be kept on file as "Exhibit A" attached hereto.
 4. The facility operator shall maintain existing plantings on the berm and ditch.
 5. The facility operator shall maintain the security gate and landscaping as indicated on "Exhibit B" attached hereto.
 6. The facility operator shall maintain a sampling schedule as shown on "Exhibit C" attached hereto dated March 11, 2008.
 7. The County Solid Waste Coordinator shall maintain a log of complaints received on the facility.
 8. This special use Ordinance shall expire on December 1, 2033 and the petition for renewal shall be made prior to July 1, 2033.
 9. If any Illinois Environmental Protection Agency (IEPA) violations or citations are received by the site operator/manager and/or parcel owner/manager they need to be submitted to the County Solid Waste Coordinator within 30 days.

LEGAL DESCRIPTION OF ZONING TRACT:
 That part of the Northwest Quarter of Section 8, Township 37 North, Range 7 East of the Third Principal Meridian, being described as follows: Commencing at the Northwest Corner of said Quarter Section; thence North 88°29'44" East along the North Line of said Northwest Quarter, 953.68 feet to a point in the center line of a branch of Rob Roy Creek for the point of beginning; thence continuing North 88°29'44" East along said North Line, 1699.50 feet to the Northeast Corner of said Northwest Quarter; thence South 00°06'57" East along the East Line of said Northwest Quarter, 1124.58 feet; thence South 88°27'18" West, 2655.95 feet to a point on the West Line of said Northwest Quarter that is 1126.52 feet Southerly of the Northwest Corner of said Northwest Quarter; thence North 00°01'23" East along said West Line, 100.0 feet; thence North 87°51'12" East, 1498.53 feet to a point in the center line of a branch of Rob Roy Creek; thence North 28°38'38" West along said center line, 1134.24 feet to the point of beginning in Bristol Township, Kendall County, Illinois and containing 39.8752 acres.

FLOODPLAIN STATEMENT:
 The Subject property is located in Zone X (areas of minimal flood hazard determined to be outside the 0.2% annual chance floodplain) as shown on FEMA Flood Insurance Rate Map Panel No. 17093C0036G with an effective date of February 4, 2009.

WETLANDS STATEMENT:
 The National Wetlands Inventory Map depicts Riverine wetlands (R2UBHx) in the relocated and dredged branch of Rob Roy Creek.

Mr. Joseph Mazza

[Redacted]

Dear Mr. Mazza:

You requested confirmation of the sampling schedule that is used by Analytical Chemistry & Environmental Services, Inc. (AC&E Services, Inc.) at your compost facility in Bristol, Illinois.

The compost is tested according to 35 Illinois Administration Code (IAC) Section 830.507(a) for each 5000 tons shipped.

The well at the site is tested once per year in May in accordance with your current permit. The soil is tested once per year in September. Two composite soil samples are taken; one in the detention pond at the west side of the facility and one taken at the end of the windrows at the south end of the property. The testing is performed in accordance with your current permit.

I hope this answers your questions concerning your current testing requirements. If any further help is needed, do not hesitate to contact us.

Regards,

Type of Request

Change in Zoning from _____ to _____
 Variance (Please describe fully on separate page)
 Special Use Permit (Please describe fully on separate page)
Name of County or Municipality the request is being filed with: Kendall County, IL

In addition to this completed application form, please including the following to ensure proper processing:

- Plat of Survey/Site Plan** – showing location, legal description and property measurements
- Concept Plan** - showing the locations of proposed lots, buildings, roads, stormwater detention, open areas, etc.
- If available: topography map, field tile map, copy of soil boring and/or wetland studies
- NRI fee** (Please make checks payable to Kendall County SWCD)

The NRI fees, as of July 1, 2010, are as follows:

Full Report: \$375.00 for five acres and under, plus \$18.00 per acre for each additional acre or any fraction thereof over five.
Executive Summary Report: \$300.00 (KCSWCD staff will determine when a summary or full report will be necessary.)

Fee for first five acres and under \$ 375.00
_____ Additional Acres at \$18.00 each \$ _____
Total NRI Fee \$ 75.00

NOTE: Applications are due by the 1st of each month to be on that month's SWCD Board Meeting Agenda. Once a completed application is submitted, please allow 30 days for inspection, evaluation and processing of this report.

I (We) understand the filing of this application allows the authorized representative of the Kendall County Soil and Water Conservation District (SWCD) to visit and conduct an evaluation of the site described above. The completed NRI report expiration date will be 3 years after the date reported.

Kendall County Soil & Water Conservation District

July 13, 2023

Jefferey Milroy

Dear Mr. Milroy,

The Kendall County Soil & Water Conservation District (SWCD) received a Natural Resources Information Report (NRI) Application for a special use permit renewal petition on parcel 02-08-100-006 filed with Kendall County. The site is an existing EPA composting facility that accepts yard and food waste from the surrounding area. The petitioner is proposing an approximate 17-acre expansion of the composting operation on the western half of the parcel with the addition of a future detention basin. The project site is located at 207 E Beecher Rd, Bristol, IL 60512 in the northwest quarter of Section 8, Township 37N (Bristol Township), Range 7E of the 3rd Principal Meridian. The site is zoned A1-SU Agricultural Special Use. After reviewing the application and supporting documents, it was determined that a *full NRI Report is not necessary at this time* for the proposed project.

The Kendall County SWCD has reviewed the 39.87-acre project site and would like to note the following natural resource considerations:

- The site currently contains an existing 17-acre composting area, detention basin, truck turn-around, and parking area. According to the property owner, the site is tile drained.

- The 2008 Soil Survey for Kendall County as maintained by the United States Department of Agriculture – Natural Resource Conservation Service (USDA-NRCS) contains soil maps and descriptions for soil types throughout the county. The exhibit above shows the soil map, and the table below shows the soil map units that are present within the project site. Please note this information does not replace the need for site specific soil testing.

Soil Map Unit	Acreage	Percent of Parcel
60C2 La Rose silt loam, 5-10% slopes, eroded	5.1	12.9%
60C3 La Rose clay loam, 5-10% slopes, severely eroded	4.7	11.8%
67A Harpster silty clay loam, 0-2% slopes	18.5	46.4%
152A Drummer silty clay loam, 0-2% slopes	2.3	5.7%
512B Danabrook silt loam, 2-5% slopes	7.8	19.5%
865 Pits, gravel	1.5	3.8%

- Soil survey interpretations are predictions of soil behavior for specified land uses and specified management practices. These interpretative ratings help engineers, planners, and others to understand how soil properties influence behavior when used for nonagricultural uses. They are based on the soil properties that directly influence the specified use of the soil. Each soil map unit has limitations for a variety of land uses. The table below shows the soil limitations for uses including food-processing waste, farm and garden composting, and shallow excavations. It is important to remember that soils do not function independently of each other. The behavior of a soil depends upon the physical properties of adjacent soil types, the presence of artificial drainage, soil compaction, and its position in the local landscape.

Soil Type	Food-Processing Waste	Farm & Garden Composting Facility	Shallow Excavations
60C2 & 60C3	<u>Very Limited:</u> Dense layer; Slow water movement; Depth to saturated zone	<u>Somewhat Limited:</u> Slope; Low strength; Wetness; Low precipitation; Extreme soil temperatures	<u>Very Limited:</u> Depth to saturated zone; Dusty; Unstable excavation walls
67A	<u>Very Limited:</u> Ponding; Depth to saturated zone; Leaching	<u>Very Limited:</u> Low strength; Wetness; Ponding; Low precipitation; Seepage	<u>Very Limited:</u> Ponding; Depth to saturated zone; Dusty; Unstable excavation walls
152A	<u>Very Limited:</u> Ponding; Depth to saturated zone; Leaching; Slow water movement	<u>Very Limited:</u> Low strength; Wetness; Ponding; Low precipitation	<u>Very Limited:</u> Ponding; Depth to saturated zone; Dusty; Unstable excavation walls; Too clayey
512B	<u>Somewhat Limited:</u> Depth to saturated zone; Slow water movement	<u>Somewhat Limited:</u> Low strength; Wetness; Slope; Extreme soil temperatures; Low precipitation	<u>Somewhat Limited:</u> Depth to saturated zone; Dusty; Unstable excavation walls
865	N/A	N/A	N/A

- The information provided in the table below provides further detail regarding the following:
 - Drainage Class: Refers to the frequency and duration of wet periods under similar conditions to those under which the soil formed.
 - Hydrologic Soil Groups: Soils have been classified into four (A, B, C, D) hydrologic groups based on runoff characteristics due to rainfall. If a soil is assigned to a dual hydrologic group (A/D, B/D or C/D), the first letter is for drained areas and the second letter is for undrained areas. Group A soils have a high infiltration rate, low runoff potential and high rate of water transmission. Group B soils have a

moderate infiltration rate and rate of water transmission. Group C soils have a slow infiltration rate and rate of water transmission. Group D soils have a very slow infiltration rate, high runoff potential and a very slow rate of water transmission.

- Hydric Soils: A hydric soil is one that formed under conditions of saturation, flooding, or ponding long enough during the growing season to develop anaerobic conditions in the upper part of the soil profile that supports the growth or regeneration of hydrophytic vegetation. Soils with hydric inclusions have map units dominantly made up of non-hydric soils that may have inclusions of hydric soils in the lower positions on the landscape. Of the soils found onsite, two are hydric (67A Harpster silty clay loam and 152A Drummer silty clay loam) and three are non-hydric (60C2 La Rose silt loam, 60C3 La Rose clay loam, and 512B Danabrook silt loam).
- Prime Farmland: Prime farmland is land that has the best combination of physical and chemical characteristics for agricultural production. Prime farmland soils are an important resource to Kendall County and some of the most productive soils in the United States occur locally. Of the soils found onsite, three are designated as prime farmland (67A Harpster silty clay loam, 152A Drummer silty clay loam, and 512B Danabrook silt loam). Two of the soils are designated as farmland of statewide importance (60C2 La Rose silt loam and 60C3 La Rose clay loam), and one is designated as non-prime farmland (865 Pits, gravel).

Map Unit	Drainage Class	Hydrologic Group	Hydric Designation	Prime Farmland
60C2 & 60C3	Moderately Well Drained	C	Non-Hydric	Farmland of Statewide Importance
67A	Poorly Drained	B/D	Hydric	Prime Farmland if Drained
152A	Poorly Drained	B/D	Hydric	Prime Farmland if Drained
512B	Moderately Well Drained	C	Non-Hydric	Prime Farmland
865	N/A	N/A	N/A	Not Prime Farmland

- The information provided in the table below provides further detail regarding soil water features:
 - Surface Runoff: Surface runoff refers to the loss of water from an area by flow over the land surface. Surface runoff classes are based upon slope, climate and vegetative cover and indicates relative runoff for very specific conditions (it is assumed that the surface of the soil is bare and that the retention of surface water resulting from irregularities in the ground surface is minimal).
 - Water Table: Water table refers to a saturated zone in the soil and the data indicates, by month, depth to the top (upper limit) and base (lower limit) of the saturated zone in most years. These estimates are based upon observations of the water table at selected sites and on evidence of a saturated zone (grayish colors or mottles (redoximorphic features)) in the soil. Note: A saturated zone that lasts for less than a month is not considered a water table.
 - Ponding: Ponding is standing water in a closed depression. Unless a drainage system is installed, the water is removed only by percolation, transpiration, or evaporation. Duration indicated as brief means ponding typically occurs for a period of 2-7 days. Frequency indicated as non means ponding is not possible and frequent means that it occurs, on average, more than once in 2 years (chance of ponding is more than 50% in any year).
 - Flooding: Flooding is temporary inundation of an area caused by overflowing stream, runoff from adjacent slopes, or tides. Water standing for short periods after rainfall or snowmelt is not considered flooding. Water standing in swamps and marshes is considered ponding rather than flooding.

Map Unit	Surface Runoff	Water Table	Ponding	Flooding
60C2	High	<u>February – April</u> Upper Limit: 2.0'-3.5' Lower Limit: 2.2'-4.0'	<u>January – December</u> Frequency: None	<u>January – December</u> Frequency: None

865	N/A	N/A	N/A	N/A

- This site is located on slopes of approximately 0-10%. The site lies within the Fox River Watershed (Rob Roy Creek sub watershed).
- Based on an in-office review of the Federal Emergency Management Agency's (FEMA) Flood Insurance Rate Map (FIRM) for Kendall County, Community Panel No. 17093C0030G (effective date February 4, 2009), it does not appear that this parcel is located within the 100-year floodplain. It is mapped as Zone X, an area of minimal flood hazard. Additionally, based upon review of the U.S. Fish & Wildlife Service's National Wetlands Inventory Map, a riverine waterway (tributary to Rob Roy Creek) is present along the western edge of the project site. To determine the presence of wetlands, a wetland delineation specialist, who is recognized by the U.S. Army Corps of Engineers, should determine the exact boundaries and value of the wetlands.
- If construction is to occur onsite, a soil erosion and sediment control plan should be prepared and implemented in accordance with both Kendall County and Illinois EPA requirements. The Illinois Urban Manual can be used as a reference for proper selection and implementation of onsite soil erosion and sediment control practices to ensure that soil is properly maintained onsite from project initiation to completion.
- The Land Evaluation Site Assessment (LESA) system, a land use planning tool, assists decision-makers in Kendall County in determining the suitability of a land use change and/or a zoning request. Specifically, the LESA system is designed to facilitate decision making by providing a rational process for assisting local officials in making farmland conversion decisions through the local land use process. It provides a technical framework to numerically rank land parcels based on local resource evaluation and site considerations. The LESA system was developed by the United States Department of Agriculture-Natural Resources Conservation Service (USDA-NRCS) and takes into consideration local conditions such as physical characteristics of the land, compatibility of surrounding land uses, and urban growth factors. The LESA system is a two-step procedure that includes Land Evaluation (LE) and Site Assessment (SA). The Land Evaluation is based on soils of a given area that are rated and placed in groups ranging from the best to worst suited for a stated agriculture use such as cropland and forestland. The best group is assigned a value of 100 and all other groups are assigned lower values (94, 87, 79, etc.). The Land Evaluation is based on data from the USDA Kendall County Soil Survey. The Site Assessment is numerically evaluated according to important factors that contribute to the quality of the site. Each factor

selected is assigned values in accordance with the local needs and objectives. The overall score is based on a 300-point rating scale.

Land Evaluation Computation

Soil Type	Value Group	Relative Value	Acres	Product (Relative Value x Acres)
60C2	5	82	5.1	418.2
60C3	6	69	4.7	324.3
67A	2	94	18.5	1,739.0
152A	1	100	2.3	230.0
512B	2	94	7.8	733.2
865	8	0	1.5	0.0
Totals			39.9	3,444.7
LE Calculation			(Product of relative value / Total Acres) 3,444.7 / 39.9 = 86.3	
LE Score			LE = 86	

The Land Evaluation score for this site is 86 out of a possible 100 points, indicating that the soils are well-suited for agricultural uses since the Land Evaluation score is above 80.

Site Assessment Computation

A.	Agricultural Land Uses	Points
	1. Percentage of area in agricultural uses within 1.5 miles of site. (20-10-5-0)	10
	2. Current land use adjacent to site. (30-20-15-10-0)	15
	3. Percentage of site in agricultural production in any of the last 5 years. (20-15-10-5-0)	10
	4. Size of site. (30-15-10-0)	15
B.	Compatibility / Impact on Uses	
	1. Distance from city or village limits. (20-10-0)	0
	2. Consistency of proposed use with County Land Resource Management Concept Plan and/or municipal comprehensive land use plan. (20-10-0)	10
	3. Compatibility of agricultural and non-agricultural uses. (15-7-0)	0
C.	Existence of Infrastructure	
	1. Availability of public sewage system. (10-8-6-0)	8
	2. Availability of public water system. (10-8-6-0)	8
	3. Transportation systems. (15-7-0)	7
	4. Distance from fire protection service. (10-8-6-2-0)	6
	Site Assessment Score:	89

The Site Assessment score for this site is 89 out of a possible 200 points. The Land Evaluation value (86) is added to the Site Assessment value (89) to obtain a LESA Score of 175. The table below shows the level of protection for the proposed project site based on the LESA Score.

LESA Score Summary

LESA SCORE	LEVEL OF PROTECTION
0-200	Low
201-225	Medium
226-250	High
251-300	Very High

The overall LESA Score for this site is 175 indicating a low level of protection for the proposed project site. Note: Selecting the project site with the lowest total points will generally protect the best farmland located in the most viable areas and maintain and promote the agricultural industry in Kendall County.

If you have any questions, please contact our office at (630) 553-5821 extension 3.

Disclaimer

The Illinois Natural Heritage Database cannot provide a conclusive statement on the presence, absence, or condition of natural resources in Illinois. This review reflects the information existing in the Database at the time of this inquiry, and should not be regarded as a final statement on the site being considered, nor should it be a substitute for detailed site surveys or field surveys required for environmental assessments. If additional protected resources are encountered during the project's implementation, compliance with applicable statutes and regulations is required.

Terms of Use

By using this website, you acknowledge that you have read and agree to these terms. These terms may be revised by IDNR as necessary. If you continue to use the EcoCAT application after we post changes to these terms, it will mean that you accept such changes. If at any time you do not accept the Terms of Use, you may not continue to use the website.

1. The IDNR EcoCAT website was developed so that units of local government, state agencies and the public could request information or begin natural resource consultations on-line for the Illinois Endangered Species Protection Act, Illinois Natural Areas Preservation Act, and Illinois Interagency Wetland Policy Act. EcoCAT uses databases, Geographic Information System mapping, and a set of programmed decision rules to determine if proposed actions are in the vicinity of protected natural resources. By indicating your agreement to the Terms of Use for this application, you warrant that you will not use this web site for any other purpose.

2. Unauthorized attempts to upload, download, or change information on this website are strictly prohibited and may be punishable under the Computer Fraud and Abuse Act of 1986 and/or the National Information Infrastructure Protection Act.

3. IDNR reserves the right to enhance, modify, alter, or suspend the website at any time without notice, or to terminate or restrict access.

Security

EcoCAT operates on a state of Illinois computer system. We may use software to monitor traffic and to identify unauthorized attempts to upload, download, or change information, to cause harm or otherwise to damage this site. Unauthorized attempts to upload, download, or change information on this server is strictly prohibited by law.

Unauthorized use, tampering with or modification of this system, including supporting hardware or software, may subject the violator to criminal and civil penalties. In the event of unauthorized intrusion, all relevant information regarding possible violation of law may be provided to law enforcement officials.

Privacy

EcoCAT generates a public record subject to disclosure under the Freedom of Information Act. Otherwise, IDNR uses the information submitted to EcoCAT solely for internal tracking purposes.

**RE: Milroy Farms Composting
Consultation Program
EcoCAT Review #2317303
Kendall County**

Dear Mr. Milroy:

The Department has received your submission for this project for the purposes of consultation pursuant to the *Illinois Endangered Species Protection Act* [520 ILCS 10/11], the *Illinois Natural Areas Preservation Act* [525 ILCS 30/17], and Title 17 *Illinois Administrative Code* Part 1075.

The proposed action consists of operating a compost facility in Yorkville, IL.

The Illinois Natural Heritage Database shows the following protected resources may be in the vicinity of the project location:

State Listed

Mottled Sculpin (*Cottus bairdii*)

State and Federally Listed

Rusty Patched Bumblebee (*Bombus affinis*)

Due to the project scope and proximity to protected resources the Department recommends the following actions be taken to avoid adversely impacting listed species in the vicinity of the project:

Rusty Patched Bumblebee

- 1) The Department recommends that work which disturbs the ground or may remove flowering plants be done between October 1 and April 1 to avoid potential impacts.
- 2) If these dates cannot be accommodated, the Department recommends a Rusty Patched Bumble Bee survey be performed by a qualified biologist.
 - a) Survey results and methods should be forwarded to the Department for review and concurrence.

Please note that due to the federal status of the Rusty Patched Bumblebee, and its potential occurrence in the project area, coordination with the U.S. Fish and Wildlife Service may be necessary and is separate from this consultation and Illinois State regulations.

Given the above recommendations are adopted the Department has determined that impacts to these protected resources are unlikely. The Department has determined impacts to other protected resources in the vicinity of the project location are also unlikely.

In accordance with 17 Ill. Adm. Code 1075.40(h), please notify the Department of your decision regarding these recommendations.

Consultation on the part of the Department is closed, unless the applicant desires additional information or advice related to this proposal. Consultation for Part 1075 is valid for two years unless new information becomes available which was not previously considered; the proposed action is modified; or additional species, essential habitat, or Natural Areas are identified in the vicinity. If the action has not been implemented within two years of the date of this letter, or any of the above listed conditions develop, a new consultation is necessary.

The natural resource review reflects the information existing in the Illinois Natural Heritage Database at the time of the project submittal and should not be regarded as a final statement on the project being considered, nor should it be a substitute for detailed site surveys or field surveys required for environmental assessments. If additional protected resources are unexpectedly encountered during the project's implementation, the applicant must comply with the applicable statutes and regulations.

This letter does not serve as permission to take any listed or endangered species. As a reminder, no take of an endangered species is permitted without an Incidental Take Authorization or the required permits. Anyone who takes a listed or endangered species without an Incidental Take Authorization or required permit may be subject to criminal and/or civil penalties pursuant to the *Illinois Endangered Species Act*, the *Fish and Aquatic Life Act*, the *Wildlife Code* and other applicable authority.

The Department also offers the following conservation measures be considered to help protect native wildlife and enhance natural areas in the project area:

If temporary or permanent lighting is required, the Department recommends the following lighting recommendation to minimize adverse effects to wildlife:

- All lighting should be fully shielded fixtures that emit no light upward.
- Only “warm-white” or filtered LEDs (CCT < 3,000 K; S/P ratio < 1.2) should be used to minimize blue emission.
- Only light the exact space with the amount (lumens) needed to meet facility safety requirement.
- If LEDs are to be used, avoid the temptation to over-light based on the higher luminous efficiency of LEDs.

If erosion control blanket is to be used, the Department also recommends that wildlife-friendly plastic-free blanket be used around wetlands and adjacent to natural areas, if not feasible to implement project wide, to prevent the entanglement of native wildlife.

Please contact me with any questions about this review.

Sincerely,

[Redacted Signature]

Matt,

Apologies for the delay, I recently accepted a new position within the Department and am no longer a part of the Impact Assessment section.

However, to answer your questions, the recommendations are not required to be adhered to by law, they are best recommendations to avoid a Take of the listed species. Failure to adhere though may result in an increased likelihood of a Take of an endangered species as defined in Part 1075 of the *Illinois Endangered Species Act*.

If you have any further questions or concerns please contact Brad Hayes.

Sincerely,
Kyle Burkwald

Please fill out the following findings of fact to the best of your capabilities. §13:08.J of the Zoning Ordinance outlines findings that the Zoning Board of Appeals shall consider in rendering a decision, but is not required to make an affirmative finding on all items in order to grant a **special use**. They are as follows:

That the establishment, maintenance, and operation of the special use will not be detrimental to, or endanger, the public health, safety, morals, comfort, or general welfare. An experienced operator, Jesse C. Sexton, will be managing operations and running the site.

The operation is permitted and controlled by the EPA and inspected by the health department and they have not found anything to endanger the public health, safety, morals, comfort or general welfare during Jesse C. Sexton's tenure.

That the special use will not be substantially injurious to the use and enjoyment of other properties in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood. The Zoning classification of property within the general area of the property in question shall be considered in determining consistency with this standard. The proposed use shall make adequate provisions for appropriate buffers, landscaping, fencing, lighting, building materials, open space and other improvements necessary to insure that the proposed use does not adversely impact adjacent uses and is compatible with the surrounding area and/or the County as a whole.

The new management team of Jesse C. Sexton, William J. Coleman, Jefferey D Milroy, and Lilianna D. Milroy will incorporate as the new site operator. Jesse is well known to neighbors and local officials and ran the site without complaints regarding odors, debris, or dust. The site will be run orderly and squared away. No other operator will be assigned to this operation without approval of the management team.

That adequate utilities, access roads and points of ingress and egress, drainage, and/or other necessary facilities have been or are being provided.

The special use will not be adding any new utilities or roadways to the property. They will use the current access point onto Beecher Road which has a gate which will be closed unless the operation is open. Any new proposed detention basins will be provided under the Storm-water permit application.

That the special use shall in all other respects conform to the applicable regulations of the district in which it is located, except as such regulations may in each instance be modified by the County Board pursuant to the recommendation of the Zoning Board of Appeals

The special use conforms to all applicable regulations of the A-1 Special use district.

That the special use is consistent with the purpose and objectives of the Land Resource Management Plan and other adopted County or municipal plans and policies.

This operation existed before the Land Resource Management Plan existed and the plan calls for the area to be residential which it could be when/if this operation ever ceases to exist.

County of Kendall

Zoning Petition
#13-26

ORDINANCE NUMBER 2014 - 04

**GRANTING A MAJOR AMENDMENT TO A SPECIAL USE FOR
GREEN ORGANICS INC. AT 1270 EAST BEECHER ROAD**

WHEREAS, Green Organics, Inc., Milroy Farms LLC and Bristol Ventures LLC has filed a petition for a major amendment to their Special Use within the A-1 Agricultural Zoning District for a 58 acre property located on the east side of Beecher Road about 0.5 miles south of Galena Road, commonly known as 1270 E. Beecher Road, (PIN# 02-08-100-006, part of PIN# 02-08-200-015, part of PIN# 02-08-200-018, part of PIN# 02-08-200-019 and part of PIN# 02-08-200-022), in Bristol Township; and

WHEREAS, said petition is to amend their existing special use permit to continue operation of their regional compost facility at 1270 E. Beecher Road modifying the site plan to eliminate about 10.5 acres, add about 9.5 acres northeast in the City of Yorkville and seek new conditions on property; and

WHEREAS, said property is currently zoned A-1 Agricultural with an existing Special Use for operation for a landscape waste composting site; and

WHEREAS, the County Board of Kendall County, Illinois did grant the petitioner said request for as Ordinance 1993-19 on October 19, 1993; and

WHEREAS, the County Board of Kendall County, Illinois did grant the petitioner said request for a renewal as Ordinance 1997-13 on August 19, 1997; and

WHEREAS, the County Board of Kendall County, Illinois did grant the petitioner said request for a renewal as Ordinance 2000-18 on April 18, 2000; and

WHEREAS, the County Board of Kendall County, Illinois did grant the petitioner said request for a renewal as Ordinance 2008-17 on May 20, 2008; and

WHEREAS, the Zoning Administrator and/or deputies did grant the petitioner a minor amendment to the existing special use to allow the facility to begin accepting and processing food waste as Ordinance 10-25-11 on October 25, 2011; and

WHEREAS, said special uses will continue on the property; and

WHEREAS, said property is legally described as:

PARCEL 1
THAT PART OF THE NORTHWEST QUARTER OF SECTION 8, TOWNSHIP 37 NORTH, RANGE 7
EAST OF THE THIRD PRINCIPAL MERIDIAN, BEING DESCRIBED AS FOLLOWS:

WHEREAS, all procedures required by the Kendall County Zoning Ordinance were followed including notice for public hearing, preparation of the findings of fact, and recommendation for approval by the Special Use Hearing Officer on December 9, 2013; and

WHEREAS, the findings of fact were approved as follows:

That the establishment, maintenance, or operation of the special use will not be detrimental to or endanger the public health, safety, morals, comfort, or general welfare. The operation is controlled by the EPA and inspected regularly by the Health Department and have not found anything to endanger the public health, safety, morals, comfort, or general welfare.

State of Illinois
County of Kendall

Zoning Petition
#13-26

*That the special use will not be substantially injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood. The Zoning classification of property within the general area of the property in question shall be considered in determining consistency with this standard. The proposed use shall make adequate provisions for appropriate buffers, landscaping, fencing, lighting, building materials, open space and other improvements necessary to insure that the proposed use does not adversely impact adjacent uses and is compatible with the surrounding area and/or the County as a whole. **The operation has been open since 1993 with some minor debris issues a long time ago and since then there have been no complaints or issues. The newer water park exists less than a mile away to the east and still there have been no complaints about affecting the area properties.***

*That adequate utilities, access roads and points of ingress and egress, drainage, and/or other necessary facilities have been or are being provided. **The special use will not be adding any new utilities, roadways or drainage to the property. They will use the current access point onto Beecher Road which has a gate which will be closed unless the operation is open.***

*That the special use shall in all other respects conform to the applicable regulations of the district in which it is located, except as such regulations may in each instance be modified by the County Board pursuant to the recommendation of the Hearing Officer. **The special use conforms to all applicable regulations of the A-1 Special use district.***

*That the special use is consistent with the purpose and objectives of the Land Resource Management Plan and other adopted County or municipal plans and policies. **This operation existed before the Land Resource Management Plan existed and the plan calls for the area to be residential which it could be when/if this operation ever ceases to exist.***

WHEREAS, the Kendall County Board has considered the findings and recommendation of the Hearing Officer and finds that said petition is in conformance with the provisions and intent of the Kendall County Zoning Ordinance; and

WHEREAS, this special use shall be treated as a covenant running with the land and is binding on the successors, heirs, and assigns of the property owner as to the same special use conducted on the property; and

NOW, THEREFORE, BE IT ORDAINED, that the Kendall County Board hereby repeals Kendall County Ordinances #93-17, #97-13, #00-18, #08-17 and #10-28-11 in their entirety and hereby grants approval of a major amendment to their existing special use zoning permit to continue operation of their regional compost facility at 1270 E. Beecher Road modifying the site plan to eliminate about 10.5 acres, add about 9.5 acres northeast in the City of Yorkville subject to the following conditions:

1. The facility shall comply with the conditions listed in Section 7.01.D.15 (composting of landscape waste and food waste) of the Zoning Ordinance:
 - Composting of landscape waste and food waste, subject to the following:
 - a. The facility shall meet all Illinois Environmental Protection Agency requirements as identified in Title 35, Subtitle G, Chapter 1, Sub-chapter 1, Park 830, Standards for compost facilities.
 - b. Operational personnel shall be present on site during all hours which the facility is

State of Illinois
County of Kendall

Zoning Petition
#13-26

- open for the receipt of landscape waste.
- c. The hours during which landscape waste may be received shall be 7:00am to 4:00pm Monday through Friday and 7:00am to 12:00 noon Saturday. Processing operations shall cease after each day's receipts have been processed and placed in windrows, not to exceed three (3) additional hours.
 - d. The decibel levels at the property line shall not exceed Illinois Pollution Control Board standards.
 - e. A locked gate shall restrict vehicle access during closed hours except that a "lock-box" shall allow access to emergency vehicles.
 - f. Water samples shall be taken by an independent testing service and analyzed by an independent laboratory. The locations, methods and frequency of sampling and testing shall be approved by the Kendall County Environmental Health Department Director. The test results shall be sent to the Environmental Health Department within forty-five (45) days of sampling.
 - g. Soil samples shall be taken by an independent testing service and analyzed by an independent laboratory. The locations, methods and frequency of sampling and testing shall be approved by the Kendall County Environmental Health Department Director. The test results shall be sent to the Environmental Health Department within forty-five (45) days of sampling.
 - h. Authorized Kendall County personnel shall be allowed on site during business hours for inspection and testing.
 - i. The facility operator shall send up-to-date copies of the State permit and related documents including Operational Plan, Surface water management Plan, Pest Control Plan, Site Drawing, and an Annual Report to the County Solid Waste Coordinator.
 - j. Truck weights shall be limited to 73,280 pounds.
 - k. The operator shall provide weight receipts to Kendall County.
 - l. Off-site debris and trash generated by the site must be cleaned-up on a daily basis on surrounding properties with the owner's permission.
 - m. Other conditions as appropriate for the particular facility. *(Amended 6/20/2006)*
2. The facility will be permitted to take in 175,000 cubic yards of source-separated landscape materials (i.e. brush, leaves, tree trimmings and grass)
 3. The site plan shall be kept on file as "Exhibit A" attached hereto
 4. The facility operator shall maintain plantings on the berm and ditch.
 5. The facility operator shall maintain the gate and landscaping as indicated on "Exhibit B" attached hereto
 6. The facility operator shall maintain a sampling schedule as shown on "Exhibit C" attached hereto dated March 11, 2008.
 7. The County Solid Waste Coordinator shall maintain a log of complaints received on the facility.
 8. This special use Ordinance shall expire on December 1, 2023 and the petition for renewal shall be made prior to July 1, 2023.
 9. If any Illinois Environmental Protection Agency (IEPA) violations or citations are

State of Illinois
County of Kendall

Zoning Petition
#13-26

received they need to be submitted to the County Solid Waste Coordinator within 30 days.

Failure to comply with the terms of this ordinance may be cited as a basis for amending or revoking this special use permit.

IN WITNESS OF, this ordinance has been enacted on March 19th, 2014.

Dear Mr. Mazza:

You requested confirmation of the sampling schedule that is used by Analytical Chemistry & Environmental Services, Inc. (AC&E Services, Inc.) at your compost facility in Bristol, Illinois.

The compost is tested according to 35 Illinois Administration Code (IAC) Section 830.507(a) for each 5000 tons shipped.

The well at the site is tested once per year in May in accordance with your current permit. The soil is tested once per year in September. Two composite soil samples are taken; one in the detention pond at the west side of the facility and one taken at the end of the windrows at the south end of the property. The testing is performed in accordance with your current permit.

I hope this answers your questions concerning your current testing requirements. If any further help is needed, do not hesitate to contact us.

Regards,

Terese M. Laciak
President

Detailed Description Of Proposed Use Business Plan

1. The facility shall comply with the conditions as they are listed in the applicable sections of the Kendall County Zoning Ordinance: Composting of landscape waste and food waste, subject to the following:
 - a. The facility shall meet all Illinois Environmental Protection Agency requirements as identified in the applicable sections of the Kendall County Zoning Ordinance.
 - b. Operational personnel shall be present on site during all hours which the facility is open for the receipt of landscape waste.
 - c. The hours during which landscape waste may be received shall be 7:00am to 4:00pm Monday through Friday and 7:00am to 12:00 noon Saturday. Processing operations shall cease after each day's receipts have been processed and placed in windrows, not to exceed three (3) additional hours.
 - d. The decibel levels at the property line shall not exceed Illinois Pollution Control Board standards.
 - e. A locked gate shall restrict vehicle access during closed hours except that a "lock-box" shall allow access to emergency vehicles.
 - f. Water samples shall be taken by an independent testing service and analyzed by an independent laboratory. The locations, methods and frequency of sampling and testing shall be approved by the Kendall County Environmental Health Department Director. The test results shall be sent to the Environmental Health Department within forty-five (45) days of sampling.
 - g. Soil samples shall be taken by an independent testing service and analyzed by an independent laboratory. The locations, methods and frequency of sampling and testing shall be approved by the Kendall County Environmental Health Department Director. The test results shall be sent to the Environmental Health Department within forty-five (45) days of sampling.
 - h. Authorized Kendall County personnel shall be allowed on site during business hours for inspection and testing.
 - i. The facility operator shall send up-to-date copies of the State permit and related documents including Operational Plan, Surface water management Plan, Pest Control Plan, Site Drawing, and an Annual Report to the County Solid Waste Coordinator.
 - j. Truck weights shall be limited to 73,280 pounds.
 - k. The operator shall provide weight receipts to Kendall County.

- l. Off-site debris and trash generated by the site must be cleaned-up on a daily basis on surrounding properties with the owner's permission.
 - m. Other conditions as appropriate for the particular facility. (*Amended 6/26/2023*)
 - n. Decommissioning plan shall be kept on file in the site trailer office per EPA requirements and will be accessible to the Kendall County Health Inspector.
 - o. Implement strategies to manage potential odor issues such as maintaining proper carbon-to-nitrogen ratios, maintaining moisture levels, and sufficient turning of compost piles to enhance decomposition.
 - p. Install water spraying systems or dust suppression equipment at critical points of dust generation. Regularly monitor moisture content and use sprinkler systems or misters to dampen the compost as needed.
 - q. A 15' buffer and a berm will be provided between the composting area and the Village of Yorkville. This berm will be at least 15' wide by 3' high. The buffer landscaping will be composed primarily of pine, fir, and/or shade trees planted at spacing not to exceed 40' apart. Seedlings will have a minimum of 6" in height. Specimen seedlings will be planted and the berm will be constructed within one year of issuance of the Composting Ordinance.
2. The facility will be permitted to take in 175,000 cubic yards of source-separated landscape materials (i.e. brush, leaves, tree trimmings and grass).
 3. The site plan shall be kept on file as "Exhibit A" attached hereto.
 4. The facility operator shall maintain existing plantings on the berm and ditch.
 5. The facility operator shall maintain the security gate and landscaping as indicated on "Exhibit B" attached hereto.
 6. The facility operator shall maintain a sampling schedule as shown on "Exhibit C" attached hereto dated March 11, 2008.
 7. The County Solid Waste Coordinator shall maintain a log of complaints received on the facility.
 8. This special use Ordinance shall expire on December 1, 2033 and the petition for renewal shall be made prior to July 1, 2033.
 9. If any Illinois Environmental Protection Agency (IEPA) violations or citations are received by the site operator/manager and/or parcel owner/manager they need to be submitted to the County Solid Waste Coordinator within 30 days.

Approximate Location of 10' Utility Easement granted to Northern Illinois Gas Company by Document No. 9909578 recorded on June 29, 1999
 (NOTE: Location of above easement is shown as approximate due to the Surveyor's inability to read the illegible sketch in the Document. The Surveyor was unable to contact anyone at NICOR who could obtain a legible Document.)

Easement for Ingress and Egress described in Warranty Deed recorded October 9, 2012 as Document 201200019436

LEGAL DESCRIPTION OF ZONING TRACT:
 That part of the Northwest Quarter of Section 8, Township 37 North, Range 7 East of the Third Principal Meridian, being described as follows: Commencing at the Northwest Corner of said Quarter Section; thence North 88°29'44" East along the North Line of said Northwest Quarter, 953.68 feet to a point in the center line of a branch of Rob Roy Creek for the point of beginning; thence continuing North 88°29'44" East along said North Line, 1699.50 feet to the Northeast Corner of said Northwest Quarter; thence South 00°06'57" East along the East Line of said Northwest Quarter, 1124.58 feet; thence South 88°27'18" West, 2655.95 feet to a point on the West Line of said Northwest Quarter that is 1126.52 feet Southerly of the Northwest Corner of said Northwest Quarter; thence North 00°01'23" East along said West Line, 100.0 feet; thence North 87°51'12" East, 1498.53 feet to a point in the center line of a branch of Rob Roy Creek; thence North 28°38'38" West along said center line, 1134.24 feet to the point of beginning in Bristol Township, Kendall County, Illinois and containing 39.8752 acres.

**Green Organics, Inc.
Kendall County, Illinois
Yard Debris Composting Facility
Normal and Pre-Mature Closure Plan**

The information contained herein describes the procedures and activities to perform normal closure of the Green Organics yard debris composting facility located at 1270 E. Beecher Rd. in Bristol Illinois 60512. Both normal and pre-mature closures are limited by the amount of time needed for complete composting of material (item 1). Complete composting takes no less than three months. During this time, composted debris will be shipped and sold to customers as before. Thus, these figures are a maximum cost of closure and a pre-mature closure plan is not any different from a normal closure plan. The land would be used for the farming of food crops or seeded, as necessary. The description and cost for each procedure/activity is defined below:

Description	Quantity	Unit	Unit Cost	Cost	Time to Complete	Comments
Complete composting and removal of remaining material	43000	cy	\$0.65	\$28,000	3 months	Assume three months operation to complete compost. Assume 50% of material - sold from facility and 50% of material shipped to customer (i.e. pay for hauling)
Disposal of non-compostables	10	cy	\$30	\$300	1 day	Assumes one dumpster. Includes cost to haul and dispose at licensed landfill facility
Regrade and level composting pad for farming	23	acre	\$1,000	\$23,000	.5 months	Assumes regrading to original elevations
Seeding - Class 7 Seed	23	acre	\$300	\$7,000	.25 months	Includes seeding and erosion control
Return control of land to owners for farming	1	LS	\$1,000	\$1,000	.5 months	
Total				\$60,000	4.25 months	

Yard debris or cured compost that cannot be removed from the site will be prepared for incorporation into the soil at the site, and, incorporated into the soil in accordance with State of Illinois Regulations for application of yard waste for agricultural use. The incorporation rate will not exceed the amount specified for the grasses or crops planted on the site.

Grading and leveling of the soil will be performed in accordance with agricultural Best Management Practices (BMP) to minimize soil erosion and/or soil loss.

All structures, signs and equipment used in the composting operation and for closure of the site will be removed once closure has been completed. Green Organics will notify the Illinois EPA of the closure within ninety days of the beginning of closure activities, or sooner if required by law. Once closure had been completed, Green Organics will notify the Illinois EPA within five business days that the closure has been completed.

Subject: RE: [External]RE: Green Organics Question

Krysti:

Here are my comments/questions/responses to your concerns:

1. Do you have any specific description of what you would like to see in the landscape buffer (i.e. types of vegetation, height of vegetation, replacement schedule, etc.)?
Yes, ideally it would be a buffer similar to the City's transition yard between non-residential and residential which is a thirty foot (30') wide buffer yard with a berm at least three feet (3') in height and consisting of two (2) shade trees, five (5) evergreen trees and three (3) ornamental trees per one hundred (100) linear feet of buffer yard. I know 30 feet might not be possible, but somewhere in the realm of 15-30 feet.
2. If we require them to install vegetation, the County will likely give them a deadline to plant the required vegetation. The timing of the issuance of the special use permit and the amount of landscaping required to be installed will play a role in determining the length of the deadline.
3. The County does not have specific standards based on odor. The applicant would have to follow applicable IEPA and federal regulations. Understood.
4. Does Yorkville own an ASTM certified field olfactometer? Yes. Pete Ratos can provide you or Brian the specs. I would have to check to see if any County department owns such a device. OK.
5. IEPA regulations require the existence of an odor control plan. We could require that a dedicated odor control plan be submitted as part of a special use permit application. Please do.
6. While I am not opposed to having the notification and violation procedures that you propose, these are not the normal procedures that the County uses for violation notification/correction/enforcement. I do have concerns that someone could accuse the County of having different investigative and due process procedures for one type of special use permit compared with other special uses. Understood, but we have received multiple complaints in the past and have a detailed procedure for notice and violation in place was helpful in gaining compliance. I would also say that each special use is different and the nature of the special use criteria warrant conditions made on a case-by-case basis.
7. I am not opposed to having a detailed decommissioning plan with the items you requested for inclusion. Great.
8. I am not opposed to a requirement of notification of operation management change and contact information updated annually. We likely would set a deadline for notifying the County of changes and set an annual deadline (i.e. July 1st) of updating contact information. Understood.

9. In any conditions included in the special use permit, we likely will use the phrase “operators of the use allowed by the special use permit” rather than naming a specific entity like Green Organics or Midwest Materials. Understood.
10. Has anyone associate with the property contacted Yorkville regarding this special use permit renewal? No one has been in contact with me directly. The property owners and several of the consultants they appear to be working with were advised to contact Yorkville as part of their due diligence prior to submitting a special use permit application.
11. Does Yorkville have any desire to annex this property? Undetermined at this time. Would be a City Council policy decision. One of the conversations with the applicant indicated they were considering placing community solar panels on the property. Also, they indicated that the requested renewal of the special use permit might be 10 years. Interesting. In all likelihood, Yorkville will become home rule in the next 10 years and Yorkville might have greater regulatory power over this type of use as a home rule municipality compared to the powers granted to a non-home rule county.
12. Does Yorkville need any easements or right-of-way dedications as part of the special use permit? Undetermined. I will check with the City Engineer. When do you anticipate having a submittal?
13. Do you have any objections if I share the information in these emails with the prospective applicant? No, I do not.

Thanks,

Subject: RE: [External]RE: Green Organics Question

Hello Matt,

Thank you for the email. Yes, there are a few concerns the City has if the special use is renewed by the County. They are as follows:

1. Buffering from adjacent City parcels
 - a. The City is interested seeing landscape buffering along the eastern boundary of the County parcels to ensure future development on the City's side is screened as much as possible.
2. Does the County have performance standards regarding odors?
 - a. The City has strict performance standards and response time to complaints regarding odor and has specific language in the settlement agreement that we would like to see added as part of the County's special use conditions. They are:
 - i. Method of Odor Testing: The method used to perform any such odor testing will be by measuring and quantifying the odor in the ambient air in the area/location within the City of Yorkville that the complaint stems from using an ASTM certified portable odor detecting and measuring device known as a field olfactometer.
 - ii. Notification: No later than two (2) business days after performing any such odor testing, the County will send Green Organics and Midwest written notice of its findings including the

following information: the date and time the complaint was made; the area/location within the City of Yorkville that the complaint stems from; the outdoor temperature, wind condition, and ambient air reading from an ASTM certified field olfactometer device measured in said area/location on the date the complaint was made and as close to the time of the complaint as reasonably possible; and all such other information that is relevant to the complaint and the County's investigation of the same.

- iii. **Violation:** In the event that the field olfactometer device measurement from any such odor testing exceeds that threshold set forth in the ASTM Standard of Practice E679-91, Green Organics and/or Midwest shall take steps to immediately correct the conditions that are causing the odor. Additionally, within five (5) business days of receiving written notice of the County's findings, Midwest shall send the County a written response, including a description of any steps taken by Green Organics and/or Midwest to correct the conditions complained of.
 1. In the event that any County Ordinance violation or any such complaint received by the County is related to conditions other than odor, Green Organics and/or Midwest shall take steps to immediately correct any such conditions that are determined reasonably to be a violation of the City's ordinances.
 2. Within seven (7) days of receiving any such complaint/potential County Ordinance violation, Midwest shall send the County a written response, including a description of any steps taken by Green Organics and/or Midwest to correct the conditions complained of.
- b. City's Performance Standards for odor can be found here:
https://library.municode.com/il/yorkville/codes/code_of_ordinances?nodeId=TIT10ZO_CH13MADI_ART_CPEST_10-13C-4OD
3. Require a detailed decommissioning plan (site plan, timing of decommissioning, restoration plans, etc.) because the plans the City has received for decommissioning are not detailed.
4. Notification of operation management change and contact information updated annually.

Hope this helps. Let me know if you need any clarification of the information provided herein.

Dear Mr. Asselmeier:

We have received and reviewed the following information for the subject project:

- Stormwater Management Permit prepared by Jeff Milroy dated June 29, 2023 received July 6, 2023.
- Site Plan prepared by Tebrugge Engineering dated June 29, 2022, and received July 6, 2023.
- Plat of Survey prepared by Phillip D Young and Associates dated June 13, 2023 and received July 6, 2023.

The following comments require resolution prior to plan approval and our recommendation for issuance of a stormwater permit. Based on the information provided with this submittal these comments may not be comprehensive and should only be considered the initial review response to documents provided.

1. Provide a project narrative addressing drainage impacts and permit requirements.
2. Determine off-site flows tributary to the property and how they will be conveyed and facilitated by the project.
3. Significant drainage area is tributary to the north line of the project. Utilize streamstats to determine tributary area, design flow values for 100 year event and whether the flow is contained within the banks of the existing channel or result in overbank flooding. The limits of 100 year event conveyance is necessary to determine the adequacy of the proposed plan.
4. Provide a grading plan for the proposed swale drainage features noted on the plan.

5. Provide a cross section and design water surface elevations for proposed swales. Provide drainage calculations supporting the design of drainage swales.
6. Provide a landscape or restoration plan for the swales based on swale flow velocities.
7. Provide a grading and landscape plan for the screening berms denoted on the plan.
8. USACE determination of creek jurisdiction is necessary prior to County permit approval.
9. Depict the existing stormwater basin on the property and describe how the proposed project will impact the basin. Identify existing and proposed tributary areas.
10. Provide a grading plan for the proposed detention basin as well as a utility plan and outlet details. Provide hydrograph routing for the basin to determine adequacy of the design.
11. Define the surface for parking areas and other “pads” denoted on the plans. Provide dimensions for all parking, pads, truck access routes noted on the plan.
12. Clarify if the asphalt creek crossing is existing or proposed. Also clarify if drainage culverts are existing or proposed. Verify the ability of the roadway and culvert facilities to convey 100 year flows within banks or result in an overbank flooding condition.
13. Depict erosion control measures. Determine if an NPDES NOI is necessary.

The applicant’s design professionals are responsible for performing and checking all design computations, dimensions, details, and specifications in accordance with all applicable codes and regulations, and obtaining all permits necessary to complete this work. In no way does this review relieve applicant’s design professionals of their duties to comply with the law and any applicable codes and regulations, nor does it relieve the Contractors in any way from their sole responsibility for the quality and workmanship of the work and for strict compliance with the permitted plans and specifications. If you have any questions or comments, please contact us at (630) 443-7755.

Sincerely,

Greg Chismark PE
WBK Engineering, LLC

**ZONING, PLATTING & ADVISORY COMMITTEE (ZPAC)
August 1, 2023 – Unapproved Meeting Minutes**

PBZ Chairman Seth Wormley called the meeting to order at 9:01 a.m.

Present:

Matt Asselmeier – PBZ Department
Meagan Briganti – GIS Department
Fran Klaas – Highway Department
Alyse Olson – Soil and Water Conservation District
Aaron Rybski – Health Department
Seth Wormley – PBZ Committee Chair

Absent:

Greg Chismark – WBK Engineering, LLC
David Guritz – Forest Preserve
Brian Holdiman – PBZ Department
Commander Jason Langston – Sheriff's Department

Audience:

Karen Milroy, Jeff Milroy, and Marlin Hartman

AGENDA

Mr. Klaas made a motion, seconded by Mr. Rybski, to approve the agenda as presented.

With a voice vote of six (6) ayes, the motion carried.

MINUTES

Mr. Rybski made a motion, seconded by Ms. Briganti, to approve the July 5, 2023, meeting minutes.

With a voice vote of six (6) ayes, the motion carried.

PETITIONS

Petitions 23-26 Jeffery D. Milroy on Behalf of Milroy Farms, LLC

Mr. Asselmeier summarized the request.

On March 19, 2014, through Ordinance 2014-04, the County Board granted a special use permit, with conditions for the operation of a composting facility at the subject property. Ordinance 2014-04 required the property owner to submit a renewal prior to July 1, 2023, or the special use permit would expire on December 1, 2023. The property owner submitted the required renewal on June 30, 2023.

The subject property has operated as a composting facility since 1993.

The Petitioners are requesting the special use permit for the approximately thirty-nine point eight-seven (39.87) acres located in the unincorporated area. They are not renewing the special use permit for operations inside the United City of Yorkville. This reduces operations from approximately fifty-eight (58) acres.

The Host Community Agreement also expires in 2023. The Planning, Building and Zoning Committee met on July 10, 2023, to discuss renewing the agreement. They requested additional information regarding the amount of and types of materials coming into and out of the property.

Green Organics is no longer associated with the property.

The application materials, Ordinance 2014-04, plat of survey, business plan, including the site plan and landscaping plan, and decommissioning plan were provided.

The property is located at 1270 E. Beecher Road.

The property is just under forty (40) acres in size.

The County's Future Land Use Map calls for the western end of the property to be Mixed Use Business and the eastern part of the property to be Suburban Residential. Yorkville's plan calls for the property to be Estate/Conservation Residential.

E. Beecher Road is a Local Road maintained by Bristol Township.

There is a proposed trail along E. Beecher Road.

There are no floodplains on the property. There is a wetland on the extreme northwest corner of the property.

The adjacent land use to the west is Manufacturing. The other adjacent land uses are Agricultural.

The adjacent properties are zoned A-1, A-1 SU, M-2 and M-3 SU in the County. The adjacent properties inside Yorkville are zoned R-2 Planned Unit Development and R-2, R-4, and B-3 Planned Unit Development.

The County's Future Land Use Map calls for the area to be Suburban Residential, Mixed Use Business, and Urban Area. Yorkville Future Land Use Map calls for the area to be Estate/Conservation Residential.

The zoning districts within one half (1/2) mile in the County are A-1, A-1 SU, M-1, M-2, and M-3 SU. Inside Yorkville, there are a variety of residential planned unit developments.

The A-1 SU to the south was for gravel mining. The M-3 SU to the west was for asphalt production.

EcoCAT Report was submitted on June 22, 2023. The Mottled Sculpin and Rusty Patch Bumble Bee were in the vicinity. The Illinois Department of Natural Resources recommended that work that disturbs the ground or removes flowering plants be done between October 1st and April 1st. If work occurred outside of the dates listed, a Rusty Patch Bumble Bee survey should be conducted by a qualified biologist, with the results forwarded to the Illinois Department of Natural Resources. The consultation also noted that coordination with the United States Fish and Wildlife Service may be necessary. The consultation also contained suggestions for lighting. The consultation was closed if the recommendations related to the Rusty Patch Bumble Bee were implemented.

The Petitioner was not agreeable to either recommendation related to the Rusty Patch Bumble Bee. The Illinois Department of Natural Resources said if that if the Petitioner impacted the Rusty Patch Bumble Bee, that would be problematic.

The NRI Application was submitted on June 20, 2023. The LESA score was 175, indicating a low level of protection. The NRI was provided.

Petition information was sent to Bristol Township on July 19, 2023.

Prior to formal application submittal, Staff contacted Yorkville regarding potential comments on the application. Yorkville requested the following items:

1. A thirty foot (30') wide buffer with a berm at least three feet (3') in height and consisting of two (2) shade trees, five (5) evergreen trees, and three (3) ornamental trees per one hundred (100) linear feet of buffer; they favored a minimum fifteen (15') foot wide buffer.
2. Odor control regulations including using an ASTM certified portable olfactometer, notification by the County to the property owner/business operator within two (2) business days of findings, and a requirement that the property owner/business operator respond within five (5) business days of receiving the notice with corrective action steps. Yorkville's performance standards related to odor were submitted to the County.
3. A condition that the property owner/business operator submit a written response within seven (7) days of receiving a complaint for a non-odor violation outlining steps taken to correct the issue of the complaint.
4. The submission of a detailed decommissioning plan.
5. A requirement that notification of operation management changes and contact information be updated annually with the County.

Staff has concerns regarding the requested procedure of enforcement because the requested method presently contradicts the County's current voluntary compliance policy and the regular procedures for handling alleged violations in the Zoning Ordinance. Also, the County does not presently own an olfactometer. Lastly, the Illinois Environmental Protection Agency has rules regarding complaints.

Yorkville's email and Staff's response were provided.

The Petitioner was agreeable to certain landscaping, the submission of a decommissioning plan, the request regarding change of management and updated contact information.

Petition information was sent to the United City of Yorkville on July 19, 2023.

Petition information was sent to the Bristol Kendall Fire Protection District on July 19, 2023.

Per Section 7:01.D.20 of the Kendall County Zoning Ordinance, composting businesses can be special uses on A-1 zoned property subject to the following conditions:

1. The facility shall meet all Illinois Environmental Protection Agency requirements as identified in Title 35, Subtitle G, Chapter 1, Subchapter 1, Part 830, Standards for compost facilities.
2. Operational personnel shall be present on site during all hours which the facility is open for the receipt of landscape waste.
3. The hours during which landscape waste may be received shall be 7:00am to 4:00pm Monday through Friday and 7:00am to 12:00 noon Saturday. Processing operations shall cease after each day's receipts have been processed and placed in windrows, not to exceed three (3) additional hours.
4. The decibel levels at the property line shall not exceed Illinois Pollution Control Board standards.
5. A locked gate shall restrict vehicle access during closed hours except that a "lock-box" shall allow access to emergency vehicles.
6. Water samples shall be taken by an independent testing service and analyzed by an independent laboratory. The locations, methods and frequency of sampling and testing shall be approved by the Kendall County Environmental Health Department Director. The test results shall be sent to the Environmental Health Department within forty-five (45) days of sampling.
7. Soil samples shall be taken by an independent testing service and analyzed by an independent laboratory. The locations, methods and frequency of sampling and testing shall be approved by the Kendall County Environmental Health Department Director. The test results shall be sent to the Environmental Health Department within forty-five (45) days of sampling.
8. Authorized Kendall County personnel shall be allowed on site during business hours for inspection and testing.
9. The facility operator shall send up-to-date copies of the State permit and related documents including Operational Plan, Surface water management Plan, Pest Control Plan, Site Drawing, and an Annual Report to the County Solid Waste Coordinator.
10. Truck weights shall be limited to seventy-three thousand, two hundred eighty (73,280) pounds.
11. The operator shall provide weight receipts to Kendall County.
12. Off-site debris and trash generated by the site must be cleaned-up daily on surrounding properties with the owner's permission.
13. Other conditions as appropriate for the particular facility.

The Petitioner is agreeable to conditions 1-12.

When the special use permit was originally granted in the 1990s, they were originally allowed to process one hundred fifty thousand (150,000) cubic yards of source separated landscape materials. This number was increased to one hundred seventy-five thousand (175,000) cubic yards in 2014.

Starting in 2010, the facility was allowed to accept food scraps.

The site plan shows several twenty-five foot (25') wide windrows. These windrows are separated by ten foot (10') foot driving aisles. Most of the windrows are eight feet (8') tall or less in height.

Bulk agent storage areas separate the east and west windrow areas.

The site plan shows one (1) final cure storage area, one (1) grinding and blending concrete pad, and one (1) receiving pad. No information was provided regarding the dimensions of these areas.

As noted previously, the hours when landscape waste can be received are between 7:00 a.m. and 4:00 p.m. on Mondays through Fridays and 7:00 a.m. until Noon on Saturdays. Processing operations may continue for a maximum three (3) additional hours.

As noted in the Decommissioning Plan, the site will be converted back to farming within five (5) months, this includes the removal materials, grading, seeding, and removal of all structures. The Petitioner planned to reevaluate the Decommissioning Plan.

No information was provided regarding the number of employees at the property.

The use has been at the property since 1993.

There have not been any founded complaints against the property in recent years.

One (1) approximately four hundred twenty (420) square foot office trailer is shown on the plan near the southeast corner of the site.

The property is served by a well and septic. The well is located at the southeast corner of the property.

The Petitioner is agreeable to the requirements related to water samples and soil samples, inspection and testing, and submitting copies of the State permit, operational plan, surface water management plan, pest control plan, site drawings, annual report, and decommissioning plan. The Petitioner is also agreeable to providing weight receipts to Kendall County.

The Solid Waste Coordinator shall maintain a log of complaints received on the facility.

Sampling schedules are noted on in the business plan.

Though not shown on the site plan, a dumpster is located on the property. The business plan (Attachment 4, Page 2) notes a requirement to clean-up offsite debris and trash daily on surrounding properties.

NICOR possesses an easement north of the existing driveway.

Overhead utilities run from E. Beecher Road to the office trailer.

The property drains to the south and west.

One (1) existing detention basin is shown on the site plan north of parking area. The site plan also shows one (1) proposed detention basin southwest of the western windrows. One twenty-five foot (25') wide drainage swale is shown west of the western windrows. No information was provided regarding the dimensions of the detention basins or the depth of the drainage swale.

The Petitioners submitted an application for a stormwater management permit. WBK submitted comments in a letter dated July 15, 2023, which was provided. Staff was waiting for comments from the Petitioner regarding WBK's comments.

Per the site plan, the subject property has an asphalt drive to E. Beecher Road.

The Petitioner is agreeable to the truck weight restriction contained in the Kendall County Zoning Ordinance.

According to the site plan, one (1) parking area was shown north of the office trailer and one (1) handicapped accessible parking space was shown east of the office trailer. No information was provided regarding the total number of parking stalls.

The site plan shows one (1) truck turn around area.

No information was provided regarding lighting. Because of the small number of parking spaces, a photometric plan was not required.

According to the business plan, one (1) existing sign is located on the property. The sign is not illuminated. The information on the sign is required per Illinois Environmental Protection Agency rules.

One (1) additional no trespassing sign is located on the interior gate.

According to the site plan, there is a fence along the western and northern sides of the property. There is also a fifteen foot (15') wide buffer between the eastern property line and the berm. The business plan references a locked gate. The gate is locked during closed hours, but a lock box is available for emergency response vehicles.

Per the site plan, one (1) fifteen foot (15') wide berm is shown near the eastern property line. A twenty-five foot (25') wide berm is shown near the western and northern property lines. Per the business plan, the eastern berm will be three feet (3') in height. Landscaping consisting of pines, fir, and/or shade trees will be planted at spacing not to exceed forty feet (40') apart. Seedling will be a minimum of six inches (6") in height and will be planted within one (1) year of the issuance of the special use permit. The business plan also references maintaining the existing plantings on the berm and ditch and existing landscaping. No information was provided regarding plantings on the western or northern berms or the composition of the existing landscaping and plantings on the property.

Per the business plan, noise levels cannot exceed Illinois Pollution Control Board standards.

The business plan references odor control strategies generally. Illinois Environmental Protection Agency rules requires operators of composting facilities to prepare an odor minimization plan. Staff has requested a copy of this plan.

The Health Department requested that a water truck be onsite for dusty conditions and that the operator be required to chart wind direction and speed daily. The Petitioner was in agreement regarding the water truck condition, but was not in favor of charting wind speeds.

This is the only property to have a special use permit for a composting facility in unincorporated Kendall County.

Before preparing a Findings of Fact, Staff would like to review the stormwater information, pest control plan, and odor control plan and obtain comments from ZPAC members.

Staff would like additional information before issuing a recommendation. The general conditions and restrictions would be as follows:

1. The facility shall comply with the conditions as they are listed in the applicable sections of the Kendall County Zoning Ordinance related to the composting of landscape waste and food waste, subject to the following:
 - a. The facility shall meet all Illinois Environmental Protection Agency requirements as identified in the applicable sections of the Kendall County Zoning Ordinance.
 - b. Operational personnel shall be present on site during all hours which the facility is open for the receipt of landscape waste.
 - c. The hours during which landscape waste may be received shall be 7:00 a.m. to 4:00 p.m. on Monday through Fridays and 7:00 a.m. to Noon on Saturdays. Processing operations shall cease after each day's receipts have been processed and placed in windrows, not to exceed three (3) additional hours.
 - d. The decibel levels at the property line shall not exceed Illinois Pollution Control Board standards.
 - e. Water samples shall be taken by an independent testing service and analyzed by an independent laboratory. The locations, methods and frequency of sampling and testing shall be approved by the Kendall County Environmental Health Department Director. The test results shall be sent to the Environmental Health Department within forty-five (45) days of sampling.

- f. Soil samples shall be taken by an independent testing service and analyzed by an independent laboratory. The locations, methods and frequency of sampling and testing shall be approved by the Kendall County Environmental Health Department Director. The test results shall be sent to the Environmental Health Department within forty-five (45) days of sampling.
 - g. Authorized Kendall County personnel shall be allowed on site during business hours for inspection and testing.
 - h. The facility operator shall send up-to-date copies of the State permit and related documents including Operational Plan, Surface Water Management Plan, Pest Control Plan, Site Drawing, and an Annual Report to the County Solid Waste Coordinator.
 - i. Truck weights shall be limited to seventy-three thousand, two hundred eighty (73,280) pounds.
 - j. The operator shall provide weight receipts to Kendall County.
 - k. Off-site debris and trash generated by the site must be cleaned-up on a daily basis on surrounding properties with the owner's permission.
 - l. Implement strategies to manage potential odor issues such as maintaining proper carbon to-nitrogen ratios, maintaining moisture levels, and sufficient turning of compost piles to enhance decomposition.
 - m. Install water spraying systems or dust suppression equipment at critical points of dust generation. Regularly monitor moisture content and use sprinkler systems or misters to dampen the compost as needed.
2. The facility will be permitted to take in one hundred seventy-five thousand (175,000) cubic yards of source-separated landscape materials (i.e. brush, leaves, tree trimmings and grass). The Petitioner would like to take in food waste.
 3. The site shall be developed substantially in accordance with the site plan and the site plan shall be kept on file as "Exhibit A".
 4. As noted on the site plan, a fifteen foot (15') buffer and a berm will be provided between the composting area and the United City of Yorkville's boundary. The berm will be at least fifteen feet (15') wide and three feet (3') high. The buffer landscaping will be composed primarily of pine, fir, and/or shade trees planted at spacing not to exceed forty feet (40') apart. Seedlings will be a minimum of six inches (6") in height. Specimen seedlings will be planted and the berm will be constructed within one (1) year of issuance of the special use permit ordinance. The Kendall County Planning, Building and Zoning Committee may grant an extension to the deadline to install the berms and landscaping.
 5. The facility operator shall maintain existing plantings on the berm and ditch.
 6. The facility operator shall maintain the security gate, signage, and landscaping as indicated on "Exhibit B". The locked gate shall restrict vehicle access during closed hours except that a "lock-box" shall allow access to emergency vehicles.
 7. The facility operator shall maintain a sampling schedule as shown on "Exhibit C" dated March 11, 2008.
 8. The County Solid Waste Coordinator shall maintain a log of complaints received on the facility.
 9. This special use Ordinance shall expire on December 1, 2033, and the petition for renewal shall be made prior to July 1, 2033.
 10. If any Illinois Environmental Protection Agency (IEPA) violations or citations are received by the site operator/manager and/or parcel owner/manager they need to be submitted to the County Solid Waste Coordinator within thirty (30) days.
 11. The operator of the business allowed by the special use permit shall follow the Decommissioning Plan as described in Exhibit D. The operator shall assume all of the responsibilities assigned to Green Organics in the plan. The Decommissioning Plan shall be kept on file in the site trailer office per EPA requirements and will be accessible to

the Kendall County Health Inspector. The operator of the business allowed by the special use permit shall update the Kendall County Health Department within thirty (30) days of changes to the Decommissioning Plan.

12. The operator of the business allowed by the special use permit shall notify the Kendall County Planning, Building and Zoning Department within thirty (30) days of changes in operation manager. In addition, the operator of the business allowed by this special use permit shall provide contact information of the management operator annually by July 1st.
13. The operator of the business allowed by the special use permit shall ensure a host community agreement is in existence with the County prior to operations.
14. Ordinance 2014-04 and all previous special use permits and amendments to special use permits related to the operation of composting facility on the subject property are hereby repealed in their entireties.
15. None of the vehicles or equipment parked or stored on the subject property related to the business allowed by the special use permit shall be considered agricultural vehicles or agricultural equipment. The Petitioner was opposed to this condition.
16. All of the vehicles and equipment stored on the subject property related to the business allowed by the special use permit shall be maintained in good condition with no deflated tires and shall be licensed if required by law.
17. Any structures constructed, installed, or used related to the business allowed by this special use permit on the property shall not be considered for agricultural purposes and must secure applicable building permits.
18. The owners and operators of the business allowed by this special use permit acknowledge and agree to follow Kendall County's Right to Farm Clause.
19. The property owner and operator of the business allowed by this special use permit shall follow all applicable Federal, State, and Local laws related to the operation of this type of business.
20. Failure to comply with one or more of the above conditions or restrictions could result in the amendment or revocation of the special use permit.
21. If one or more of the above conditions is declared invalid by a court of competent jurisdiction, the remaining conditions shall remain valid.
22. This special use permit shall be treated as a covenant running with the land and are binding on the successors, heirs, and assigns as to the same special use conducted on the property.

Chairman Wormley asked which conditions, besides the condition classifying vehicles and equipment as non-agricultural, did the Petitioner have objections. Mr. Asselmeier responded that the Petitioner opposed the request by the Health Department to measure wind direction and speed daily, the Illinois Department of Natural Resources requirements related to the Rusty Patch Bumble Bee, and Yorkville's odor measurement and compliance requirements.

Chairman Wormley felt that odor control measures should be implemented. He felt that using an olfactometer would be difficult. He was in favor of removing the non-agricultural vehicle classification requirement. He was in favor of having the wind speed and direction monitoring requirement.

Mr. Rybski recommended paying attention to odor. The most common complaint was odor complaints after further development occurred in the area. He said the easiest way to control odor was to monitor wind speed and direction and behave accordingly.

Chairman Wormley explained the impact of the closure of the facility.

Ms. Olson asked if the monitoring of wind speed and direction occurred at the subject facility. Mr. Rybski responded that wind speed and direction were monitored at the subject property. Mr. Rybski noted that wind speeds and direction can change quickly so monitoring alone would not solve all of the problems.

Marlin Hartman, Kendall County Solid Waste Coordinator, provided a history of the property. He said amendments could be added to the materials. These amendments cost money; monitoring the wind did not cost money. He noted that complaints related to odors stopped when the operators tracked the wind and avoided turning windrows when the wind was blowing towards Yorkville; there has not been an odor complaint in the last three (3) years. He said that if the facility was

operating, there probably would be dust complaints. He would like to see the conditions related to water truck and wind tracking be included in the special use permit.

Mr. Klaas noted that the only place in the County identified as area occupied by the Rusty Patch Bumble Bee was the southern approach of the new Eldamain Road bridge. He was skeptical about the location of the Rusty Patch Bumble Bee.

Mr. Klaas noted the quality of the Rob Roy Creek south of the subject property. He asked about runoff and questioned the size of the detention pond. He felt the detention pond was too small. He asked about the definition and amount of food scrap. Mr. Asselmeier provided WBK's comments and runoff items should be addressed in the stormwater management permit. Karen Milroy described food scraps that would be accepted; items that would normally be composted by residents.

Ms. Milroy explained that composting is a science and wind considerations is not the factor to consider when addressing odors. Chairman Wormley asked for suggestions for managing odors. Ms. Milroy explained the activities of previous operators. She expressed concerns about not being able to turn the windrows, if winds were blowing from the wrong direction.

Mr. Hartman discussed food waste in landfills. He favors allowing the Petitioner to receive food waste. The site is allowed to accept ten percent (10%) food waste per their permit from the Illinois Environmental Protection Agency. He discussed the importance of mixing the materials to avoid getting bugs and rodents. He emphasized the importance of watching the wind. Knowing the direction of wind also helps the Petitioner in cases of unfounded odors. He discussed the addition of amendments to the composting materials at times when winds were blowing towards populated areas; there was a cost to adding odor amendments.

Food scraps were collected from grocery stores or restaurants. Discussion occurred regarding quality control for food scraps and contamination of materials. Deliveries must be inspected.

Mr. Rybski made a motion, seconded by Mr. Klaas, to recommend approval of the proposal with the conditions proposed by Staff with the amendment requiring the operator of the business to track wind direction and speed daily and add amendments to the composting materials if windrows are turned with winds blowing in unfavorable directions and remove the requirement relate to the classification of equipment as non-agricultural.

Ms. Olson asked about inclusion of the comments from WBK Engineering. Mr. Asselmeier responded that a condition existed related to complying with applicable regulations and the stormwater permit would be an applicable regulation. He also discussed complying with the site plan on file with the State and the Petitioner's permit with the Illinois Environmental Protection Agency.

Mr. Klaas favored the Petitioner tracking wind conditions.

Jeff Milroy, Petitioner, discussed existing regulations related to wind. Wind directions have to be considered when turning windrows. He also discussed the impact of adding amendments to the materials.

The votes were follows:

- Ayes (6): Asselmeier, Briganti, Klaas, Olson, Rybski, and Wormley
- Nays (0): None
- Abstain (0): None
- Absent (4): Chismark, Guritz, Holdiman, and Langston

The motion passed.

The proposal goes to the Kendall County Regional Planning Commission on August 23, 2023.

COMMUNITY VISIONING WORKSHOPS:

143rd St Corridor & Downtown

Join Us!

Attend the **Community Visioning Workshops** to share your vision for Plainfield. The upcoming workshops focus on two areas of the Village:

About the Plan

The Village of Plainfield is currently updating its Comprehensive Plan – a blueprint for Plainfield’s future!

The Plan will provide recommendations to direct growth, investment, and development in the Village. Ultimately, the Plan will answer: “What should Plainfield look like in the next 15-20 years, and how do we get there?”
