## Other Volunteer Options

The Kendall County Forest Preserve District has numerous volunteer opportunities. The Natural Area Volunteers improve the biodiversity of the District's woodlands, prairies, and wetlands through a number of management techniques. Brush removal, seed collection, invasive species control, and trail monitoring are some of the tasks the NAVs take on.

Ellis House & Equestrian Center has a dedicated troop of volunteers that assist with everything from horse care and mucking stalls to selling concessions and pony ride tickets.

No matter what your interests are, the Kendall County Forest Preserve District has a volunteer opportunity for you!

## Eagle Scout Projects and Girl Scout Gold Award Projects

The Kendall County Forest Preserve has project various opportunities for Eagle Scouts and Girl Scouts to meet requirements and build leadership skills!

## Kendall County Forest Preserve

### Volunteer Opportunities

---

## Natural Area Volunteers

Volunteers are a great asset to the Kendall County Forest Preserve District.

Volunteers can assist with the natural areas restoration projects underway at many of the preserves, at educational programs and events, and by helping to maintain the gardens at Hoover Forest Preserve.

If being outdoors and helping our natural areas sounds good to you, then plan on volunteering with natural areas restoration.

## Education Volunteers

The Kendall County Forest Preserve District has an environmental education department that has ongoing programs with all age groups during the year!

Assist with specialized public programs like Makin' Maple Magic or help on creek hikes during summer camp!

For more information contact the Education Program Manager, Emily Dombrowski:

## Schedule a Workday

Kendall County Forest Preserve District offers workdays for community groups. A workday can promote team work, a sense of community accomplishment, and a learning experience about local ecosystems!

Work days are great for classes, clubs, sports teams, church groups, company team building, and more!

Work days include a seasonal project based on preserve needs and age group as well as instruction and information on the native restoration!
