

**AGRICULTURAL EXEMPT STRUCTURE
ZONING CERTIFICATE & AFFIDAVIT**

An applicant may choose to request an "agricultural exemption" for buildings and structures to be used for agricultural purposes. All buildings and structures, however, must comply with the setback requirements. Each applicant **must submit 3 copies of their Plat of Survey or comparable drawing no larger than 11x17"**, to show the locations of existing and planned structures, the property boundaries, roads, flood plains, waterways and other features which affect the location of the proposed structure prior to beginning construction. The Planning, Building and Zoning Department performs no inspections on an ag-exempt structure and does not issue a Certificate of Occupancy for an ag-exempt structure. We recommend that you check with your lender and insurance carrier to determine whether either or both require a Certificate of Occupancy.

New home permits are valid for one (1) year or the date of expiration of the well and septic permit, whichever is sooner. Non-dwelling permits are valid for one (1) year.

Agricultural purposes do not include the extraction of sand, gravel or limestone, and such activities may be regulated by county zoning ordinance even when such activities are related to an agricultural purpose.
