ZONING APPLICATION FEES

MAP AMENDMENTS

Any amount of acreage \$500.00

SPECIAL USE PERMITS, PLANNED UNIT DEVELOPMENTS/ RESIDENTIAL PLANNED DEVELOPMENTS AND MAJOR AMENDMENTS TO SPECIAL USES

The following fees include a processing fee, a fee for recording the special use in the recorder's office for 10 pages and a cost for the Zoning Board of Appeals at a rate of \$350.00 shall be imposed on ALL Special Uses

| | |
|----------------------------|-----------------------------------------------------|
| All acreage zoned as A-1 | \$1,155 |
| All Other Zoning Districts | |
| 0.0-5.00 acres | \$1,155 |
| 5.01-10.00 acres | \$1,905 |
| 10.01-50.00 acres | \$2,255 + \$50/acre or part thereof over 10 acres |
| 50.01-100.00 acres | \$4,755 + \$35/acre or part thereof over 50 acres |
| 100.01-500.00 acres | \$6,505 + \$20/acre or part thereof over 100 acres |
| 500.01+ | \$14,505 + \$15/acre or part thereof over 500 acres |

MINOR AMENDMENT TO SPECIAL USE *(includes a processing fee and a fee for recording the minor amendment to the special use in the recorder's office)*

Any amount of acreage \$150.00

VARIANCE *(includes a processing fee and a fee for recording the variance in the recorder's office)*

As part of Special Use \$100
Not part of Special Use \$475 for first Variance Request of petition and \$50 for each additional request to be included in the same petition

ADMINISTRATIVE VARIANCE *(includes a processing fee and a fee for recording the minor amendment to the special use in the recorder's office)*

Any amount of acreage \$150.00

PRELIMINARY PLAT

Residential \$1,000.00 + \$50.00/acre or part of an acre
Other \$1,000.00 + \$100.00/acre or part of an acre

FINAL PLAT

All Final Plats \$50.00/acre or part of an acre (\$500.00 minimum)

| | |
|-----------------------------------------|----------------------------------------------------|
| OTHER PLAT (Vacation, Dedication, etc.) | |
| All Other Plat Actions | \$50.00/acre or part of an acre (\$500.00 minimum) |
| ADMINISTRATIVE APPEAL | \$1,000.00 ¹ |
| TEXT AMENDMENT | \$500.00 |
| SITE PLAN REVIEW | \$375.00 |
| CONDITIONAL USE | \$100.00 |
| TEMPORARY USES | \$100.00 |

No waiver and no refund shall be made for any fee paid pursuant to this Ordinance without the approval of the Planning Building and Zoning Committee of the County Board

All fees for actions or activities by Kendall County or the Kendall County Forest Preserve District are hereby waived and all fees for non-profit organizations shall be charged half of the normal fees for zoning petitions; provided they show proof of non-profit status and that the permit be used only by the organizations itself*

¹In the event that ruling by the Zoning Board of Appeals favors the appealing party, the submitted fee for an administrative appeal shall be refunded to the applicant.

The deposit fee for renting the 2012 National Rifle Association Range Source Book can be found in Section 26-1(c) of the Kendall County Code.

ZONING FEES ESTABLISHED BY KENDALL COUNTY ORDINANCE EFFECTIVE 12/17/2019

DEPARTMENT OF PLANNING, BUILDING & ZONING

111 West Fox Street • Yorkville, IL • 60560
(630) 553-4141 Fax (630) 553-4179

RESIDENTIAL PLANNED DEVELOPMENT

Step 1

A.) Pre-Application Conference: A pre-application conference is strongly encouraged between the applicant, the site designer(s), and the Director of Planning, Building and Zoning or his designated representative. At this stage the applicant should supply the Director with a copy of an existing features plan for review and comment. The purpose of the meeting shall be:

- 1) To introduce the applicant and the site designer(s) to the County's zoning and subdivision regulations and procedures
- 2) To discuss the applicant's objectives in relation to the County's official policies and ordinance requirements.
- 3) To identify early on using, the four step process, the specific issues that will need to be addressed in designing the site.

Existing Features Plan should include, at a minimum, the following:

- _____ a. A contour map based at a minimum of 2 foot contours upon topographical maps published by the U.S. Geological Survey
 - _____ b. The location of severely constraining elements such as steep slopes (over 25%), wetlands, watercourses, intermittent streams and 100-year floodplains, and all rights-of-way and easements
 - _____ c. Soil classification boundaries as derived through a Soils Survey (Based on 200-foot grid)
 - _____ d. The location of significant features such as woodlands, treelines, open fields or meadows, scenic views into or out from the property, watershed divides and drainage ways, fences or stone walls, rock outcrops, and existing structures, roads, tracks and trails and any sites listed on the Critical Trends Assessment Program of the Illinois Department of Natural Resources.
 - _____ e. A drain tile study
- The Existing Features Plan shall identify both Primary Conservation Areas and Secondary Conservation Areas. Together, these Primary and Secondary Conservation Areas comprise the development's proposed open space, the location of which shall be consistent with the Planning Goals and Objectives for Natural Resources of the Land Resource Management Plan.

B.) On-Site Inspection: After the Existing Features (Site Analysis) Plan has been prepared, the Director of Planning, Building and Zoning or his designated representative shall, if possible, schedule a mutually convenient date to walk the property with the applicant and his/her site designer. The purpose:

- 1) To familiarize County officials with the property's special features
 - 2) To provide them an informal opportunity to offer guidance to the applicant regarding the tentative location of the Secondary Conservation Areas and potential house locations and street alignments.
- Separate on-site inspections are encouraged if a convenient date cannot be established for a group visit.

- If this visit is not scheduled before submission of the sketch plan or the Concept Plan, it should occur soon thereafter.

C.) Concept Plan: 4-Step Process

The Concept plan should be developed in accordance with the “four step” process as outlined in Section 4 “*Conservation Subdivision Design – A Four Step Process*” contained within the handout “*Growing Greener - Conservation by Design*”. The purpose of the document is to identify the location and acreage of the various site constraints and features and should demonstrate how the proposed development has been designed to maximize and protect the sensitive or unique features of the site. The document should consist of four pages each demonstrating one of the steps in the four step process with the “Existing Features Plan” comprising the first page and the “Concept Plan” being the fourth and final sheet. The information presented on each sheet should be superimposed over an aerial photograph of the property that shows the location of the project with respect to existing or planned developments in the surrounding area. In developing the plan, the following items will need to be addressed:

- _____ 1. Designation of open space
 - A minimum of thirty percent (30%) of the total acreage of the development shall be used for open space. The open space areas shall include the following:
 - i. all non-buildable acreage (except land within an existing road right-of-way), and
 - ii. a minimum of twenty-five percent (25%) of the buildable acreage
 - iii. at least twenty-five percent (25%) but no more than fifty percent (50%) of the minimum required open space shall be suitable for active recreation purposes (refer to *Calculation of Buildable Acreage Worksheet* if assistance is needed)
 - All potential conservation areas (primary and secondary) must be identified.
 - i. **Primary Conservation Areas:** wetlands, floodplains, slopes over 25%, and soils susceptible to slumping
 - ii. **Secondary Conservation Areas:** noteworthy or significant features of the natural or cultural landscape – such as mature woodlands, wildlife habitats and travel corridors, prime farmland, groundwater recharge areas, greenways and trails, river and stream corridors, historic sites and buildings, and scenic viewsheds
 - iii. Guidance on which parts of the remaining land to classify as Secondary Conservation Areas shall be based upon:
 - The procedures described in *Conservation Design for Subdivisions: A Practical Guide to Creating Open Space Networks*, produced by Natural Lands Trust and published by Island Press,
 - On-site visits or inspections,
 - The open space location criteria contained in Sections 36-371 and 36-372 of the Kendall County Code
 - The evaluation criteria listed in Section 36-373 of the Kendall County Code, and
 - Information from published data and reports.
- _____ 2. Location of house sites: Applicant must identify tentative house sites on Concept Plan. House sites must abide by the following guidelines.
 - i. House sites should generally be located not closer than 100 feet from Primary Conservation Areas
 - ii. House sites may be situated within 50 feet of Secondary Conservation Areas
 - iii. Building “footprint” of proposed residences may be changed by more than 50 feet in any direction with majority approval from the members of the Kendall County Board. Changes less than fifty feet do not require

- approval
- _____ 3. Street and Lot Layout: Applicant must align proposed streets to provide vehicular access to each house in the most reasonable and economical way in compliance with the following:
- i. Access streets and lots must be located in a way that avoids or at least minimizes adverse impacts on both the Primary and Secondary Conservation Areas
 - ii. Wetland crossings and streets traversing existing slopes over 15% shall be strongly discouraged
 - iii. Street connections are encouraged to minimize the number of new cul-de-sacs to be maintained by the County or Township
 - iv. Street connections are encouraged to facilitate easy access to and from homes in different parts of the property (and on adjoining parcels)
 - v. Cul-de-sacs serving more than six homes shall generally be designed with a central island containing indigenous trees and shrubs (either conserved on site or planted)

- _____ 4. Lot Lines:
- i. Lot lines are drawn midway between house locations

- Kendall County encourages the creation of single-loaded residential access streets, in order that the maximum number of homes in new developments may enjoy views of open space
- In situations where more formal, “neo-traditional,” or village-type layouts are proposed, Parts (b) and (c) may be reversed, so that the location of house sites follows the location of streets and squares.

The Concept Plan should include, at a minimum, the following:

- _____ a. A site plan of the Planned Development. This plan will be at a scale of not less than one inch equals one hundred (100) feet which should show the following:
 - i. All proposed streets (public and private)
 - ii. Rights-Of-Way
 - iii. Preliminary lot locations and sizes
 - iv. Open space areas
 - v. Other info per planned development
- _____ b. A topographic survey with two foot contour intervals.
- _____ c. A preliminary tree removal and preservation plan (including survey of all trees indicating species & diameter and demonstrating that not less than 70% of the significant trees will be preserved)
- _____ d. A rendered plan of the Planned Development area showing in contrasting colors or by other means the respective location of all categories of land use.
- _____ e. A map of the general area showing the location of the Planned Development site and its relation to the existing and proposed trails, roads, and streets and use districts within one half mile of the site.
- _____ f. Preliminary specifications of the following:
 - i. Sequence of phases or stages of development of the Planned Development if applicable. Common open space areas should generally be provided in each phase consistent with the phasing of dwelling units.
 - ii. A general landscape planting plan prepared by a landscape architect, which meets approval of the Plan Commission.
 - General plan for Parkway Tree plantings.
 - Areas of existing trees to be preserved
 - Areas for screening or fencing being proposed.
 - Buffers of at least 50 feet around the wetlands and along major collector roads.
 - Buffers of 100 feet along existing streams and waterbodies

- Trees along the perimeter of proposed stormwater management areas
 - Location of all areas to be planted with native or specialized plantings.
- _____ g. Name of Developer/owner
- _____ h. Name of Designer/Surveyor
- _____ i. Date of drawing
- _____ j. Present zoning and proposed classification on property
- _____ k. Current Zoning of adjacent property
- _____ l. Adjacent property owner's name
- _____ m. The following should be provided by either graphic exhibits or written statement:
- i. The buildable density of residential uses and the number of dwelling units by type.
 - ii. The ancillary and non-residential uses to be proved in a RPD.
 - iii. The calculation of buildable acreage, the estimated percent and acreage of land used for each of Primary and Secondary Conservation proposed, and the projected type and acreage of passive and recreational open space (refer to *Calculation of Buildable Acreage Worksheet*).
 - iv. Explanation of density credits being claimed
 - v. Lot size (Minimum, Maximum, Average)
- Concept Plan should be submitted by the applicant to the Director of Planning, Building and Zoning, the applicable Township, and any municipality within 1 ½ miles of the proposed development, for their review and comment.

D.) Application for Zoning and Concept Plan Approval

Once the four step plan has been developed, the petitioner may apply for zoning and concept plan approval. Application shall be made using the RPD Zoning Application Form as prepared and supplied by the Kendall County Planning Building and Zoning Department included in this packet. The application must include all of the following materials before it can be scheduled for review.

- _____ Completed Application Form.
- _____ Application Fee.
- _____ Engineering Consultant Deposit
- _____ Legal description of property involved.
- _____ Proof Ownership (Deed or Title Insurance Policy).
- _____ A beneficiary disclosure statement for property, if held in trust.
- _____ Natural Resource Inventory (NRI) Report
- _____ Proof of Application of Endangered Species Consultation for property zoned A-1.
- _____ Wetland Delineation Report
- _____ Existing Drain Tile Survey
- _____ **3** initial copies of the Plat of Survey and Four Step Plan for the property involved showing the following including all details as listed above. (more copies of the Plat of Survey and Site Plans will be required for subsequent meetings.) If submitting copies of 11"x17" or smaller, a 24"x36" copy is requested for display purposes.
- _____ Proof of notification to municipalities, townships, school district, park district, and Fire Protection District. (NOTE: A written response from the Township and /or municipality is required prior to scheduling meetings in front of the Regional Planning Commission, or 30 days elapsed time from the date of notification.
- _____ Zoning map(s) involving the property. (*Can be obtained from the County GIS Department.*)
- _____ Aerial Photo(s) of property. (*Can be obtained from the County GIS Department.*)

Once the submittal packet is reviewed and has been found to be complete, the application will be scheduled for review at the next available meeting of the Zoning and Platting Advisory Committee.

E.) ZPAC

The Zoning and Platting Advisory Committee is held for the purpose of inviting the various County departments and impacted outside agencies to review and comment on a petition. A copy of the petition (including the staff report and attachments) is sent the week before the meeting to departments such as: Health and Human Services, County Highway, County engineering consultant, the Soil and Water Conservation District, Forest Preserve, and the Sheriff. The petitioner and Township supervisors will also receive a copy.

The petitioner (or a designated representative) should plan to attend the meeting. A staff member of the Planning, Building and Zoning Department will present the staff report. The petitioner will then be asked to speak about their petition in addition to answering questions raised by ZPAC. If all issues and concerns are met satisfactorily, staff will indicate that the petition will move forward in the process, to the next KCRPC meeting. However, if issues are not adequately addressed, the petition will be continued to the next ZPAC meeting or tabled until additional information is provided. In those situations, **the County may then designate a consultant experienced in development design and in the protection of natural features and greenway lands to meet with the applicant and to attend or conduct meetings required under this ordinance.**

F.) KCRPC

The role of the Regional Planning Commission is to hold meetings on issues pertaining to county planning. Such issues include review of zoning amendments, new subdivision plats to ensure conformance with subdivision regulations, and aspects relating to conformance with the County's Land Resource Management Plan. The Commission is comprised of 10 appointed members who each represent one of the townships in the County, plus there is one "at large" member. Approximately one week before the meeting all KCRPC members receive a copy of the petition to review and prepare for the meeting. The petitioner also receives a copy. (The petition includes ZPAC comments.)

It is the policy of the KCRPC to hear petitions that have been heard by the township and/or municipal planning commissions and boards having mile and a half review authority. If the Planning, Building and Zoning Department has not received information from the township and/or municipality regarding the petition, the petition will **NOT** be placed on the KCRPC agenda.

The petitioner (or a designated representative) must attend the Kendall County Regional Planning Commission meeting. First a staff member of the Planning, Building and Zoning Department will present the staff report. Then the petitioner will be asked to speak about their petition and answer questions raised by the KCRPC. Persons present who wish to speak on the petition may also have an opportunity to voice support or opposition, at the discretion of the KCRPC Chair. After discussing all issues and concerns, the KCRPC will vote to recommend approval or denial of the petition and move it forward to the next PBZ Committee meeting. If the Regional Planning Commission believes more information is needed or that all issues have not been adequately addressed, they may move to continue the petition to the next KCRPC meeting or table it until additional information is provided.

The following must be submitted at least one week prior to KCRPC:

- a. Completed Endangered Species Report
- b. Letter of notification example.
- c. Proof of publication 15 to 30 days before the public hearing.
- d. Proof of notification to recipients (i.e. return receipts). **ITEMS B & C MUST BE SUBMITTED TO PBZ DEPT. BY DEADLINE SPECIFIED ON HEARING TIMETABLE.**
- e. List of notice recipients.(500' in Ag. Districts. Adjoining properties on all other districts)
PROOF OF BOTH NOTIFICATION AND PUBLICATION MUST BE SUBMITTED TO

THE PLANNING, BUILDING AND ZONING DEPARTMENT BEFORE THE PETITION
WILL MOVE FORWARD TO KCRPC

G.) PBZ

The Planning, Building and Zoning Committee is comprised of five members of the elected County Board. Their primary function is to hear petitions before they approach the entire County Board and to make recommendations to the County Board. This Committee is intended to help expedite the work of the County Board by giving petitioners and other interested parties a final opportunity to be heard. The PBZ also performs other functions such as reviewing the Planning, Building and Zoning Department functions. Approximately one week before the meeting all PBZ members receive a copy of the petition to review and prepare for the meeting. The petitioner also receives a copy. (The petition includes ZPAC and KCRPC comments and minutes.)

Similar to the previous meetings, the petitioner (or a designated representative) must attend the PBZ meeting. First, a staff member of the Planning, Building and Zoning Department will present the staff report. Then, the petitioner will be asked to speak about their petition and answer questions raised by the PBZ. At the discretion of the PBZ Chair, persons present who wish to speak on the petition have an opportunity to voice support or opposition once the petitioner has spoken. After hearing and discussing all issues and concerns, the Planning, Building and Zoning Committee will vote to recommend that the applicant move on to the preliminary plat stage or, if there are items they believe remain to be resolved prior to preparation of the preliminary plat may refer the matter to the Concept Review Committee for additional input. After further review by the Concept review Committee, the matter will be referred back to PBZ for review along with the recommendations received for recommendation on proceeding to preliminary the plat stage.

Step 2

Preliminary Plat

Once the applicant obtains PBZ approval to proceed to the preliminary platting, the petitioner will need to submit an application for Preliminary Plat approval using the forms supplied and prepared by the Kendall County Planning Building and Zoning Department included in this packet. A separate application for preliminary plat review provided by the Health Department must also be submitted to the Health Department. The application must include all of the materials listed on the enclosed Preliminary Plat Checklist before it can be scheduled for review. The Preliminary Plat application should be submitted by the applicant to the Director of Planning, Building and Zoning, the applicable Township Plan Commission, and any municipality within 1 ½ miles of the proposed development, for their review and comment.

Once the submittal packet is reviewed and has been found to be complete, the application will be scheduled for review by the **ZPAC**, **KCRPC** and **PBZ** Committee and will follow the same review process a outlined above for the Concept Plan. It should be noted that the application will not be forwarded to PBZ for recommendation until the preliminary engineering plan has been reviewed and recommended for approval by all required departments, consultants and agencies.

Once the matter has been reviewed and recommended for approval by the PBZ Committee the petitioner will be directed to proceed to the final Plat stage.

Step 3

Final Plat

Once the applicant obtains PBZ approval to proceed to the final platting, the petitioner will need to submit an application for Final Plat approval using the forms supplied and prepared by the Kendall County Planning Building and Zoning Department included in this packet. The application must include all of the materials listed on the enclosed Final Plat Checklist before it can be scheduled for review. The Final Plat application should be submitted by the applicant to the Director of Planning, Building and Zoning, the applicable Township, and any municipality within 1 ½ miles of the proposed development, for their review and comment.

Also, a Final Engineering Plan should be forwarded to the County's Engineering consultant, the Highway Department, and the Department of Environmental Health. A septic overlay plan should also be forwarded to the Department of Environmental Health. The Final Landscape Plan should be forwarded to the Forest Preserve District.

Once the submittal packet is reviewed and has been found to be complete, the submitted documents will be reviewed and commented on by the various agencies. The petition will not be placed before the KCRPC for review, comment, or recommendation until the technical issues identified by the various agencies have been resolved and cleared to proceed. As well, the associated development agreement must be approved as to form content by PBZ Staff and the Kendall County State's Attorney. Once completed, the application will be scheduled for review by **KCRPC** and will follow the same review process a outlined above for the Concept Plan.

The following items must be submitted at least one week prior to KCRPC:

- a. Letter of notification example.
- b. Proof of publication 15 to 30 days before the public hearing.
- c. Proof of notification to recipients (i.e. return receipts). **ITEMS B & C MUST BE SUBMITTED TO PBZ DEPT. BY DEADLINE SPECIFIED ON HEARING TIMETABLE.**
- d. List of notice recipients.(500' in Ag. Districts. Adjoining properties on all other districts)

PROOF OF BOTH NOTIFICATION AND PUBLICATION MUST BE SUBMITTED TO THE PLANNING, BUILDING AND ZONING DEPARTMENT BEFORE THE PETITION WILL MOVE FORWARD TO KCRPC

Following review and recommendation by the KCRPC, the matter will be forwarded to the Zoning Board of Appeals (ZBA) for formal public hearing on the requested zoning classification.

ZBA

The Zoning Board of Appeals conducts a public hearing to hear and record testimony supporting and/or opposing the zoning map amendment request and votes on a recommendation to the County Board. Also at this time, the ZBA will hear and act on any requests involving zoning variances. If any Special Uses are requested they will be heard by the ZBA at this time. The County Board Chair appoints all seven ZBA members. The ZBA strives to make recommendations that will benefit the entire county, based on facts presented at the hearing and how the request will comply with the given standards. The ZBA, in its recommendations, attempts to implement the procedures set forth in the Kendall County Code and policies of the Kendall County Land Resource Management Plan. Approximately one week before the meeting all ZBA members receive a copy of the petition to review and prepare for the meeting. The petitioner also receives a copy. (The petition includes KCRPC comments.)

The petitioner (or a designated representative) must attend the Zoning Board of Appeals meeting. A staff member of the Planning, Building and Zoning Department will present the staff report. Then the petitioner will be sworn in and asked to speak about their petition and answer questions

raised by ZBA members. Persons present who wish to speak on the petition will be sworn in and have an opportunity to voice support or opposition once the petitioner has spoken.

Persons wishing to speak:

1. You will stand and be sworn in by the Chair.
2. Before you begin your testimony, please sign the provided attendance sheet and also state your name and address for the record.
3. Speak loudly and clearly because testimony is being recorded. Address your comments and questions to the Chair.
4. Be brief and concise. Avoid repeating yourself and what others have said before you, although you may voice your support on what has already been said.
5. The Chair has the right to impose a time limit on testimony (approximately five minutes).
6. You may submit written testimony to the Kendall County Planning, Building and Zoning Department one week prior to the hearing date. It will then be read during the meeting. All documents submitted at the hearing become County property and are included in the public record as exhibits.
7. Testimony should include facts and specific reasons, not just opinions. Examples of acceptable testimony include the following:
 - Compliance with County's Land Resource Management Plan
 - Zoning in comparison to nearby properties
 - Effect on taxable value of nearby property
 - Effect on quality of life in neighborhood
 - County need for proposed development
 - Impact on community tax base and economy
 - Impact on City/School District/Park District services
 - Environmental impact
 - Property cannot be economically used without zoning change
 - Public safety, health, and welfare
 - Adequate open space

Provide specific, well-documented information to substantiate testimony. (For example, regarding "effect on taxable value of nearby property" provide examples of similar development and actual property value changes caused by rezoning, or expert testimony from appraiser as to property value changes in similar circumstances.)

After hearing and discussing all issues and concerns, the ZBA will vote to recommend approval or denial of the application and move it forward to the next available PBZ meeting. If the Zoning Board of Appeals believes more information is needed or that all issues have not been adequately addressed, they may move to continue the petition to the next ZBA meeting or table it until additional information is provided.

The following items must be submitted at least one week prior to the Zoning Board of Appeals Hearing:

- a. Letter of notification example.
- b. Proof of publication 15 to 30 days before the public hearing.
- c. Proof of notification to recipients (i.e. return receipts). **ITEMS B & C MUST BE SUBMITTED TO PBZ DEPT. BY DEADLINE SPECIFIED ON HEARING TIMETABLE.**
- d. List of notice recipients (500' in Ag. Districts. Adjoining properties on all other districts)

PROOF OF BOTH NOTIFICATION AND PUBLICATION MUST BE SUBMITTED TO THE PLANNING, BUILDING AND ZONING DEPARTMENT BEFORE THE PETITION WILL MOVE FORWARD TO THE ZONING BOARD OF APPEALS.

PBZ

The week before the meeting all PBZ members receive a copy of the petition to review and prepare for the meeting. The petitioner also receives a copy. (The petition includes ZPAC, KCRPC, and ZBA comments.) **Review and approval of final engineering and all supporting documents, covenants and agreements and plans related to the final plat must be received from all reviewing departments and agencies before scheduling the final plat for action by the PBZ Committee.**

Similar to the previous meetings, the petitioner (or a designated representative) must attend the PBZ meeting. First, a staff member of the Planning, Building and Zoning Department will present the staff report. Then the petitioner will be asked to speak about their petition and answer questions raised by the PBZ. Persons present who wish to speak on the petition have an opportunity to voice support or opposition once the petitioner has spoken. At this time the Committee will recommend on any Stormwater or Subdivision Variances. After hearing and discussing all issues and concerns, the Planning, Building and Zoning Committee will vote to recommend approval or denial of the petition and move it forward to the next County Board meeting. If the PBZ believes more information is needed or that all issues have not been adequately addressed, they may vote to continue the petition to the next PBZ meeting or table it until additional information is provided.

County Board

The County Board is comprised of ten elected officials, who represent the citizens of Kendall County. These members represent all the County Board Districts; the Board appoints one of these members as the Chair. This body makes the final decision to grant approval or denial of a petition for a Rezoning and Special Use Permit. The PB&Z may instruct you whether or not you need to attend this meeting.

The Chair of the PB&Z presents the ordinance and attachments to the County Board. The Director of Planning, Building, and Zoning is present to answer any questions the County Board may have. The County Board then holds a final vote to approve or deny the petition. If approved, the Board will adopt the various ordinances zoning the property and approving the Concept Plan, Preliminary and Final Plats.

PUBLIC NOTICE
KENDALL COUNTY
****KENDALL COUNTY REGIONAL PLANNING COMMISSION****

Notice is hereby given that the Kendall County Regional Planning Commission will hold a public meeting on _____ at 7:00 p.m. at the Kendall County Office Building, Room 209 & 210 at 111 West Fox Street, Yorkville, IL.
(Day, Date, Year)

The purpose of this meeting is to consider comments and make a determination regarding Petition # _____ is/are seeking to
(Application #) (Name(s) of Applicant)

(Description of request.)

The property is located at _____, and
(Address or physical location.)

is legally described in Exhibit "A" attached. **(ATTACH LEGAL DESCRIPTION ON SEPARATE PAGE)** Petition # _____ and related documents may be reviewed at the Planning, Building and Zoning Department, Room 203, 111 West Fox Street, Yorkville, IL 60560. Questions can be directed to the same Department. Telephone (630) 553-4141. Fax (630) 553-4179. All interested persons may attend and be heard. Written comments should be directed to the Department but shall only be entered as part of the record at the discretion of the Kendall County Regional Planning Commission.

Name(s) of Applicant _____

PUBLIC NOTICE
KENDALL COUNTY
****ZONING BOARD OF APPEALS****

Notice is hereby given that Zoning Board of Appeals will hold a public hearing on

_____ at 7:00 p.m. at the Kendall County Office Building,
(Day, Date, Year)

Room 209 & 210 at 111 West Fox Street, Yorkville, IL. The purpose of this

hearing is to consider testimony and make a determination regarding

Petition # _____ is/are
(Application #) (Name(s) of Applicant)

seeking a variance from Section _____ of the Kendall County Code
(Section #)

to _____
(Description of request.)

The property is located at _____, and is legally
(Address or physical location.)

described in Exhibit "A" attached. **(ATTACH LEGAL DESCRIPTION ON**

SEPARATE PAGE) Petition # _____ and related documents may be
(Application #)

reviewed at the Planning, Building and Zoning Department, Room 203, 111

West Fox Street, Yorkville, IL 60560. Questions can be directed to the same

Department. Telephone (630) 553-4141. Fax (630) 553-4179. All interested

persons may attend and be heard. Written testimony should be directed to the

Department but shall only be entered as part of the record at the discretion of the

Kendall County Zoning Board of Appeals.

Name(s) of Applicant

Welcome to **EcoCAT** - the **Ecological Compliance Assessment Tool**

IMPORTANT INFORMATION FOR FIRST TIME USERS

- Your screen resolution must be set at **1024 x 768** or higher, and your browser window must be maximized. If not, you will not be able to use the MapTool.
- EcoCAT data entry must be completed within 20 minutes. If not, the information you have entered will be lost.
- You must complete all questions that are marked with an asterisk.
- To enter your project, you must have the County, Township, Range, and Section of its proposed location.
- EcoCAT generates a public record that is subject to disclosure under the Freedom of Information Act.
- If bookmarking this site, please bookmark THIS page, using this url: <https://dnr.illinois.gov/programs/ecocat.html>
- If you have questions or comments, send an e-mail to DNR.EcoCAT@illinois.gov

EcoCAT was developed to help state agencies, units of local government, and the public (as project proponents) initiate natural resource reviews for:

- [Illinois Endangered Species Protection Act](#) [520 ILCS 10/11(b)] and [Illinois Natural Areas Preservation Act](#) [525 ILCS 30/17] as set forth in procedures under [Title 17 Ill. Admin. Code Part 1075](#).
- [Interagency Wetland Policy Act of 1989](#) [20 ILCS 830] as set forth in procedures under [Title 17 Ill. Admin. Code Part 1090](#) when state agencies provide funding (including federal pass-through funding) or technical assistance.

These laws require state agencies and units of local governments to consider the potential adverse effects of proposed actions on Illinois endangered and threatened species and sites listed on the Illinois Natural Areas Inventory.

EcoCAT can also accept Information Requests for natural resource reviews that do not trigger government consultation. An information request **DOES NOT** fulfill the requirements of Part 1075 or 1090.

How EcoCAT Works

EcoCAT uses databases, Geographic Information System mapping, and a set of programmed decision rules to determine if your proposed action may be in the vicinity of protected natural resources. You receive a natural resource review report that either:

- Terminates consultation if no resources are in the vicinity; or
- Lists resources that may be in the vicinity and identifies the staff member who will review the action. After review, staff will either:
 - Terminate consultation because adverse effects are unlikely,
 - Request additional information, or
 - Recommend methods to minimize potential adverse effects.

A species may appear on the resource list more than once when it occurs in several locations within the project's vicinity. Also, many INAI Sites are Nature Preserves, Land and Water

Reserves, or Natural Heritage Landmarks. The sites may overlap, but the legal protections of each designation differ. Apart from Natural Areas, the boundaries of the other designations are based on property ownership and may extend beyond the location of the natural resources.

Keep in mind that “in the vicinity” does not necessarily mean “in the footprint” or that a resource will be adversely affected by the action. However, the potential is there and will be evaluated further. By the same token, because the resource buffers are very general, IDNR may evaluate resources located farther away if the proposed action or the life history requirements of a species warrant doing so.

The actual distribution of endangered and threatened species can never be known with certainty. Because some species are migratory, require very large territories, or are highly mobile, a natural resource review showing no protected resources does not guarantee that no T & E species are in the vicinity of a project. An EcoCAT review reflects the information existing in the Database at the time of this inquiry, and should not be regarded as a final statement on the site being considered, nor should it be a substitute for detailed site surveys or field surveys required for environmental assessments. If any protected resources are encountered during a project’s implementation, compliance with applicable statutes and regulations is required.

How to Use EcoCAT

Information that must be completed in EcoCAT is indicated with a red asterisk (*).

EcoCAT first asks a series of **General Information** questions. How you answer the questions ensures that your project receives the appropriate environmental review and is assigned to the correct staff member. If you do not answer all of the questions, the program will not allow you to proceed to the mapping tool. The questions, with explanations, are provided below.

Q1. Why are you submitting the project to EcoCAT?

- To initiate consultation with IDNR (*Title 17 Ill. Admin. Code Part 1075*) to determine potential impacts to Illinois Natural Area Inventory sites or state-listed threatened or endangered species.
- To obtain information on Illinois T&E species or INAI sites for **project planning**.
- To obtain information on Illinois T&E species or INAI sites for **federal agency** actions (including NEPA compliance).

If you select the 1st option you are fulfilling the consultation requirements of the Illinois Endangered Species Protection Act and the Illinois Natural Areas Preservation Act.

If you select the 2nd option, you are only requesting information, not consultation. The submittal is considered an ‘information request.’ The EcoCAT report will state whether or not state-protected resources may be in the vicinity and will list any that are. The project will not be assigned for review.

The 3rd option should only be selected by federal agencies that are required to seek comments from state fish & wildlife agencies before authorizing, funding, or performing a federal action. EcoCAT processes most of these submittals as information requests, not as consultations. Only submittals for FERC and USED A will be assigned to staff if resources are flagged.

If you select the 2nd or 3rd option, you will skip questions 2 and 3 on the General Information page and proceed directly to the Applicant Information page.

Q2. Indicate the government unit and type of action that has prompted consultation.

- **LOCAL GOVERNMENT**
 - Authorization (a unit of local government must issue a permit or other authorization)
 - Funding (a unit of local government will provide a grant, loan, or other direct support)
 - Performance (a unit of local government is performing the action, such as construction)
- **STATE AGENCY**
 - Authorization (a state agency must issue a permit or other authorization)
 - Funding (a state agency will provide a grant, loan, or other direct support)
 - Performance (a state agency is performing the action, such as construction)

Only one jurisdictional agency or government can be selected, even though multiple units of government may be involved. Note that consultation with IDNR is **NOT** an authorization. Select "IDNR" **ONLY** if IDNR is the agency issuing a permit, providing funding, or performing the proposed action.

If you choose **Local Government** you will be asked to identify the government, e.g. the City of Champaign, and to enter a local government contact name, address and phone number. There is also a box to check if the local government is a county highway or local roads department.

If you select **State Agency**, there will be a drop-down box for you to identify which agency and, if applicable, which bureau. You will also be asked to enter an agency contact name, address and phone number.

Information about the unit of government and the type of action required from that government ensures that the project receives the applicable review and is assigned to the appropriate staff.

Q3. Will state technical assistance or funding (including federal funding through a state agency) support the project?

- Yes
- No
- Don't Know

If you choose "Yes" or "Don't know," the project will be reviewed for wetland impacts to comply with the Interagency Wetland Policy Act of 1989 (IWPA). You will not receive technical assistance or funding without this review. Note: compliance with Sections 401 and 404 of the federal Clean Water Act does not assure compliance with the IWPA.

After you answer the three general information questions, you will move to the section on **Applicant Information**. First, you need to indicate the applicant category to which you belong:

- Non-governmental/Individual
- Local Government
- State Agency
- Federal Agency

The individual or organization submitting the project to EcoCAT is considered the Applicant. Required information includes applicant (your company, agency, etc.), and applicant address. Phone and fax numbers for the applicant are optional.

After you have submitted a project to EcoCAT for the first time, you can click the Lookup button to automatically fill in the applicant address. However, you must enter the applicant name exactly the same way each time. For example, if you previously entered "ABC Engineering Company", remember to enter the company name in an identical manner each time. If you enter "ABC Eng. Co." or "ABC Engineers" a new entry will be made and you will have to enter the address again.

The same is true for Contact Person. The first time you enter a project you will select:

- Add New Contact

Required information includes your name, phone number and e-mail address. Any communication from IDNR (such as requests for additional information or correspondence terminating consultation) will be directed to the Contact Person at the address listed for the Applicant or the phone number listed for the Contact Person. For subsequent submittals you can choose:

- Select Existing Contact

Click your name and the information you previously entered will automatically be entered in the form.

The section on **Project Information** asks you to provide a project name, a brief description of the project, and the project address. You can also enter a non-IDNR project number here (this number will display on the EcoCAT report along with the IDNR project number). This section also asks you to indicate if the project has been submitted to IDNR previously. If it has, you should enter that IDNR project number so staff can refer to the previous consultation.

Next is **Project Location**. First you select the County where the project will be located, then the **Section, Township, and Range** of the site – commonly referred to as "TRS". (The correct Meridian will come up automatically when you click the Meridian button.) You can find the TRS - also known as the Public Land Survey System (PLSS) information - on standard legal property descriptions, on USGS topographical maps, and in plat books.

You only need to enter one section number even if the project location lies in several sections. Once you have entered the TRS, click on "Go to Map Tool." When a map of the general location of the project appears, you can either zoom in or out to find the exact location of your project (instructions are on-screen). If the map doesn't appear or is very narrow, check your screen resolution. It must be set at 1024 x 768 or higher.

Click "Draw" to begin outlining the area of your project. If the project lies in more than one section, all the sections included in the polygon will be recorded automatically and listed on the EcoCAT report. When the project is correctly outlined, click "Submit."

EcoCAT will return a report for the project that lists any resources found in the area. If no resources are in the vicinity and you have requested consultation, the report will terminate consultation and you have completed the process. If the project was submitted for consultation and protected natural resources are identified in the area, EcoCAT will assign the project to IDNR staff for further review. In either instance, make sure you have a copy of the report. To do this, click the "Print Report" button on the left side of the screen. An Acrobat dialog box will appear from which you can print and/or save the report. If the dialog box does not open, turn off all pop-up blockers or enable popups for "dnrecocat.state.il.us".

Once you have a copy of your report, you can either click the "Exit EcoCAT" button or, if you have another project to submit, you can click the "Enter Another Project" button and start the process again without having to re-enter Applicant Information.

How do I submit a large, linear project?

A project area up to five miles (eight kilometers) can be submitted through EcoCAT. If your project is longer than five miles, you should break it up into five-mile segments and submit them as multiple projects. When you are in the mapping tool click the "zoom out" button at the top and then click the map until you are at the map scale needed to encompass the project area. Then click the EcoCAT button and draw a polygon around the project area.

How do I submit a project with multiple sites?

If the proposed action is similar at each site and the sites are within one-half mile, a single polygon can be drawn around the entire area and EcoCAT will treat it as one project. The results should not differ drastically from individually considering each site. If the proposed actions vary from site to site or if the sites are located a long distance from each other, you must submit multiple consultation requests.

Can I submit an action that requires a Clean Air Act permit?

New Source Review and Prevention of Significant Deterioration actions should still be submitted to the Department on an Agency Action Report. However, we encourage those seeking a permit for a major emission source to submit an Information Request during project planning.

What if more than one level of government or more than one agency is involved in a project?

A submission to EcoCAT can indicate only one jurisdictional Agency or Government. However, because every Agency or Government has unique powers and authorities, each unit of government which will authorize, fund, or perform a proposed action has a legal obligation to consult the Department under Part 1075. Therefore an EcoCAT submission should be made for each Agency or Local Government involved in the action when EcoCAT indicates a protected natural resource exists in the vicinity.

When multiple agencies or governments are involved, they have the option, under Part 1075, of designating one of themselves to act as the "lead agency" for purposes of consultation. Even if no "lead agency" is designated, once the Department becomes aware multiple agencies or governments are involved the Department will attempt to coordinate the resulting consultations.

If EcoCAT indicates no protected resources are known in the vicinity, a copy of the EcoCAT report may be accepted by Agencies or Governments as an indication the consultation requirement has been satisfied; however, each Agency or Government may choose to consult directly.

What is "federal agency coordination?"

Many federal agencies are required to seek the comments and opinions of state fish & wildlife agencies before authorizing, funding, or performing a federal action. EcoCAT can provide information on state-listed endangered or threatened species, wetlands, and Natural Areas. The reviews provided by the U.S. Fish and Wildlife Service are based on historic ranges of species, and are limited to federally listed T&E species.

Who has to consult under the Illinois Endangered Species Protection Act and the Illinois Natural Areas Preservation Act?

State agencies or units of local government must consult the Department about proposed actions that they will authorize, fund or perform. Private parties do not have to consult, but they are liable for prohibited taking of state-listed plants or animals or for adversely modifying a Nature Preserve or a Land & Water Reserve.

Home rule governments may delegate this responsibility, through duly enacted ordinances, to the parties seeking authorization or funding of the action.

Who MAY consult?

Developers, consultants, planners, and others frequently consult regarding tentative projects to determine the presence or absence of natural resource issues. The Department encourages such consultation as most effective, most economical, and least disruptive.

What actions require consultation?

Any action that will change existing environmental conditions, i.e. anything that disturbs the land, water, or air. Examples include:

- construction
- discharge of pollutants or application of chemicals into the air, water, or land
- dredging any naturally occurring materials
- re-zoning from a non-urban classification to an urban classification (e.g. from agricultural to residential) or a change from one urban classification to another on land not used in its entirety for the original classification
- subdivision and other development plans
- infrastructure alterations (utilities, roads, sewers)
- land management
- alteration, removal, excavation or plowing of non-farmed, non-cultivated areas
- altering existing topography
- annexations
- parks, stream, or lake modifications

What actions are exempt from consultation?

Unless it is evident that they could directly or indirectly affect an endangered or threatened species or a Natural Area, the following actions are exempt from consultation:

- mowing within maintained highway rights-of-way
- routine resurfacing and application of oil and gravel to existing roads
- maintenance or repair of existing structures
- actions under a Department-approved management plan undertaken to maintain or improve natural ecosystem conditions or to re-establish pre-settlement vegetation conditions (such as prescribed burns, spot application of herbicides or brush clearing)
- maintenance of existing lawns, yards, and ornamental plantings
- routine cultivation of agricultural lands
- change of zoning requests for land currently zoned, developed, and used in its entirety for commercial, industrial, or residential purposes

How is consultation enforced?

The consultation requirement may be enforced through a writ of mandamus, which may be sought by any "affected" person from the circuit court with jurisdiction.

What are the consequences of NOT consulting?

- destruction of irreplaceable natural resources
- negative public relations and potential civil litigation
- injunctive action, civil penalties, seizure of property, or criminal prosecution

How does IDNR evaluate proposed actions that are in the vicinity of protected resources?

Based on the nature of the proposed action and the nature of the protected resource, staff will assess the character of the potential adverse impacts and whether an adverse impact is likely. For listed species, the assessment is based on the life requirements of the species. The assessment for Natural Areas and Nature Preserves is much broader, based on potential impacts to natural communities and the unique features of the Site or Preserve.

How Can I Make Consultation Effective?

- Plan proactively.
- Coordinate planning and development with other municipalities and governments.
- Know the natural resource issues in your area.
- Modernize zoning and subdivision ordinances to enable your government to impose natural resource protection measures.
- Incorporate resource protection measures into formal and enforceable agreements, permits, contracts, etc.
- Enforce ordinances, regulations, permit terms, and contract provisions.
- Educate officials, developers, consultants, and the general public about natural resources and laws protecting them.

What does consultation NOT do?

- It does not result in permits of any kind. Permits must be obtained from the respective regulatory agency.
- It does not satisfy the requirements of the federal Endangered Species Protection Act of 1972 and implementing regulations.
- It cannot prohibit or prevent a proposed action.
- It does not preempt, override, reduce or interfere with the powers of local governments or State agencies.
- It does not address impacts to natural resources which do not enjoy protected status, except to the extent they entail cumulative indirect adverse effects to protected resources.
- It cannot protect or conserve listed species, Natural Areas, or Nature Preserves without the active participation and cooperation of agency and local officials.

KENDALL COUNTY
DISCLOSURE OF BENEFICIARIES FORM

1. Applicant _____
Address _____
City _____ State _____ Zip _____

2. Nature of Benefit Sought _____

3. Nature of Applicant: (Please check one)
- Natural Person
 - Corporation
 - Land Trust/Trustee
 - Trust/Trustee
 - Partnership
 - Joint Venture

4. If applicant is an entity other than described in Section 3, briefly state the nature and characteristics of the applicant:

5. If your answer to Section 3 you have checked letter b, c, d, e, or f, identify by name and address each person or entity who is a 5% shareholder in case of a corporation, a beneficiary in the case of a trust or land trust, a joint venture in the case of a joint venture, or who otherwise has proprietary interest, interest in profits and losses or right to control such entity:

| NAME | ADDRESS | INTEREST |
|-------|---------|----------|
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |
| _____ | _____ | _____ |

6. Name, address, and capacity of person making this disclosure on behalf of the applicant:

VERIFICATION

I, _____, being first duly sworn under oath that I am the person making this disclosure on behalf of the applicant, that I am duly authorized to make the disclosure, that I have read the above and foregoing Disclosure of Beneficiaries, and that the statements contained therein are true in both substance and fact.

Subscribed and sworn to before me this _____ day of _____, A.D. _____
