WHEREAS, all procedures required by the Kendall County Zoning Ordinance were followed including notice for public hearing, preparation of the findings of fact, and recommendation for approval by the Special Use Hearing Officer on December 9, 2013; and

WHEREAS, the findings of fact were approved as follows:

That the establishment, maintenance, or operation of the special use will not be detrimental to or endanger the public health, safety, morals, comfort, or general welfare. The operation is controlled by the EPA and inspected regularly by the Health Department and have not found anything to endanger the public health, safety, morals, comfort, or general welfare.

That the special use will not be substantially injurious to the use and enjoyment of other property in the immediate vicinity for the purposes already permitted, nor substantially diminish and impair property values within the neighborhood. The Zoning classification of property within the general area of the property in question shall be considered in determining consistency with this standard. The proposed use shall make adequate provisions for appropriate buffers, landscaping, fencing, lighting, building materials, open space and other improvements necessary to insure that the proposed use does not adversely impact adjacent uses and is compatible with the surrounding area and/or the County as a whole. The operation has been open since 1993 with some minor debris issues a long time ago and since then there have been no complaints or issues. The newer water park exists less than a mile away to the east and still there have been no complaints about affecting the area properties.

That adequate utilities, access roads and points of ingress and egress, drainage, and/or other necessary facilities have been or are being provided. The special use will not be adding any new utilities, roadways or drainage to the property. They will use the current access point onto Beecher Road which has a gate which will be closed unless the operation is open.

That the special use shall in all other respects conform to the applicable regulations of the district in which it is located, except as such regulations may in each instance be modified by the County Board pursuant to the recommendation of the Hearing Officer. The special use conforms to all applicable regulations of the A-1 Special use district.

That the special use is consistent with the purpose and objectives of the Land Resource Management Plan and other adopted County or municipal plans and policies. This operation existed before the Land Resource Management Plan existed and the plan calls for the area to be residential which it could be when/if this operation ever ceases to exist.

WHEREAS, the Kendall County Board has considered the findings and recommendation of the Hearing Officer and finds that said petition is in conformance with the provisions and intent of the Kendall County Zoning Ordinance; and

WHEREAS, this special use shall be treated as a covenant running with the land and is binding on the successors, heirs, and assigns of the property owner as to the same special use conducted on the property; and

NOW, THEREFORE, BE IT ORDAINED, that the Kendall County Board hereby repeals Kendall County Ordinances #93-17, #97-13, #00-18, #08-17 and #10-28-11 in their entirety and hereby grants approval of a major amendment to their existing special use zoning permit to continue operation of their regional compost facility at 1270 E. Beecher Road modifying the site plan to eliminate about 10.5 acres, add about 9.5 acres northeast in the City of Yorkville subject to the following conditions:

Carol Stream, IL 60188

Dear Mr. Mazza:

You requested confirmation of the sampling schedule that is used by Analytical Chemistry & Environmental Services, Inc. (AC&E Services, Inc.) at your compost facility in Bristol, Illinois.

The compost is tested according to 35 Illinois Administration Code (IAC) Section 830.507(a) for each 5000 tons shipped.

The well at the site is tested once per year in May in accordance with your current permit. The soil is tested once per year in September. Two composite soil samples are taken; one in the detention pond at the west side of the facility and one taken at the end of the windrows at the south end of the property. The testing is performed in accordance with your current permit.

I hope this answers your questions concerning your current testing requirements. If any further help is needed, do not hesitate to contact us.

Regards,

Terese M. Laciak
President
