STATUS REPORTS

- **Health Department** – Diane Alford, KC Health Department Community Action Director, shared the science and mission of the weatherization program in Kendall County. Ms. Alford said they focus on home safety, insulation and operational detectors. Ms. Alford reported that with technology advances, their inspections are now computerized and they can quickly analyze a home’s air flow, furnace functionality, and operational smoke and carbon monoxide detectors.

Ms. Alford said they analyze and weatherize approximately sixty-five homes a year, half in Kendall County and half in Grundy County. Unfortunately, there is a weatherization waiting list for qualified home owners, if their home has not been weatherized since 1993.

Ms. Alford said that weatherization includes applying insulation in the attic, walls and crawl spaces, checking for proper home air flow, installation of new carbon monoxide and smoke detectors, installation of a fire extinguisher, correction of any air leaks throughout the home, as well as furnace and stove cleaning and safety checks.

- **Kendall County Soil and Water District** – Dan Koukol reported that they met last week, and they continue waiting on the State of Illinois for funding for their approve budget.

Mr. Koukol said that they are in the process of selecting the AG Teacher of the Year”. They have several soil erosion issues scheduled for the Spring, and will continue with the “Ag in the Classroom” school visits in January.

➤ **Water Related Groups** – No report

OLD BUSINESS – None

NEW BUSINESS

- ***County Board Oversight Restoration Ordinance*** – Member Prochaska provided history on the creation of the ordinance, and reviewed the document articles with the committee. Member Prochaska stated that Article 1, sections 1, 2 and 3 currently amend previously adopted county ordinances. Member Prochaska said that Section 1 – Private Sewage Disposal Ordinance, was adopted in 2004, Section 2 – Food Establishment Sanitation Ordinance, was adopted in 1998, and Section 3 – Amendment to the Kendall County Water Supplies Ordinance, was adopted in 2008. Member Prochaska stated that previously the County Board set the fees indicated in each ordinance directly. Member Prochaska reported that the Health Department Fee Schedule has not been reviewed or approved by the County Board in the past ten years.

When asked for her clarification on dates or the current ordinances, Dr. Tokars stated that she did not work with Member Prochaska or have any previous knowledge about his work on these ordinances. Dr. Tokars said that currently the law supports the Board of Health’s work which is typical, in reviewing and setting those fees.

Dr. Tokars went on to explain the Board of Health’s review process, and said that fees are reviewed every two to five years. Dr. Tokars said the process included:

1. Health Department staff reviewing the market rate in the Chicago Metropolitan area as well as other local counties
2. Health Department staff comparing and contrasting those services
3. Health Department staff reviewing services and fees in meetings with Dr. Tokars
4. Health Department staff reviewing services and fees in meetings with the Finance Committee of the Board of Health
5. Health Department staff reviewing services and fees in meetings with the Board of Health, and final approval of the Fee Schedule by the Board of Health

Chair Gilmour reviewed each section and proposed change with the committee. Member Prochaska presented an amendment from County Board member Wehrli for Section 2. Discussion on the authority of the County Board and the Board of Health in approving County Fee Schedules.

Member Purcell suggested the following verbiage for Section 2:

Upon approval of this ordinance, the Kendall County Board may review the current Kendall County Health Department Fee Schedules, and all new recommendations, additions, or changes, if any, provided by the Kendall County Board of Health, shall be approved, rejected or amended by the Kendall County Board

Member Purcell stated that this ordinance and practice of the County Board approving the Health Department fee schedules is consistent with the County Board approval of GIS, Sheriff, County Clerk and Circuit Clerk fee schedules. Member Purcell emphasized that the County Board are the County's elected officials, with the final decision for the business of the County, and that the Board of Health is appointed by the County Board.

Chair Gilmour asked the committee to review the original ordinances, and the proposed changes, and to be prepared to move forward with the issue at the next meeting.

- *Cupcake Law* – Following a comment by a concerned citizen at the County Board meeting, the committee briefly discussed the current law regarding food handling and sale by home owners. There was consensus that Member Prochaska would draft a County ordinance regarding this issue, and have the proposed ordinance reviewed by the State's Attorney's office prior to the ordinance proposal at the next meeting.

CHAIRMAN'S REPORT – Chair Gilmour listed the topics presented by the Health Department this past year as:
